

Prescriptions

are orders from your doctor for certain ingredients to be made into a medicine.

Whether these are put up just as your doctor desires or in some hurried, careless way, will mean considerable as to the beneficial results obtained.

What's the use of having a doctor and getting the medicine unless you know it is filled up just as it should be?

Bring your prescriptions here. We are cranks on filling prescriptions exactly right.

This means more than we are exact on measurements and weights of the different ingredients. After the articles are weighed there is a right and a wrong way to mix them.

We are careful to mix them to secure the best results and don't dump them carelessly together.

Bring your prescriptions here, if you would be sure of getting the best possible results from your doctor's advice.

LOCAL AND GENERAL

The Woodstock and Houlton ball teams went to Calais yesterday.

The band gave a concert Tuesday night that was enjoyed by a large number of people.

Some beautiful plants in Fewer Bros. window are attracting the attention of passers by.

A horse backed over the dump at the crusher Friday, except for a few scratches the animal was uninjured.

An excursion train bearing a large number of people from Fredericton and other points went through on Friday to Houlton.

The extreme heat of last week drove many people to the lakes and other resorts where the temperature was more in keeping with ideas of and comfort.

Franklin Cunliffe was the name of the old gentleman who met with a fatal accident by falling from the window of the Aberdeen hotel. The name appeared as Charles, was the name given us.

Rev. Percy Hayward from Philadelphia, will preach at the Advent Church, Maple St., next Sunday at 3 p. m. His many friends will be glad of the privilege of hearing him. All are cordially invited.

The rain Sunday was a most welcome relief, after the prolonged dry weather. The temperature was lowered and breathing made much easier. The gardens, fields, farmers and almost everybody were smiling when the sharp shower was over.

"What constitutes a day's work?" We figure it out that it depends altogether on your occupation. If you lay brick, eight hours; if you keep house, sixteen hours; if you preach the gospel, two hours; if you are a porter in a sleeping car, twenty hours if you serve the government, one hour; and if you are a newspaper man, twenty-four hours.

A large number observed the 12th by attending the celebration in Houlton, which was held under the auspices of the Orangemen. The day was fine and the horse trot and ball game at the park attracted a large crowd who watched both events with great interest. A good time generally was enjoyed by those who were out of town.

An outstanding feature of the large crowd on the streets Friday night was the reckless driving of two men, evidently loaded up with "Mountain Dew." The efforts of several persons to act in the capacity of advisers were not appreciated by the hilarious occupants of the team, who persisted in their exhibition until their horse was too tired to keep up the pace demanded. The brand of "potato juice" now being put on the local market is verily potent stuff.

In the matter of heating and plumbing you cannot exercise too much care. The health, comfort and happiness of your family depends largely upon the sanitary conditions within your dwelling, and nothing contributes so much to this end as good modern plumbing, coupled with perfect apparatus for heating and ventilating all apartments. Consult a good authority before doing this work. Fewer Bros., whose advertisement in this issue, have every facility the best materials and competent help, and can give every satisfaction.

The following arrangements have been made for the minister's vacation in St. Paul's Church.

1. July 21st, church closed in the morning, but regular service in evening. Rev. Mr. Millar, of Richmond, preaching.
2. July 28th, church closed all day.
3. Aug. 4th, church closed in morning, regular service in evening. Mr. Millar preaching.
4. Aug. 11th, church closed all day.
5. Mr. Baird and family left July 16th, for Chipman, N. B., and expect to return Aug. 16th, after which regular Sunday services will be resumed.

POSTAGE STAMPS—Anyone having an old collection of old envelopes with the stamps on and desiring to turn them into money would do well to write to F. R. Phelan, 457 St. Catherine West, Montreal, Que., stating what they have and price wanted, or else send collection or envelopes direct to above address, giving price.

Only stamped envelopes bearing dates previous to 1870 need be sent. Loose stamps will be taken if over 40 years old. 11-p-29

LOCAL AND GENERAL

All roads will lead to the picnic at St. Gertrude's grounds, July 30th.

An alarm was rung in Wednesday evening for a slight blaze at the tannery.

Mayor Ketchum is building a house on Green street. The structure has reached the boarding in stage.

St. Gertrude's Church will hold a picnic, on the church grounds, Tuesday, July 30th.

An elaborate program of sports has been arranged, there will be music by the band and good things in abundance to eat. This will be the picnic event of the season—don't miss it.

Sergt. Major Dunstan has not been heard from since his disappearance June 29th, from camp at Petewawa. Searching parties have scoured the country in the vicinity of the camp and have been unable to locate him. While all hopes of finding him have not been abandoned his continued absence is causing great anxiety.

Fire Friday night destroyed the fine residence of A. C. Hartley on Connell street. Although the firemen responded promptly their efforts were fruitless, as the fire had considerable start. The origin of the fire is unknown.

Receipts of native strawberries will probably diminish after this week.

William Blake met with an unfortunate accident at River de Loup, while on his way home from camp at Petewawa. In attempting to board the train he slipped and the wheels passed over his foot, crushing it so badly that amputation was necessary. His father was notified and left here at once and will remain with the young man until he is a condition to be brought home.

Conditions for a good crop so far this season are very promising and the weather has been ideal.

While some late planted fields are not as advanced as others yet unless something unforeseen happens the yield will be large, altho later than last year.

"The potato crop in Wisconsin particularly is somewhat later than usual on account of late spring and considerable rain about planting time. The acreage is considerably in excess of last year. The crop condition at this time is the best and we have heard practically no complaints of poor stand."—Houlton Times.

IN THE GARDEN.

Keep the hedges clipped. Thin the apples and plums if too heavily loaded.

Lawn clippings and green waste from the garden make good chicken feed.

Keep the cultivator and weeder going. They not only kill weeds, but conserve moisture.

Keep the sweet peas picked. It is better for the plants, and the house can be made more attractive by their use.

Chicken wire makes a good trellis for tomatoes. A single stake will do or a barrel-hoop supported about two feet from the ground by three stakes is good.

A SIMPLE AND CHEAP MEDICINE.—A simple, cheap and effective medicine is something to be desired. There is no medicine so effective a regulator of the digestive system as Parnee's Vegetable Pills. They are simple, they are cheap, they can be got anywhere, and their beneficial action will prove their recommendation. They are the medicine of the poor man and those who wish to escape doctors' bills will do well in giving them a trial.

How does your house look? Give it a spring tonic. The only safe one is Ramsay's Paints. They will give it longer life, tone it up, and make it fit. Let A. E. Jones show you the toning-up process with Ramsay's Paints.
