## HALIFAX FIRM LOST ACTION

ST. JOHN, July 7--At the adjourned sitting of the Circuit Court on Saturday afternoon, Justice White a verdict for the defendants in the breach of contract case of Robin, Jones and Whitman, Ltd., of Halifax, vs Porter, Manzer, Ltd., of Perth, N. B. The Plaintiff's sued to recover \$1,500 paid for 3,000 bags of potatoes ordered to be delivered at St. John, and which they alleged were damaged by being frozen before arrived here.

The defendant's contended that the potatoes were not frozen before delivery here. They were not examined, it was said, before being shipped to Havana, but the evidence showed that every precaution was taken in packing and shipping in the first instance.

W. G. Teed, K. C., appeared for the plaintiffs, and F. B. Carvell, K. C. and C. H. Elliott for the defendants.

The C. P. R. station at Fredericton was damaged Saturday evening by a run-off. The eastern end of the station was smashed and the platform torn up.

A. E. Brandon, an Englishman who lately came to this country from Somersetshire, has purchased a valuable farm at Burton from the St. John Valley Fruit & Land Company, and will go into fruit raising on a large scale.

## CHARLES CUNLIFF FELL FROM SECOND STORY WINDOW AND WAS KILLED

### Night Was Very Warm and he had Moved Bed Closer to Window--It is Supposed he Rolled Out Found by Hotel Proprietor

Charles Cunliffe, a retired farmer, belonging in Bedell, a guest at the Aberdeen hotel, fell from a second story window yesterday morning, and was instantly killed. The old gentleman had been stopping at the hotel a few days and retired as usual Wednesday night. Proprietor Wright saw him sitting in his room at 10 o'clock and spoke to him, asking if he required anything, at this time he seemed all right and remarked that it was very warm.

About 3 o'clock Mr. Wright heard a crash of glass, and at once investigated when he was horrified to see the huddled form of Mr. Cunliffe on the sidewalk, directly under his bedroom window. The bed had been drawn up close to the window, the glass was broken which would indicate that the old man probably rolled out.

The body was taken to Henderson's undertaking rooms. The funeral will be held today.

## KING STREET CROSSING TO HAVE GATES

### Mayor Ketchum Before Railway Commission--Bell for Queen Street

The railway commissioner in session in St. John Monday heard Mayor Ketchum of Woodstock, in reference to placing gates at King street crossing. The matter has been brought to the attention of the C. P. R. people numerous times, but no action has ever been taken. The railway commission on representations of Mayor Ketchum have signified their intention of placing gates at this dangerous spot and will do so as soon as some details in connection with the legal aspect of the affair are arranged.

The commission will also give orders for a bell at Queen street to be placed in position at once.

In expressing their views on the location of the gates the commission was aided by a map showing a "small island" in the centre of a small stream called "Meduxnekeag."

Mayor Ketchum explained that Connell Park, owned by the town of Woodstock, was an island in the main river, and just at the present time considerable interest and enthusiasm was being shown by the citizens in this island, and he would suggest that the map exhibited by the commission be revised, which could be done by placing the "small island" in its proper position and naming it Connell Park, and the hundreds of people who visit this beautiful spot could be protected by the gates asked for and which are absolutely necessary for the safety of everyone crossing the tracks.

## THE SOLDIER BOYS AT PETEWAWA CAMP

July 7--The staff officers were entertained today by Lt. Col. Good, 4th brigade who after luncheon was served was treated to a joy ride in the army automobile. It was with regret that Capt. W. W. Melville of the 1st Company of Engineers, together with his company, was forced

to take their homeward departure on Monday of this week, as their time had arrived for departure. Capt. Melville was known to all the officers as the most hospitable man in camp, and if it had not been for his hospitality the officers of the 10th Field Battery would have suffered many inconveniences. To express it in the Captain's own words: "His latch string was always out. Lt. Col. Good is one of the oldest as well as one of the most popular Artillery officers in Canada, and the 4th Brigade under his command comprising the 10th, 12th and 19th batteries are superior to all and second to none."

Dr. Grant of Woodstock has been the means of saving many lives including the Sentinel's reporter. The 10th Battery this year was put to many inconveniences owing to our V. S. Dr. Pugsley not being with us but through the assistance of Farrier Serg. Lamb we have gotten through splendidly. Many complaints are daily received concerning the horses of the 4th Brigade, especially those of Woodstock, which are known as the finest lot in camp, and the Serg. majors of the above Battery were taken as instructors for the entire camp. A great deal of dissatisfaction prevails here owing to the distance from civilization; there is not a lady within 15 miles of camp, and next Saturday, Woodstock will greet a bunch of men only semi-civilized. The camp is known as "dry" but evidence of a hole in the dyke is sometimes noticeable, but only to a limited extent. It was also regretted that Maj. Lollard was compelled to return home on account of ill health and 12th Battery as a consequence is minus a proficient officer.

Raymond Jones was arrested by A. R. Foster, Monday, for criminal assault on the young daughter of Judson Rideout of Bristol. The crime is most revolting and caused much excitement. About 25 men tramped through the woods, where the culprit had hidden after abandoning a bicycle on which he tried to get away. He was only captured after being brought down by a blow from a stone thrown by Fred Thornton. He was armed with a big knife, which he brandished about, and no doubt would have used it if he had a chance. Officer Foster hurried him aboard an auto and got him away from the crowd, who would have taken the law in their own hands, so great was the feeling over the diabolical act. Jones will get his preliminary hearing Saturday.

## WRECKED AUTO STILL IN GULCH AT SPRINGHILL

### Many Spectators Have Visited Scene of Accident--Wonderful That Loss of Life was Averted.

(Mail.)

The automobile belonging to Woodstock parties which went over an embankment at Springhill at an early hour on Friday morning is still lying at the bottom of a gulch twelve feet deep. An attempt to raise it by means of a derrick will probably be made today or tomorrow.

Since the accident occurred hundreds of people have visited the locality and have gazed with open-mouthed wonder at the overturned car. It is impossible to conceive how such an accident could have occurred without loss of life. Those occupying the car when it took the awful plunge were Dr. Griffin, Mr. J. C. Hartley, his son, Mr. R. P. Hartley and Mr. Thomas Gable. The latter was driving and it is supposed that he either lost control of the steering apparatus or that it got out of order. The car was traveling towards Woodstock at the rate of fifteen miles an hour and shot on the road and into the gulch so quickly that the occupants had no time to escape. Fortunately the top covering of the car was up and when it turned turtle this must have assisted materially in breaking the fall. The lamps were extinguished only a few minutes before the accident occurred, otherwise the car would certainly have caught fire and one or more of the occupants would have undoubtedly been burned to death.

A quantity of old poles and bridge timbers were lying at the bottom of the gulch and the car landed right on top of them. Three of the occupants were able to extricate themselves from the wreck but the other was pinned down and the car had to be raised before he could be freed. The top of the car was completely demolished and the steering gear was badly smashed. The engine, however, seems to have escaped damage and none of the lamps were broken. It will probably be several weeks before the car can be put in commission again.

Dr. Griffin, one of the passengers, wore eye-glasses and lost them when he took the plunge over the embankment with the car. One of the lenses was afterwards found beneath the wreck by a souvenir hunter.

## CENTENARY CHURCH AND REV. G. A. ROSS

At a meeting of the quarterly board of Centenary church held Monday, the following resolution was carried unanimously:

Whereas it has been brought to the attention of the quarterly board of Centenary church that there is an impression abroad that this body has some particular objection to the Rev. George A. Ross, personally, and Whereas no such feeling exists in the mind of any member of the board. Resolved, therefore, that we, the members of the quarterly board of Centenary church, place ourselves on record as having nothing, personally against the Rev. Mr. Ross, whom we all esteem very highly. This resolution is made in justice to Mr. Ross to correct the false impression referred to above.

Further resolved that a copy of this resolution be forwarded to the Rev. Mr. Ross and to the daily papers of this city.--Standard.
