

BOURASSA CALLS FOR REPEAL OF NAVAL BILL

Nationalist Leader, in Signed Article Declares the People of Canada are Against it—Quotes Beresford's Book at Saying the British Navy is in a Bad Way.

Montreal, Feb. 2.—In a signed article, which occupies a large part of the front page of Le Devoir, this afternoon, Henry Bourassa, the Nationalist chieftain, calls on Premier Borden to repeal the Laurier naval law and takes him to task for not having taken the matter up before now.

His argument is that Lord Beresford in his book, The Betrayal, has declared the British navy to be in a badly disorganized condition, and therefore the Canadian people should not have anything to do with it. He says the only course to be followed is the repeal of the law.

"Why does the federal government, and the majority which supports it, hesitate to repeal this law?" he concludes.

"The election of the premier himself, the verdict of September 21 last, condemned the naval law no less than the reciprocity decree. If the treaty had been signed would the government have hesitated in demanding its annulment? What does it fear then in repealing this absurd law which no one wants—sincere imperialists no more than ardent Nationalists."

GOLDEN TRIBUTE TO SIR WILFRID FROM GOLD REGION

Valuable Presents From Liberal Yukon Miners Given to Ex-Premier

Ottawa, January 31.—There are some Liberals in the Yukon still and they think a good deal of Sir Wilfrid Laurier.

Yesterday they gave a most agreeable exhibition of their sentiments. Just before the House met, Mr. Congdon, who represented the Yukon in the last Parliament, with a party of Western Liberals, waited upon Sir Wilfrid and presented him with an address from Yukon Liberals which was contained in a moose skin case, with a miner's pick, shovel and gold pan scorched upon the outside. The nuggets are being spilled from the pan and they are real nuggets of real gold.

As a little birthday present there was a golden ink well with a fringe of nuggets about the top. There also was a paper cutter which has some class. It is a big one, of solid gold, from end to end, and weighs about a pound. On the handle an artist has worked out a northern scene in solid gold. A platinum river winds down between hills of solid gold of varied shades, clumps of spruce growing about their feet, while the midday sun is rising above them. There are miners cabins along the river, and a big moose is moving down to investigate. The picture is framed in nuggets of generous dimensions. The address was read and the presentation made by Mr. Congdon.

NOW REGARDED SERIOUSLY.

While Forestry as a business or, rather, a profession, is only about

"MY STOMACH IS FINE Since Taking Na-Dru-Co Dyspepsia Tablets"

Mrs. J. Merkhuger, Waterloo, Ont., enthusiastically recommends Na-Dru-Co Dyspepsia Tablets. Her experience with them, as she outlines it, explains why.

"I was greatly troubled with my stomach," she writes. "I had taken so much medicine that I might say to take any more would only be making it worse. My stomach just felt raw. I read of Na-Dru-Co Dyspepsia Tablets, and a lady friend told me they were very easy to take, so I thought I would give them a trial and really they worked wonders. Anyone having anything wrong with his stomach should give Na-Dru-Co Dyspepsia Tablets a trial, they will do the rest. My stomach is fine now and I can eat any food."

One of the many good features of Na-Dru-Co Dyspepsia Tablets is that they are so pleasant and easy to take. The relief they give from heartburn, flatulence, biliousness and dyspepsia is prompt and permanent. Try one after each meal—they'll make you feel like a new person.

WHAT A FARMER OWES TO FLAG-FLAPPERS

The following communication appeared in a recent issue of The St. John Telegraph:

Sir:—As one instance taken from a list of stubborn facts, permit me to tell you what one York County farmer lost in just one branch of his industry by the defeat of reciprocity. He is one of the best and most independent farmers in the large parish of Southampton; but, unfortunately for him, the five dollar bill paid by a man who "gets logs by the thousand," for a Fredericton concern, looked large on the 21st of last September, and he voted against "larger markets."

This winter he has sold about 200 barrels of potatoes (of 180 pounds each) for \$400.

Two hundred barrels of 180 pounds each, make 36,000 pounds of potatoes. Thirty-six thousand pounds of potatoes over in Maine make a little over 218 barrels—instead of 200—because they only take 16 pounds to the barrel; whereas in Woodstock they take 180 pounds.

Two hundred and eighteen barrels at \$2.80 a barrel—the price in Maine—give \$618.40, instead of \$400; or an actual loss to this man of \$110.40!

Will he vote against his own pocket again? It may be so; but it's a bitter pill for him to swallow just now.

The same man was forced to take five cents a pound for his heavy hogs, and six cents a pound for his pigs by the carcass. Last September he was told by those who know no more about farming or the pork industry than a chipmunk knows about wireless telegraphy, that if he voted for reciprocity he'd have to take five and six cents for his pork, instead of nine and ten which he got a year ago. Well, he voted against it, and took his dinner at the Tory Open House; but, horror of horrors! the unexpected happened—pork fell just the same. These are only samples taken from two branches of his industry.

Why is it that our hard-working men who produce the wealth of the country forget, at election times, that Tory heelers are out to deceive them in order that they may live without work?

Yours, etc.,

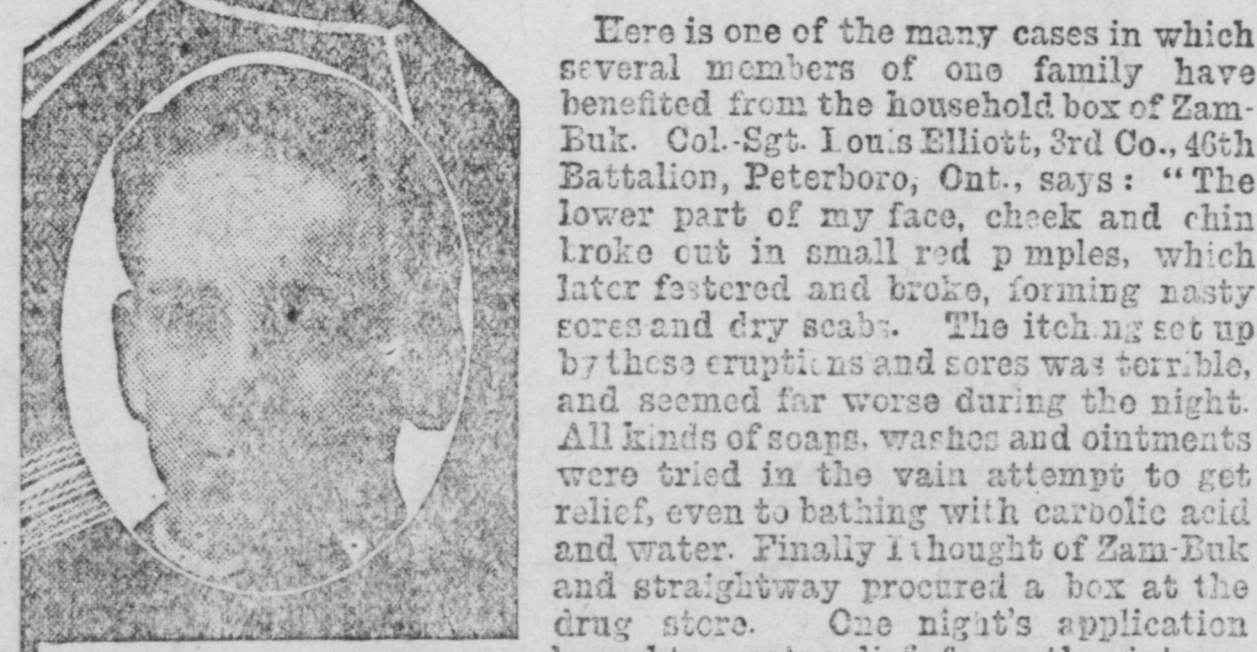

FARMER.

15 or 20 years old, its growth during that brief time has been something phenomenal. People, the country over, now regard the work of the tree doctor as a serious, necessary undertaking and not, as was the prevailing opinion at first, the nonsense of a faddist. Any kind of forestry work is undertaken by these practitioners, from the treatment of a single tree to the care, development and the protection of extensive forest tracts.

In the offices of such concerns it is a common thing nowadays to receive from suburban or country residents, who may own perhaps a single noble tree or a clump of trees that seem not to be thriving a request to look them over. Whereupon the concern sends out a tree doctor, an expert forester, who inspects these trees, root, trunk and branch, for cavities, for insect borers, for the detection of scale, the removal of dead wood and the most advantageous pruning of the live wood, for the bolting or the chaining of limbs if that should be necessary, for whatever may be needed to restore the trees or to preserve them in sound health and their normal beauty.

The modern forester undertakes to make orchards profitable. There are orchardists, to be sure, who know very well how to care for their trees and who do care for them; but there are also orchardists that are neglected or handled unskillfully. The forester will take a rundown orchard and by intelligent, scientific treatment of the trees, with systematic care, make it produce big and handsome apples in abundance.

2 IN 1 FAMILY

Here is one of the many cases in which several members of one family have benefited from the household box of Zam-Buk. Col. Sgt. Louis Elliott, 3rd Co., 46th Battalion, Peterboro, Ont., says: "The lower part of my face, cheek and chin broke out in small red pimples, which later fostered and broke, forming nasty sores and dry scabs. The itch was set up by these eruptions and sores was terrible, and seemed far worse during the night. All kinds of soaps, washes and ointments were tried in the vain attempt to get relief, even to bathing with carbolic acid and water. Finally I thought of Zam-Buk and straightway procured a box at the drug store. One night's application brought great relief from the intense itching, and as I kept on applying this balm daily, the inflammation was soon drawn out, and in less than a week's time the sores were thoroughly healed and every scab banished."

Mrs. Elliott, 139 Sherbrooke St., Peterboro, telling of Zam-Buk's effect on her younger son Walter, says: "He slipped and caused a wound on his right hip, which developed into a running sore. From this smaller sores spread until his lower limbs were covered with ulcers. These proved very alarming and I feared blood-poisoning! I began the Zam-Buk treatment, and it really seemed to aid like magic! In a remarkably short space of time the raw running sores were all healed. I am very grateful indeed for his cure, and I strongly recommend all mothers to keep Zam-Buk always handy."

WHAT ZAM-BUK WILL CURE.

Zam-Buk will be found a cure for cold sores, chapped hands, frost bite, ulcers, blood-poison, varicose sores, piles, scalp sores, ringworm, infantile patches, babies' eruptions and chapped places, cuts, burns, bruises, and skin injuries generally. All druggists and stores sell at 50c. box or post free from Zam-Buk Co., Toronto, upon receipt of price. You are warned against harmful imitations and substitutes. See the registered name "Zam-Buk" on every package before buying.

FREE BOX

Send this Coupon and 1c. Stamp to Zam-Buk Co., Toronto, and you will receive free trial box, 12 Z's.

WRITER IN ORANGE SENTINEL SEES A GREAT WORK FOR LAURIER

(By Bothwell, in Orange Sentinel.)

Ottawa, January 15.—Sir Wilfrid Laurier is an old man, but if he is spared another ten years he may yet be remembered as the greatest of Canadians. The task he is now disposed to attempt is one that would rank in history as being much more far-reaching in its consequences than any of his past performances. It is nothing less than the emancipation of Canada from French clerical domination, and the giving to Quebec of liberty of thought and action. For this delicate task, requiring both courage and finesse, Sir Wilfrid is remarkably fitted. No man in Canada is by his experience and by his natural gifts, so qualified to undertake it. Nor does anyone better appreciate the momentous issues involved. So it is a happy fact that the vagaries of fortune have brought Sir Wilfrid to the point where he is disposed to burn his bridges behind him and do or die.

The principles of Sir Wilfrid are truly liberal. His love of autonomy is a veritable passion.

Sir Wilfrid has no desire to play

"I Suffered Years With My Back."

Backache resulting from weak kidneys, a bad cold or other cause, usually renders the sufferer unfit for work and often results in permanent disability.

"I suffered for years with my back, or kidney trouble, and have tried a number of remedies from different physicians. More than a year ago, one of our local druggists induced me to try

Dr. Miles' Anti-Pain Pills and after using them some three months I found a decided improvement in my kidneys, and I am glad to say that I hope soon to be fully restored to health." J. P. ALLEN, Ex-Judge City Court, Glasgow, Ky.

As long as pain is present in any part of the body rest is impossible and the system becoming weakened is exposed to any form of disease to which the sufferer may be inclined.

Dr. Miles' Anti-Pain Pills by steadying the irritated nerve centers, make refreshing sleep possible, thereby enabling the body to recover lost strength. As a remedy for pain of any description Dr. Miles' Anti-Pain Pills are unsurpassed.

Sold by all druggists under a guarantee assuring the return of the price of the first box if no benefit results. MILES MEDICAL CO., Toronto, Can.

the game of the Nationalists. It is currently reported that they approached him with the proposal that they again should ally themselves with the Liberals, and that Sir Wilfrid promptly and scornfully rejected any such idea. He may even have gone further and have told them that while he had strength to resist them, he would oppose all their policies. That would only be in line with the written warning that Sir Wilfrid and French Liberals at Ottawa and Quebec sent to his Holiness the Pope. For that warning, given shortly before the election campaign last September, was part of a protest to Rome against the activity of the Romanes against the Liberal party. The pontiff was plainly told that nothing but disaster to the church could follow a continuance of their propaganda. The warning was only partially heeded.

HARTLAND.

Mr. W. H. Easton, A. M., one of the most popular of American elocutionists, has announced that he intends to visit Hartland on March 6. Mr. Easton has been the means of drawing large audiences wherever he has travelled. Not only so, but his labors have covered a great area, both in the cities of Canada, and also of the States. The remarkable success he has achieved elsewhere seems to assure him of a good reception in Hartland. In speaking of one of his discourses, Mr. T. McClary, lecturer of Minneapolis says: "An intelligent and up-to-date man. A good speaker with a good record, and with thoughtful subjects. His lecture on 'Robert Burns' charms the hearers, and throws 'a dale of light' on that interesting character. I can recommend Mr. Easton."

Woodalcohol is excellent to clean a fine gold chain, if the chain is soaked in it for half an hour, and then well brushed. Never black a kitchen stove. Wash it every day with clean soap and water. This will leave it black and smooth, and will not soil the hands. If gloves or garments of any sort are cleansed with gasoline, add oil of cedar—a few drops—and the disagreeable odor will not be noticed.

TWENTY YEARS AGO

From Sentinel Columns of February 6th, 1892

On Friday night of last week, Miss Lillie Shea left for Boston to take a course at the Conservatory of Music. A number of her friends were at the train to see her off and wish her a safe return.

Much interest is being manifested by its members in the recently organized debating club. On Tuesday evening an animated discussion took place on the question "Is the active militia of Canada a Necessity in time of Peace." It was decided in the affirmative.

Wm. Mercer, while at work in Upham's Mill, Monday, met with a very serious accident. He had the four fingers of his left hand cut off, by the circular, just below the knuckle joints. Dr. Connell, assisted by Dr. Kierstead, rendered the necessary surgical aid.

The date of this paper marks the 15th mile stone in the married life of Rev. J. E. Flewelling and his esteemed partner. A crystal wedding will be in order. The Sentinel heartily unites, undoubtedly with hosts of others, in wishing Mr. and Mrs. Flewelling and their family many long years of continued happiness.

Rev. J. E. Flewelling will re-deliver the sermon preached by him at Centerville on Sunday evening, on the subject of prayers for the dead, at East Florenceville, on the coming Sunday Evening. It may be stated that the Rev. gentleman takes the view that prayers for the dead are unscriptural, and that the Church of England does not teach her members to offer such.

Monday evening, Feb. 1st, the council held a session. Coun. Lindsay being absent on account of sickness.

John Donnelly was appointed auditor of the Town Treasurer's accounts.

The audit committee was instructed not to pay more than \$20, for the auditing of the town accounts.

The Electric light committee was instructed not to run the lights during the winter months.

The water committee was instructed to contract with Geo. W. Upham for 200 cords of wood at a price not to exceed that of last year.

On motion Churchill, seconded Hayden, a committee of three was appointed to confer with G. W. Shipp in reference to the damage sustained by his horse.

The mayor appointed Churchill, Hayden and Dow said committee. On motion Leighton, seconded Hanson, a committee consisting of Smith, Vanwart, Hanson and the Mayor was appointed to look after the suit of P. A. Watson against the town.

For a fern that is not thriving, put a little castor oil around the edge of the pot in a trench and watch developments.

THE EDISON PHONOGRAPH

is the popular instrument for the same reason that popular music is popular—it makes the biggest hit with the biggest crowd

—not only because of its great popular repertoire; not only because of its equally noteworthy classical repertoire; not only because of the true-to-life rendering which the sapphire reproducing-point insures; not only because of the Amberol Records, or because it is the instrument on which you can make your own records at home—but, because all these things form a combination which everyone recognizes as the greatest thing in the musical world today—the Edison Phonograph.

BRITISH RECORDS FRENCH RECORDS

In addition to our regular monthly list of Edison Standard and Edison Amberol Records, we issue regularly a number of British and French Records. Be sure to get the catalogs from your dealer when you go to buy your Edison Phonograph—and ask to have the new Record Supplements mailed to you free every month.

There are Edison dealers everywhere. Get complete catalogs from your dealer or from us. Edison Phonographs, \$16.50 to \$240.00. Edison Standard Records, 40c. Edison Amberol Records (play twice as long), 65c. Edison Grand Opera Records, 85c. to \$2.50.

Thomas A. Edison, INCORPORATED, 100 Lakeside Avenue, Orange, N. J., U.S.A.
