

Prescriptions

are orders from your doctor for certain ingredients to be made into a medicine.

Whether these are put up just as your doctor desires or in some hurried, careless way, will mean considerable as to the beneficial results obtained.

What's the use of having a doctor and getting the medicine unless you know it is filled up just as it should be?

Bring your prescriptions here. We are cranks on filling prescriptions exactly right.

This means more than we are exact on measurements and weights of the different ingredients. After the articles are weighed there is a right and a wrong way to mix them.

We are careful to mix them to secure the best results and don't dump them carelessly together.

Bring your prescriptions here if you would be sure of getting the best possible results from your doctor's advice.

LOCAL AND GENERAL

"The Younger Set" a story of intense interest will begin in the Sentinel next issue.

Bishop Richardson who was stricken with appendicitis a few days ago, has recovered and is able to attend to his duties.

Send your subscription, or renewal, and start with next issue to read Robert Chamber's great story "The Younger Set."

An "Indignant Citizen" writes the Sentinel of the brutal treatment of a man by the police, Tuesday night. If the facts are as stated the case should be reported to the police committee, who will no doubt take whatever action is considered necessary.

A young son of Charles Corey while on his way home Tuesday evening was attacked by a strange man and badly beaten. He was almost choked into insensibility. Although it was not quite dark the miscreant managed to get away and the police have not been able to find him.

A Methodist Clergyman writes in reference to Go-Preachers: "Two fellows, Cook and Allen, have been at Highgate for two weeks. After their service was over one night, I offered to present evidence to show who they were and how they had wrecked homes elsewhere. I drove out from Hartland and listened to them, but after the meeting I was ordered out of the school house and was not able to present my evidence."

At the police court on Wednesday afternoon the trial of Dougal McGilivray for breaking and entering the store of William Oldenburg at the Lower Corner took place. The prisoner was defended by W. P. Jones. K. C. After hearing the witnesses for the prosecution, upon the motion of Mr. Jones the prisoner was discharged. The police magistrate decided that the evidence was not sufficient to put the accused upon his defence. Patrick Georgian and Chas. Douglas, who were arrested in connection with the offence were previously discharged.

Mr. Charles Henderson, for some years past well known to the travelling public as conductor on the express train on the C. P. R. from St. Stephen to Edmundston, has been promoted to the position of trainmaster on the Northern Division. Mr. Herbert Colwell, of Fredericton, is to take charge as conductor of Mr. Henderson's train on the St. Stephen-Edmundston run. Mr. Henderson has also had good luck with some investments of late, having recently refused an offer of \$20,000 for property at Saskatoon which originally cost him only \$500 some years ago. The American lumber market continues to take large shipments of boards, laths and shingles from St. John and other ports of the province. The American price for shingles is now very high, and as the market is good, it is likely the price will continue at its present level for some time. The North Shore is shipping an unusually large quantity of lumber, laths and shingles to the States and also to upper Canadian cities; the Canadian shipments being made by railway. There is some difficulty getting cars as well as vessel to handle the lumber products of the province.

This section has been visited with some heavy rains, but the storm commencing Thursday and continuing until Saturday night was undoubtedly the heaviest this season. Although it fell in torrents no bad results were noted in town and no serious damage has been reported. Roads in the country are washed out badly, but in no case is the damage so extensive that it cannot be repaired without much expense. The C. P. R. had some washouts but not serious enough to interfere with the regular schedule. The farmers in some districts will meet with losses on account of harvesting and digging not being completed.

Mr. William C. Snow, senior member of the insurance firm of Masters & Snow, died suddenly at Moncton on Monday. Mr. Snow was a native of Kings county and was 68 years old. He was a son of the late William Snow, the father of the woolen industry now conducted at Humpreys. The late Mr. Snow was very highly esteemed. His home was in Lewisville. He held the position of clerk for the Parish of Moncton many years. He is survived by a widow, two sons, Dr. H. W. Snow, Sackville; C. M., at home, and three daughters—Mrs. H. E. Gross, Mrs. F. A. Taylor, Moncton, and Miss Winnifred, at home. He was a member of the Moncton First Baptist church and of the Masonic order.

"As the editor this week is the whole staff, not excluding the duties of the 'Printer's Devil' this is not as newsy a sheet as we would like to turn out." Mr. Hill is well known in New Brunswick and at one time worked in Woodstock. In addition to the recent purchase of the Herald, he also bought a controlling interest in the Bridgeford Post.

LOCAL AND GENERAL

Advent Church, Maple St., service, next Sunday evening, to be conducted by Mrs. C. D. Dickinson. All are welcome.

Thanksgiving passed off quietly, there was a general suspension of business and the churches held special services.

The men on the police force earned their salaries during the past week, and in their efforts to have peace and quietness in this hamlet in the Valley of the St. John, they were compelled to work overtime. It has been stated, that never before in the town's history has so much drunkenness been seen about the streets. The "insanity juice" seems to flow as freely as water and its potency is evident in the line-up in the police court each morning.

Not Dead Yet

The Canadian Tories describe Great Britain as a decrepit nation on her knees begging Canada to come to her assistance with a dose of money. It is evident that her own government does not so regard her, for the other day, when Italy threatened to force the Dardanelles in order to menace Constantinople, Great Britain said,—"Oh no. You must not! Instead go at once and make peace with Turkey," and Italy stayed her hand against the Dardanelles and went and made peace. The old dog has yet got sharp teeth; but God help her on the day that the Tories of Canada have anything to do with her government, for, if that evil day comes, they will bleed her people white.

BORDEN'S CHEAP PLAN

(From the Toronto Globe.)

Mr. Borden is to save the Empire by borrowing \$30,000,000 from British money-lenders and turning it over to the British Government, which builds out of current revenue all the warships for which it can find crews. Britain needs the help of Canada's sailors, and Borden proposes to compromise by a small payment in cash.

A SORE SPOT.

"What got you into trouble with this policeman?" demanded the New York Judge.

"Just trying to ask him a civil question, Your Honor," said the visitor; "nothing more."

"What was that question?"

"I just asked him when the next official murder would be dragged off."—Louisville Courier-Journal.
