

As an entertainer, the Edison Phonograph is a wonderful thing. It brings the talent of the world's greatest artists into the home and places it at the disposal of whoever cares to listen. The

## Edison Phonograph

has every improvement and advantage which the genius of Thomas A. Edison has been able to suggest. Put one in your home. Your whole family will welcome the new songs, the good stories and the bright music. There is an Edison Phonograph at a price to suit every purse. There are new records of all the new music and songs every month. Any Edison dealer will demonstrate and explain this greatest of all home entertainers.

There are Edison dealers everywhere. Go to the nearest and hear the Edison Phonograph play both Edison Standard and Edison Amberol Records. Get complete catalogs from your dealer or from us. Edison Phonographs, \$16.50 to \$240. Edison Standard Records, 40c. Edison Amberol Records (play twice as long), 65c. Edison Grand Opera Records, 85c to \$2.50.

A complete line of Edison Phonographs and Records will be found at

**A. E. JONES & Co. King St.**

## TWENTY YEARS AGO

From Sentinel Columns of  
April 2nd, 1892

The handsome parlors of Mrs. Geo. H. Connell, Thursday evening of last week, were placed at the disposal of the Methodist choir, for the purposes of a concert. The spacious rooms were crowded with a highly delighted audience, and everything passed off in a most successful manner. The program was a good one—good because not unduly long—better on account of its pleasing variety—best from its excellent rendering, its good qualities culminating in the satisfactory amount of money realized. The program was—chorus by the choir, The Boatman's Song; reading by Mr. Balmain, A Lesson for Husbands; solo, by Miss Cupples, My Lady's Bower; recitation, by Miss Isabel Watts, Bernardo del Carpio; chorus, by choir, Memory's Golden Shore; solo, by Miss Alerton, Daddy; speech by Rev. Wm. Dobson; solo by Miss Mabel Jewett, Fiddle and I; duet by Misses Ada Hendry and Jennie Townsend, Beautiful Sea; solo by Mr. Diagneau, A Song of Trust; reading by James Watts, The Deacon's Confession; solo, by Miss Ella Smith, The Four Maries; chorus, Mother's Lullaby; God Save the Queen.

Ed. Taylor, while stepping from the sidewalk, at Garden Bros. Corner, on to the crossing between there and McLaughlin's store corner, on Saturday night, slipped and fell, breaking the bones of one leg just

above the ankle. He was carried into Garden Bros. drug store, from whence he was taken to his residence, where Dr. Sprague attended and set the fractured limb.

On Tuesday evening last Mr. A. B. Hood, late accountant of the Merchants Bank here, who is about taking his departure for the West, was tendered a farewell supper by Mr. Budden, the genial proprietor of the Vendome Restaurant, at which a number of Mr. Hood's gentleman friends were present.

After supplying the wants of the inner man the following toasts were proposed:

Our Guest responded to by Mr. Hood.

Our Host, responded to by Mr. Budden.

Our Queen and Country responded to by Messrs. Murphy, Lithgow and McKenzie.

The Ladies responded to by Messrs. Johnston, Lithgow and Walker.

The Hotels, responded to by J. H. Wilbur.

The Telegraphers responded to by Messrs. Dow and Murphy.

Bank Clerks, responded to by Mr. Williams.

The company then closed by singing "Auld Lang Syne." Mr. Hood, during his stay here, has made many warm friends, who, though sorry to see him leave, yet wish him every success in his new vocation.

He leaves for St. Paul on Friday.

Mr. A. Gans, King street, slaughtered, Thursday last, a three year old heifer, which weighed, when dressed

545 lbs.

Mr. and Mrs. Chas. Whennan and daughter, Miss Agnes, left Thursday for Centreville and Florenceville, to visit their many friends.

Capt. T. S. Duncan has been confined to his house for some weeks through a severe illness. He is, we are glad to know, rapidly recovering.

Ed. Saunders, after having passed a highly creditable terminal examination at McGill Medical College, is home to spend the summer vacation.

The death of James C. Watson, a native of Fredericton, and at one time a resident of Woodstock, is announced as having occurred at West Somerville, on the 11th inst.

Mr. Lem. Payson, of Greenfield, Mass., and Mr. George Payson, of Auburn, Me., have been in Town during the week visiting their mother, Mrs. Alanson Payson, who is seriously ill.

Benjamin Churchill, Benjamin Hagerman and Spurgeon Everett, with their respective families, all of Jacksonton, left on Thursday to take up their residence at Fort Fairfield, Maine.

Connell Bros. shipped to New Castle, Northumberland Co., last week, seven of their celebrated shingle machines, each having the Kearney patent jointer attachment. These were all shipped to order, and filled an entire car. The machines were of the most perfect manufacture, and were very much admired by those who inspected them at St. John, while in transit over the Intercolonial.

## SPRAYING MIXTURES

The following are a number of mixtures suitable for various uses:

Kerosene Emulsion—For sucking insects, cabbage worm and insects with soft bodies. Coal oil 2 gal; boiling water, 1 gal; hard soap, 1 lb. Churn thoroughly. Dilute 5 to 20 times before applying.

Paris Green—For insects which chew. Paris green, 1 lb., water 200 gal. When used on fruit trees, 1 lb. of quick lime should be added. Paris green and Bordeaux can be applied together if desired.

Copper Sulphate Solution—For fungous diseases. Copper sulphate, 1 lb; water, 15 to 25 gal. Is ready for use as soon as dissolved. This should never be used before buds break.

Bordeaux Mixture—For rot, moulds, mildew and fungous diseases. Copper sulphate (blue vitriol) 8 lbs, quicklime (good stone lime), 4 lbs; water, 50 gal. Dissolve the copper sulphate by putting in a coarse cloth and hanging in an earthen or wooden vessel containing 4 to 6 gallons of water. Slack the lime in an equal amount of water then mix the two and add enough water to make 50 gallons.

Ammoniacal Copper Carbonate—Copper carbonate, 5 oz; ammonia 26 degrees, 3 pints; water 45 gallons. Make a paste of the copper carbonate with a little water, dilute the ammonia with ten or twelve quarts of water, add the paste to the diluted ammonia and stir until dissolved; then add enough water to make 45 gallons. This mixture loses strength on standing.

Heleboro—For insects which chew. Fresh white heleboro, 1 oz; water, 30 not only on weather and transportation conditions, but upon the energy and resourcefulness of her farmers.

Whether the west will have a 258,000,000 bushel wheat crop will depend not only on weather and transportation conditions, but upon the energy and resourcefulness of her farmers.

don't want a valet to my vanity, but one for my money.

10. Don't kick if I kick. If you're worth while correcting, you're worth while keeping. I don't waste time cutting specks out of rotten apples.

## A FRAME-UP.

(From the New York Times.)

One day Freddie and his sister sneaked surreptitiously into the pantry on a foraging expedition. The only good things to eat they could find were some cookies and a bowl of whipped cream.

"Let's take the cookies," said his sister.

"I'd rather have the cookies myself," replied Freddie, "but if we took them we'd be sure to get caught. The only safe thing to do is to take the cream and then shut the cat up in the pantry."

Dampness will soon tarnish brass articles. But if they are kept in a dry and cool place, they will remain untarnished for a long time.

Have bowls of enamelled ware in which to keep your left-overs, then you can put them on the stove in the same dish if you wish to heat them over.
