

# CURIOSITY Prompted Many Women To Try PURITY FLOUR

THEY were curious to see exactly what results would be produced by flour consisting entirely of the high-grade portions of the best Western hard wheat.

They were curious to know more about a flour that contained none of the low-grade portions, which are found in every wheat berry, but which are separated and excluded from the high-grade in the process of milling PURITY FLOUR.

THEY were curious to know whether an ALL HIGH-GRADE hard wheat flour was really superior to a mixed hard and soft wheat flour. They were curious to see and taste the kind of bread, buns, biscuits, cakes and pies PURITY FLOUR would make.

Curiosity prompts you to seek the knowledge they discovered. It's urging you to try PURITY FLOUR.

REMINDER: On account of the extra strength and extra quality of PURITY FLOUR it is necessary, for best pastry-results, to add more shortening than you are accustomed to use with an ordinary flour. Add more water when making bread.

#### GOOD CORNER.

The busy season of the year is now on with the farmer. Ellis Carmichael returned from Montreal 4th inst looking much the same.

While white washing last Friday Mrs Ingles Harold fell from a chair and sustained some bodily injuries. Herb Good cut 14 bbls of seed potatoes last Friday in ten hours. Considering the seed being cut small for a Robbins planter we consider this a record hard to beat.

Rev H Pierce of Centreville called on the writer last Saturday.

Housecleaning is on; the ladies are again in command, and the bed bugs are singing: "Why do we mourn departing friends?"

We notice a large number of wild ducks have returned, to again build their nests, a fairly good number of partridge have also escaped the hunters gun and the frosts of winter.

Mr and Mrs Harvey Lunt of Bridge water visited at the home of J A Good last Sunday.

Men of every description, in quest of suckers, lined our roads last Sunday, and drinking was fearfully common.

The housefly has returned and with him came his subordinate officer the mosquito. The former tries your patience all day and the latter keeps you awake all night.

The fly is a hard insect to capture, as he has six legs and four thousand eyes. He is not very cleanly in his habits for being born in dirt he loves it, and without stopping to even clean off his feet, he dances a jig on your bald head; and being expelled by force he takes a high dive into your cup of tea. He may have a useful place in life, but like the runner, he certainly does not make an independent living.

William Crandemire had a plowing-bee last Tuesday.

#### WESTON.

(Too late for last week)

May 9th.—The farmers in this vicinity are busy sowing grain. The season is very backward and cold.

Frank Carpenter lost a very valuable mare last week.

Charles Davis has gone river driving at Burnt Land Brook.

Fred Cunningham sold two fine cows and has bought a nice pair of oxen from Henry Davis of this place.

Messrs. Stephen Porter, Fred Cunningham and Jarvis McLellan, have purchased a manure spreader from the Massey-Harris Co.

Fred Kidney bought a new disk harrow. Adrene Smart has also bought a new harrow.

Robert Kidney spent Sunday with his son Robert Kidney of Hartland.

Miss Grace McLellan is working for Mrs. Robert Kidney.

Mr. and Mrs. John A. Carpenter of Bloomfield, were visiting their son Frank Carpenter of this place, recently.

Miss Ella Kidney is spending a few weeks with Mrs. Frank Carpenter this spring.

A number of the young folks of this place attended the dance at Lower Bloomfield last week.

Thomas Davis is working for Adrene Smart this spring.

Miss Mabel Davis is working at Mars Hill, Me.

All grains or grain mixtures may be best sown with the grain drill. The same is true of sorghum, kafir corn, and even millet, though all these may also be broadcast.

Weeds cause an annual loss of many million of dollars. Weeds are often distributed with the grass seed or seed grain sown. Too much care can hardly be taken in making sure that no bad weeds are sown in this manner. If you do not know of any of the weed seeds found in any of your farm seeds, send a small sample to the Agricultural College and have them identified. This will be done free.

### Second Marriages

If a gentleman can fail in business in October and pay five cents on the dollar and spend the winter in Bermuda and open up for business again at St. Paul, Minn., I don't see why some poor misguided girl should not have a second
