"A PURITY BASIS!"

The Press, in a plaintive editorial which this week, explains the defeat of Mr. W. J. Owens by G. W. Upham M. P. P. in 1908, and incidentally sums up concisely the attitude of the tory party in this county as to the only proper way to run elections. The reason given by our esteemed contemporary is that Mr. Owens "conducted the contest on a purity basis." Assuming this to be so, which, but for the sake of argument, is laughable—it can mean nothing less than that it is conceded by the Conservative party in this county that no tory can be elected for Carleton without the saving aid of the barrel." The ticket led by the present Premier was elected by 500 majority in March 1908—in December 1908 Mr. Upham had 98 majority. And why? Mr. Owens "conducted the contest on a purity basis." It must have been a pretty nifty little wad the Premier had to account for the 600 votes difference.

And what this time? Are we to conclude from the apparent confidence of our "loyal" friends here that the coming election will NOT be conducted on a purity basis? We are surprised and pained. Verily, it would seem that the backbone of the Carleton County tory heeler stiffens in a direct ratio with the size of the Premier's wad!

MORE TO THE ACRE.

It is often said that many men are trying to cultivate more acres than they can cultivate to advantage, and there are facts to justify the assertion.

Most farmers are trying to handle too many acres, un mindful of the fact that practically every acre they till is capable of producing twice as much as it now does. The yield of potatoes should not be less than 200 bushels to the acre, and from that up to 400.

Most farmers do not produce enough to the acre whether the crop be potatoes, grain or hay. This is a land of broad acres and the farmers run over too many acres for what they produce.

The need of the times is smaller farms. Smaller farms better cultivated will produce results surpassing those achieved on larger farms cultivated in a slipshod way.

Far too few of the tillers of the soil realize what an acre is capable of producing. They are skimming their acres instead of bringing them up to their capacity.

SHADE TREES.

"One of the things that are particularly noticeable in New England," said a man who recently returned from a trip through that section, was the beautiful shade trees that are in evidence and of which the greatest care is taken."

The people in New England have come to realize the value of trees, a fact which results in the care of them that is so apparent to the observer. They are carefully guarded as property of at least a semi public kind, for it is considered that they add to the beauty and comfort of streets.

This one feature adds a charm to old villages which is lacking in those where trees are not to be found. Compare the picture of a village in the East with those of some of the Western plains and the difference in this respect will be very evident.

As the years go on this will be changed, and the Westerners will see to it that the streets of their towns are lined with trees.

No city and no village can afford to lose the trees that shade its streets without replacing them. Moreover, none of them can afford to neglect to set them out along new thoroughfares. They add to the beauty of the town and to the value of its real estate.

The medial minister of Agriculture in his recent harangue in the Assembly made the following statement:

"There are more daily products 'manufactured' in New Brunswick, 'and the dairy industry is in a more 'flourishing state to day than in the 'best years of the old government.' What are the facts as to dairy products? Let us look at the Agriculture Report, printed with the approval and under the direction of this same honorable gentleman.

From 1904 to 1907 the quantity of cheese and butter manufactured was as follows:

Cheese,	5,838,891 lbs
Butter,	3,708,218 lbs

The present government came into existence in 1908. The cheese and butter manufactured in their four years from 1909 to 1911 amounted to the following:

Cheese,	4,191,787 lbs
Butter,	3,005,275 lbs

It is up to Dr. Lendry to study the reports of his department.

A correspondent of the Standard has made the discovery that Mr. F. B. Carvell, M. P., who was a guest at the Queen Hotel on the night of the fire, "slept throughout the entire time and knew nothing about it until the next morning." The fact that Mr. Carvell's slumbers were not disturbed is most creditable to the firemen who were able to handle a big fire with so little noise, that a stranger sleeping a few yards away was all unconscious of what was going on. It also shows that Mr. Carvell, like other good Liberals, is possessed of a clear conscience and little matters like a threatened conflagration do not disturb him in the least. Premier Flemming is one public man we know of who is unable to sleep these days, and he is generally supposed to be in the sleeper business too.—Mail.

Mr. Flemming's ready-made farm scheme seems like an effort to create a lot of berths for man to be supported by the tax-payers, who already feel that they have as much on their hands as they can comfortably attend to.

The Premier has found that the farmers of the province are not ready to stand the expense of the proposed program, though they would not have to stand it alone. The burden would come upon all of the tax

payors. The province has been overburdened with agricultural experiments and high-salaried experts.

The Valley railway route is not located between St. John and Gagetown or between Centerville and Grand Falls. This will enable the Conservative politicians to tell every property owner that the line is going to run through his door-yard, but it will not give the people carriage for their freight. There is altogether too much politics and altogether too few known engineering facts in connection with this enterprise. Before the government goes to the country it ought to tell the people of every river county precisely where the line is going.

Nothing so well illustrates the weakness of the Flemming government as the anxiety to make deals by which some of their supporters can be returned without opposition. With the prospect of defeat in Carleton County the Tories are trying to save Premier Flemming by an attempt to have no election and return the representatives as they are now. The Liberals have turned down the proposition and the Tory ticket will be compelled to fight—if a ticket can be found to face the music.

The following names have been suggested for the Valley railway station at Woodstock:

"How do" "Good bye," "International" (if near Houlton as on proposed plan) "Forget," "Concession," etc., etc.

The Liberals are full of confidence and united. Bring on the elections, Mr. Flemming.

To the average observer it doesn't look like Premier Flemming for another term.

Not many good fish stories to date.

OBITUARY

SAMUEL ELIHU SHEA.

At his home in Sedro Woolley, Wash.—April 10th, 1912. Samuel Elihu Shea, died of organic heart disease and dropsy after several months illness. Born in Northampton, N. B., Aug. 2nd, 1852. The son of the late William and Margaret Shea. The deceased left Woodstock, N. B., nearly thirty years ago for the West; where for a number of years he followed lumbering, and later farming in Skagit Co., Wash. Favorably known for his frank honesty, and generous qualities of heart, among the early pioneers who were his business associates so long, they sincerely mourn his passing from their midst, and the large attendance at his funeral on Sunday, April 14th, told of the esteem in which they held him. In the last few weeks of his illness he was comforted by the presence of his sister and her husband, Mr. and Mrs. Justice Gill, of Peel N. B., who did all they could to cheer and ease the closing hours of life. His other relatives are his sisters: Mrs. Margaret Grant, of St. Mary's, N. B., Mrs. Maria Titus of Bangor, Me., his brothers W. E. Shea of Woodstock, N. B., George A. Shea of Houlton, Me; Norman A. Shea of Marathon, Fla., and Rev. John E. Shea, of Jackson, Cal.

LIBERALS SWEEP QUEBEC

Carry Sixty Two Seats—Conservatives Win Only Sixteen—Federal Ministers With Patronage and Money Could Not Influence the Result

Montreal, May 15.—The Quebec provincial elections today resulted in the return of the Gouin government by an increased majority over that which it had in the last house.

By the redistribution act passed at the last session of the legislature seven new seats were added and while the opposition captured three of these, it lost two others, thus making the net gain in the Liberal majority in the new house six.

All of the members of the cabinet were re-elected, the only one to suffer defeat being the Hon. Chas. Devlin, in Temiskamingue. Mr. Devlin was, however, successful in Nicolet county.

Premier Gouin was elected by large majorities in both Portneuf and St. Johns.

Mr. Tellier, the opposition leader, was re-elected in Joliette, but two of his leading lieutenants, Armand Lavergne and Jules Prevost, both of whom ran in two counties, suffered defeat in one, Mr. Lavergne winning in Montmagny and losing in Montmorency, and Mr. Prevost suffering defeat in L'Assomption and winning in Terrebonne.

WON ON ITS RECORD.

The government appealed to the people on its good record, while the opposition changed it with extravagance, citing the erection of a \$3,000,000 jail and a \$600,000 technical school in Montreal as examples, and contending that the money could have been better spent in advancing the interests of primary education in the rural districts of the province.

Good roads also figured, the government relying upon its programme and the opposition contending that the money could be spent to better advantage, alleging that the government's policy tended to favor those roads which would be largely used by automobiles to the neglect of those which were of greater value to the farmers.

GLOOM IN TORY CAMP.

Ottawa, May 15.—The sweeping victory of the Liberals in Quebec is taken at Ottawa as clear indication of what the province will do for the Liberals when Sir Wilfrid Laurier leads them in the next federal fight.

The dominion government gave all the aid it was able to the Conservative-Nationalist opposition led by Tellier and Lavergne.

The three French ministers Messrs. Monk, Nantel and Pelletier appeared upon the platform against Premier Gouin and through patronage did all they could to influence the result.

The campaign against Gouin was liberally financed from Ottawa and the decisive defeat is a great disappointment to the government here. It is taken as an indication that Quebec is still solidly Liberal and will go so when the dominion election is held.

In Ottawa the Liberals are jubilant over the result in Quebec and the government correspondingly depressed.

ABOUT ADVERTISING.

John Wanamaker said: Advertising doesn't jerk—it pulls. It begins very gently at first, but the pull is steady.

It increases day by day and year by year, until it exerts an irresistible power.

It is likened to a team pulling a heavy load. A thousand spasmodic, jerky pulls will not budge the load; but one half the power exerted in a steady effort will start and keep it moving.

Moral—If you want your advertising to pay, keep everlastingly at it.

State of Ohio, City of Toledo, Lucas County, ss.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the city of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every cash of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.
