Correspondence must be in the office by Wednesday at twelve o'clock to ensure publication that week.

FRIDAY, OCTOBER 18th, 1912.

A SPLENDID ASSET.

Truly this province has a big asset in its big game, which is rapidly increasing in every section of the broad area. A generation or so ago, to secure a moose it was necessary to travel many miles into the heart of the forest; now, the animals are sometimes killed within rifle-shot of the towns and villages.

Since the opening of the present season, if reports are true, the lordly moose is a familiar spectacle. Deer, too, have become so plentiful as to excite no more than passing notice. That more of these animals are not killed in the settlements may be attributed to the fact that most sportsmen go farther afield, where their chances are better—and they upon it by a potato grower-made almost invariably return with fine carcasses and broad antlered heads.

All this increase in the big game may be fairly attributed to the game law, which is being fairly well enforced thus preventing indiscriminate slaughter. In "old times" the method used in the hunting of moose was to wait until the snow became so deep and the crust so hard that the animals were unable to move rapidly; then a man with a gun, a dog and a pair of snowshoes sought their "yards," or winter quarters, and with the aid of the dog brought the quarry to bay, when he managed sometimes to shoot the dog—but more frequently to kill the moose. Bulls and cows and calves were thus slaughtered, so that before the present game law was enacted the big game of the province was almost extinct. Now, under proper care, the game is increasing very rapidly, and it behooves the people as well as the legislators to see that there is no violation of the law.

Of course, most, though not all, the resident hunters, who succeed in bringing down a moose or caribou or deer, bring the meat to their homes, and either distribute it among their friends, or otherwise dispose of it, so that it is used for human consumption. This is as it should be, for there is no more delicious morsel than the juicy steak of the "Forest Monarch." But in hundreds of cases throughout the province the animals are killed, and after the head has been removed, the carcasses is left to decay in the woods.

It is no doubt easier to make this assertion than to suggest a remedy. In most cases—in cases of non-resident hunters—the province is fifty dollars richer for every moose killed, but it is questionable if that fact justifies the destruction of so much valuable food. It is hard to form an estimate of the amount of meat thus destroyed each year; but it is safe to say that if it were all brought to market, many people in the cities and towns would enjoy cheap, wholesome meats during the hunting season at least.

THE PRICE OF POTATOES.

(Telegraph.)

The attempt, made recently by some Conservative newspapers, to convince the New Brunswick farmer that the local market offers him as good a follow.

price for his potatoes as the American market, has been abandoned.

Just now there is a strong protest in the United States against the quarantine regulations proclaimed against potatoes from the United tour through the west, and his ob-

Kingdom, Germany, Austria-Hungary servations have led him to this con- and Newfoundland. The Evening Sun

of New York denounces the quaran- return to power triumphant at the time as suspicious, and as having next general election—perhaps this

been promoted for years by politic- coming year. Sir Lomer is a man of ians representing large potato grow- very keen perception, and always

ers. In New Brunswick, as we know, reliable in his prophecies. Ontario

potatoes in this country have led to rier gatherings in Ontario demon-

strating that Ontario is rather asham- ed of itself for having given such

tariff passionate vent to religious and rac- ial prejudices last year; that the Lib-

eral party is full of life and eager to take up its new work; and that the confidence in Sir Wilfrid Laurier's leadership is absolute.

There has been little demand for po- has just given a remarkable demon-

eral party is full of life and eager to take up its new work; and that the confidence in Sir Wilfrid Laurier's leadership is absolute.

BORDEN'S TROUBLES

The Ottawa Free Press thus con- denses Rt. Hon. Mr. Borden's trou- bles into small compass, but that

does not make them any lighter: "The west wants wider markets; the canners want no duty on to- matoes; the suffragettes want a vote; Armand Lavergne wants no navy; Ottawa wants a drill shed; the man-

ufacturers want the preference de- creased; and there's no end of trou- ble for Premier Borden."

And there are more to come. This suggests the pat little couplet of Scott—

"O what a tangled web we weave When first we practice to deceive."

UP AGAINST IT.

The Halifax Chronicle on the morn- ing of the Macdonald election said:

"It seems only reasonable and prob- able to expect that the Government forces will carry Macdonald, in to- day's by-election in Manitoba. They

are in the exact position of "Tow- ser" who had to climb a tree because the bear was "right after him."

The loss of Macdonald would mean so much to them, would be so deadly a blow to their already dwindling hopes, so utterly demoralizing to their supporters all over the Domi-

nion, that they simply must win, or accept the inevitable at once.

And, whatever the result, the out- look for the Liberal Party will be in no degree obscured. That outlook is, and will continue to be, as bright

as any party in opposition could wish. Mr. Borden's difficulties and dangers are daily increasing among

his own followers not only in Parlia- ment but around his Council Board. He has already definitely lost the

great Province of Quebec. Hardly a corporal's guard will be returned by it, in his support, in the next elec-

tions. How the political tide is set- tling in Ontario has been abundantly shown by Sir Wilfrid Laurier's recent

triumphal tour through that Prov- ince. The people have rallied around him in a way to astonish even his

most optimistic friends there and elsewhere, and in a way to discour-

The gentlemen who are so interest- ed in the expenditure of money for streets might devote some of their energy towards securing information as to the expenditure in connection with the Imperial Packing Company.

It is quite evident that no sincere endeavor has been made to ascertain the facts of this expenditure with an object to be of service to the community. There are some ugly rumors afloat in connection with this matter that should be cleared up.

Speaking of the Roblin-Rogers ma- chine a Western paper says:—"All other organizations for cor-

ruption and manipulating voters in the whole Dominion are mere kinder- gartners in comparison with the

deadly Manitoba machine which strangles a constituency much as a boa-constrictor envelopes and de- stroys its victim. When it takes the field the Decalogue and the Criminal Code cease to run in the Province of Manitoba. And everybody knows this to be true."

If the members of the town council will act on all matters as promptly as they did in the case of the Home theatre they will be doing about all the people ask of them. Perhaps some matters of importance that have not yet received the attention of the Council have been allowed to lapse owing to lack of initiative on the part of some public spirited citi- zens in asking for action. If this is the case the citizens should see to it that interest, in town affairs, should not be allowed to lapse on account of negligence.

We are apt to sometimes find fault with existing conditions and give too much attention to trivial and unimportant shortcomings. Every community has its drawbacks and everyone its objections but few, if any, can boast of the natural advantages to which Woodstock is heir. If some of the time that is consumed, in fault-finding were devoted to trying to improve local conditions and in seeking to help rather than hinder, the town could be placed in the fore- front of municipalities of its size.

The C. P. R. has again demon- strated its willingness to add to the prosperity of the town of Woodstock by charging sixteen dollars to move the steam roller about four hundred yards. It will be well for the town to get assurances from the C. P. R. that when the town fire department is asked to assist in saving out of town property, for the railway, that the transportation will not be charg- ed up to the town.

It is true that crops will grow in spite of political parties, but the his- tory of the land will show that there must be a market for the crops, or the farmer will gain nothing from the fullness of his barns. The mar- ket exists today. Why prevent the farmer from taking advantage of it?

One of the largest produce shippers in the Maritime Provinces figures that Nova Scotia, New Brunswick and Prince Edward Island have lost Twenty Million Dollars by the defeat of Reciprocity. The people are pay- ing dearly for the victory of the Big Interests.

One of the best ways to develop the natural resources of Carleton County is to let Carleton County people and dwellers in other places know that she has resources. And the way to do this is by publicity.

Rev. J. B. Daggett has been ap- pointed secretary for agriculture. The Rev. gentleman's activities have re- cently been directed along lines of preaching conservative doctrine and exploiting the Canada West India Co.

The defeat of reciprocity was a calamity for the Maritime Provinces as well as for the West. The people are seeing how they have been fool- ed.

It is better that foreigners should go home to fight for their native countries than to use knives and razors in this country.

It is getting to be an open ques- tion whether an aeroplane flight is a success unless the aviator is killed.

A number of Woodstock gentlemen had business in New York and Bos- ton last week.

A good hotel is one of the best standing advertisements a town or city can have.

Will the town "come across" for moving the street roller?

WHICH?

paying dearly for the victory of the Big Interests.

WOODSTOCK CHORAL SOCIETY

The General Meeting of the Wood- stock Choral Society was held in the School-room of St. Luke's Church on Monday evening, Oct. 14th, and judging from the enthusiasm displayed by the members present a very successful season is anticipated.

The report of the Treasurer showed the Society to be in excellent financial condition having a cash balance on hand, as well as several sets of choruses, etc.

The chair was occupied by the President, R. G. Allan, who congratulated the members on their excellent showing during the past season and urged them to give the same hearty co-operation during the ensuing season, as the citizens of the town, all of whom were deeply interested in the work of the chorus, would look for good results when they appear before them in Choral or concert numbers.

The following officers were un- animously elected:—

Hon. President, His Worship the Mayor of Woodstock, T. C. L. Ket-

chum, Esq.; President, R. G. Allan; Director, Dr. I. W. N. Baker; Secre-

tary, R. Norman Loane; Asst. Secy., A. T. Baker; Treasurer, Mrs. R. E. Holyoke; Accompanist, Mrs. E. W. Mair; Asst. Accompanist, Miss Lamb.

Managing Committee—Mrs. Garden, Mrs. Watters, Mrs. McElroy, Mrs. R. G. Thompson, Miss King, Mr. Betts, Mr. Cronkite, Mr. Watson.

The programme for the season of 1912-1913 has not been finally decided on but will probably take the form of a popular Cantata and separate choruses—two of the latter of a humorous character will be here in time for the next rehearsal on Mon-

day evening next.

It was unanimously decided to con- tinue the membership fee of last season—as this had been found suffi- cient to meet the expenses, as the society was for social and not com- mercial purposes.

The members extended a very cord- ial vote of thanks to Mrs. Mair for her never failing and efficient services as accompanist.

Ladies or gentlemen wishing to join the Society are cordially invited to do so. "The More the Merrier" being their motto, and as the Society is composed of the best singers of the town a very pleasant, social and instructive time is anticipated during the Winter Season.

Fort George "is making good" and investors have the advantage of ex- ceedingly liberal terms in Plan 1. All cash with order, discount 10 per cent. Plan 2 Orders under \$350.00, \$20 cash and \$20 per month. Over \$350.00, \$30. cash and \$30 a month.

John T. G. Carr, Hartland, is sales agent for Fort George propert- ies.

The out-door events of the Golf and Tennis Clubs on Saturday were abandoned owing to the inclement weather. The annual tea was held in the club house. The winners in different events during the season were presented with prizes.
