

WAS A CONFIRMED DYSPYPTIC

Now Finds it a Pleasure to Enjoy Meals

Here is a case which seemed as bad and as hopeless as yours can possibly be. This is the experience of Mr. H. J. Brown, 334 Bathurst St., Toronto, in his own words:

"Gentlemen—I have much pleasure in mentioning to you the benefits received from your Na-Dru-Co Dyspepsia Tablets and can cheerfully recommend them. I simply had confirmed dyspepsia with all its wretched symptoms, and tried about all the advertised cures with no success. You have in Na-Dru-Co Dyspepsia Tablets the best curative agent I could find. It is now such a pleasure to enjoy meals with their consequent nourishment that I want to mention this for the benefit of others."

The fact that a lot of prescriptions or so-called "cures" have failed to help you is no sign that you have got to go on suffering. Try Na-Dru-Co Dyspepsia Tablets and see how quickly this sterling remedy will give you relief and start your stomach working properly. If it doesn't help you, you get your money back. 50c a box at your druggist's. Compounded by the National Drug and Chemical Co. of Canada, Limited, Montreal. 141

HOUSEHOLD PESTS.

Since we are all more or less at the mercy of our neighbors and tradesmen, it is no reflection on a housekeeper to find her house infested with vermin. They can be driven out, however, with care and vigilance, first and always, vigilance.

In detached houses the work of fighting these pests is easier than in large buildings. Water and steam pipes make it an easy matter for water bugs of all kinds to infest an entire building, and rats and mice hold high carnival in the walls. These pests, rats and mice, water bugs and ants, destroy food, clothing and comfort, and increase with astonishing rapidity.

Unwashed dishes, greasy sinks and remnants of food left uncovered over night attract these creatures, who are always in search of food when on the march, and they seem to do most of their foraging during the night. Thus it is easily seen that no uncovered food should be left about to tempt them.

To fight water bugs pour boiling water containing a cup of turpentine or carbolic acid down all sink pipes, and force it into all cracks and crevices. This probably will drive the bugs from the walls and pipes into the room, where they can be seen and given further attention.

Insect powders and roach preparation may be then sprinkled about over night. This will stupefy them so that they may be swept up and killed in the morning. Powdered alu or borax should be kept sprinkled about shelves and runways.

Chloride of lime will help dispose of rats and mice. This preparation should be thrown down and around places they infest. They dislike cayenne too; this sprinkled on lard will drive rats away. Then there is always the rat trap. Bait this with either meat or cheese. Soap, mixed with bits of broken glass, serves to close up rat holes, and rodents soon learn to keep away from things that hurt them. Poisons are unwise to use for if the rats die in the walls they become unbearable.

Ants, black and red, come during fruit season, brought into the house, no doubt, on fruit. These pests can be scattered by fleas of sprays of arbor vitae or cloves about, as they dislike these odors. Oil of cloves or oil of pennyroyal is often used, spread on cotton batting and left in pantries.

NERVES

Young and old have them. Some abuse them. They get tired, starved.

SYMPTOMS:—Loss of sleep and appetite, indigestion, irritability, eventually wrecked constitution.

Alcoholic remedies stimulate only.

Scott's Emulsion soothes and nourishes, feeds the nerves. A natural nerve-food, containing the salts of Hypophosphites, Iodine and Glycerine.

NO ALCOHOL.

BATH.

Rev G B McDonald lectured in the Baptist Church here on Friday last, on his trip to Europe last summer. The address was very interesting and well appreciated by the audience.

The heaviest snow storm of the winter took place on the 27th last.

Robert Squires is very sick with typhoid fever and his condition causes anxiety to his many friends.

H N Doucette, of Knowlesville, was a visitor to Bath this week; his many friends were glad to see him looking so well for a man of his years.

T R Smith spent last week at Edmundston, N.B. in the interest of Massy-Harris Co.

Sheriff Tompkins, of Woodstock, was here on Monday, and A R Foster, Police Officer of C.P.R., on Friday last.

Charles Darrah, of Glassville, was a caller in Bath on Monday last.

The several saw mills located at Knowlesville, Esdras and Argyle are having their output of seven hundred of dimension lumber hauled to Bristol, preparatory to shipment to England. This industry is one of the chief industries in the above named places, and could be easily largely extended if railway facilities were provided at these places. New Brunswick has yet almost unlimited supply of hardwood.

GOOD CORNER.

There has been some sickness among the children of this place during the past week—fever and vomiting were the symptoms.

The snowplow is much better; is able to get about.

Wilmot Waters is expected home soon, he has had a run of typhoid fever.

Last week the writer passed the 34th milestone, on the journey men call life. Have lost a number of teeth and a bit of hair, but otherwise look capable of passing the remaining 30.

A double sled load of young folks from this place attended a party at the home of Richard McCleary, Bridgewater, one evening last week.

Mr D Melvin is on the sick list. Dr Peppers of Centreville is in attendance.

Mrs Walter Good is also numbered among the sick. Her sister, Miss Velma Morse of Bridgewater, is caring for her.

There is some discussion now we notice as to how the severity of the present winter compared with those of years ago. The following is an extract from my diary. In recording the death of a friend I also find recorded: March 31st, 1890. "The snow is still about four feet deep, every fence is covered and the roads are still frozen as solid as ever." During those dreary periods, that might justly be called "old fashioned winters," the writer went to school on snowshoes, and during the month of March we often had a crust that would carry a horse, and was often smooth enough to skate on. The farmers were much poorer then, than now; but each had in a good supply of food and tobacco, and happiness prevailed. The hobble skirt and Merry Widow hat were then unknown to our ladies; and the male portion belonged to the aristocracy of hard knuckles and homespun, but times and seasons change, yea verily! saith the prophet.

ANDOVER.

Mrs Wm Keswick of Bass River, Kent Co, is visiting her daughter Mrs George Davis.

The Literary Club met last Thursday evening with Mrs Caroline Armstrong, the subject for the evening being Longfellow's Evangeline.

Rev H R Buckland passed through here on Saturday, enroute for Grand Falls, where he took the Sunday services.

Mr Wootton who has been confined to the house through illness, is able to be out again.

Miss Pauline Johnson entertained her little friends last week at her 6th birthday.

Mr Thos Allen spent Sunday in Bangor returning again on Monday.

Miss Erma Kelly is home from Caribou.

Miss Bessie Lawson, Caribou, Me, is the guest of Miss Grace Porter.

The young people are enjoying the skating on James's Pond.

Mr Bedford Moore is enjoying a visit from his mother.—X Y Z.

ST. THOMAS.

Miss Anna Kelly was the guest of Mrs Thomas Travis, Friday last.

Mr Frank Kelly and son Freddy, also Charlotte Kennedy and Charlie Mulhern, were visiting relatives in this place recently.

James and Burns Campbell are busily engaged hauling hay to Peel.

Messrs Lewis and Donald Clinton Kelly attended a dance at Mr Kennedy's. They all reported a good time.

Vita Mulhern, Anna and Faye Kelly spent Sunday afternoon at Thos Travis's.

Mr and Mrs B J Kimball are visiting relatives at Fort Fairfield.

Murray Mulhern and Mabel Gallagher were calling at Burns Campbell's, recently.

Lizzie McInnis was the guest of Mrs T Travis, over Sunday.—SNOW FLAKE.

PARISH OFFICERS

RICHMOND.

Fence Viewers—Wm Jewett, Chas Delong, Bert Rockwell, M L Mulhern, Allison Shaw, George Caldwell, Geo Raymond, John Gurrer, Edmund Ebbett, Allen W Shaw, Maurice Taylor, Cook Boyer, Ezekiel Walton.

Fire Wardens—C R Hatfield, Sanford Ingraham, O N Miller, James McKay, Dr D W Ross, Norris Delong, Willard Holmes, George Nicholson, Wm L McCain, Cook Bishop.

Surveyors of Lumber, Wood and Bark—Guy Christian, Sanford Ingraham, Charles Gardiner, C R Hatfield, M L Mulhern, David W Shaw, Allen W Shaw, Watts Stickney, James McKay, John N Perry, Arthur Grass, Wm Rockwell, G D Perkins, Richard Wheeler, Henry Rideout.

Constables—Carey Dickinson, Burrell Hatfield, David W Shaw, Judson Rideout, Albion R Foster, Donald Foster, Oscar Shaw, Whitfield Ebbett, Allen Delong, John Prosser, Thomas Travis, John McInnis, Norris DeLong, Gideon Grant, G D Perkins, George Colwell, James Stephenson, Holland Estey, Richard Hargh, John Smith, Nelson Brown.

PEEL.

Assessors of Rates—S W Smith, F R Sample, Wm Jones.

Overseers of Poor—Frank Rideout, Felix Pelkey, C L Boyer.

Fence Viewers—Scott Bell, Willard Hunter, Geo Quick, Wasson Bridges, Jarvis Estabrooks, Ben McIsaac, Sr, Rupert Long, Moody Brocker, Howard Drake, Edward Clark, Ramsford Lovely, Tom W Augh, Harvey Ebbett, Thomas McCrea, Dudley Rideout, James McLellan, Murray Tompkins, R R Ross.

Surveyors of Lumber, Wood and Bark—Joseph Orris, A E Whitman, Stanley Hatfield, Wasson Bridges, Allen Greer, Thomas Tompkins, A B Lovely, B F Smith, D A Foster, B R Clark, Howard Gurrer, Isaac Pelkey, F R Tompkins, Ella Bell, James Stephenson, Lorne Boyer, W W Melville, R R Ross, Adams man Craig, Samuel Darlock, Gordon Milbury, Redley Milbury, Harry Hunter, Leslie Tompkins, Walter Smith.

Parish Clerk—A B Lovely.

Constables—C F Boyer, Andrew Dickinson, Pearl Tapley, George Adams, Lorenzo P Clark, Frank L Tompkins, Marshall Donnelly, Ramsford Lovely, John Jones, James McLennan, Enoch Tompkins, Harrington Smith, Murray Tompkins, George Foster, Dudley Rideout, Clarence Stoddard, Alonzo McDonald, Charles Cullin, Hardeen Tibbitts, W E Kipatrick.

Hog Reeves, Pound Keepers and Field Drivers—Alex Porterfield, John Campbell, Gilbert Hatheway, Ben Tompkins, Lee Brooker, George Quick, Joseph Cullin, Hiram Campbell, Wm White, Israel Craig, Pearl Tapley, Colby Perkins, Harvey Ebbett, Delaney Foster, James Scarrah, John A Brooker, Wm Burnham, Wilmot Brooker, Mansfield Clark, Howard Drake, Sam Rideout, Elvin Lasey, Tom McCrea, Joseph A Tompkins, David Rogers, George Jones, James Irvine, George E Campbell, Edward Foster, Samuel Crabbe, Herb Clark, Harding Tibbitts, Charles Knox, Thos W Anglo, James Campbell.

Collector of Rates—Archie Ebbett.

Shiloh's Cure

quickly stops coughs, cures colds, breaks the throat and lungs.

20 cents.

SUFFERED THREE YEARS

THIRTY Dr. Morse's Indian Root Pills cured his Kidney Trouble

There are few diseases that cause more acute suffering than Kidney Trouble, and Mr. F. A. Thomas, of Sandbury, Ont., is one of those who know it. He writes:

"For over three years I suffered from kidney disease. First I thought I had sprained my back, for suddenly the pain would catch the small of my back and it would be impossible for me to straighten myself up for several minutes. A dull ache across the kidneys was always present, my urine was thick and cloudy, and passing it caused a burning scalding. I tried medicines, but they failed. I was advised to try Dr. Morse's Indian Root Pills, as they had cured my wife years before. A few boxes affected a complete cure. I now enjoy the blessings of good health, which is due to this remedy."

Don't neglect kidney trouble—it's too dangerous as well as too painful. That old, reliable family remedy, Dr. Morse's Indian Root Pills, has cured thousands and will cure you. It is equally effective in curing constipation and its attendant evils, biliousness, indigestion and sick headaches, and in purifying the blood. 25c a box at your druggist's.

FEBRUARY ROD AND GUN

"Wild Duck Conservation" by Frank Hyde, formerly Editor of Outdoor Canada, is the leading number in the February issue of Rod and Gun in Canada, published by W J Taylor, Limited, Woodstock, Ont. No sportsman interested in the preservation of this important species of our wild fowl should fail to procure a copy of the February number and read this article from first to last. A fascinating tale is that which has been contributed by Martin Hunter, the well known writer who spent forty years, from 1863 to 1903 in the service of the Hudson Bay Co. The story which is entitled "A Tragedy which Caused the Siege of Fort Ellice" deals with the rash act of an employee of the Company, by which the passions of the Indians were inflamed and the lives of all in the fort endangered, and the subsequent diplomatic handling of the red men by the Factor. Fox Farms in Prince Edward Island, A Holiday Trip in the Lillooet District, British

LOCAL TREATMENT FOR WOMEN'S DISORDERS

The health we enjoy is largely dependent upon the blood circulation in our bodies. If we have perfect circulation we will have perfect health. There is a constant wearing out of the tissues in every part of the body. The blood flowing through the veins carries off this waste or dead matter, while the blood coming from the heart brings the arteries the fresh new living tissue, the essence of the food we have digested, to replace what has been carried off. This constant wearing out and expelling of the dead matter and the replacing of it with new matter, atom by atom, goes on day and night, until in about 7 years a complete change has been effected. Thus every man and woman has an entirely different body in every particle of it from what he or she had 7 years before.

It sometimes happens, however, from a variety of causes, that the blood becomes congested in certain portions of the body. This means that the blood vessels in these parts become weakened, and the circulation in that section of the body becomes sluggish. The consequence is that the dead matter in that part of the body is only partially carried away, and that but little of the new, vital matter is introduced there to build up and strengthen the tissue and nerves.

This condition invariably exists in all cases of female disorders. The dead matter retained in the circulation, which should have been expelled, causes irritation and inflammation of the delicate membrane, and oppresses the nerve centres. This condition is the cause of the grievous physical and mental suffering which accompanies female troubles.

To obtain relief it is evident that the first thing to be done is to get rid of the dead matter which is being retained in the circulation. If the dead matter is allowed to remain there a species of blood poisoning will result and nature will endeavor to get rid of it by forming ulcers, tumors, etc.

The above explanation will also show why ORANGE LILY is so successful in curing this condition. Local treatment and is applied direct to the affected organs. Its curative elements are absorbed into the congested tissue, and from the very start the dead matter begins to be discharged. A feeling of immense relief and pleasure is experienced, and the improvement is constant and positive. This feature of the expelling of the dead matter is always present to a greater or less extent, and in some cases it is marked as to be amazing.

The case described in the following letter is not exceptional.

Dr. Connelley—I am thankful to Mrs. F. E. Currah, your Canadian representative, for my health restored by your wonderful remedy. I have suffered for 17 years, but not so bad until 3 years ago. Then I had a doctor, who told me I had a tumor, and could live no more than a year. If I went through an operation I would not live through it. A year later I sent for him again, and he gave me up to die. My husband then sent for another doctor, who performed an operation, and it did me much good. I doctored with him 3 or 4 months, but became so bad again that I thought I was to die. I began to long to die. One day my husband came home and threw a slip of paper to me with Mrs. Currah's address and told me a lady had advised him to write to her for a treatment that would cure me. I said it was too late, that I would die anyway. I could not live without her. Then the first doctor told me I was worse than ever. However, my husband sent for ORANGE LILY, and the third treatment brought away my tumor. I know if it had not been for ORANGE LILY I would have died. For I could not live much longer. I would have thought it cheap to have died for a month's treatment, instead of one dollar. It is worth its weight in gold.—MRS. GEO. LEWIS, Huntsville, Ont.

The above letter is published with Mrs. Lewis' permission. All letters received are treated as being strictly confidential, but occasionally some patient feels so grateful for being cured that she is willing to make the matter known for the benefit and encouragement of her suffering sisters.

FREE TRIAL OFFER

I will send, without charge, to every reader of this notice who suffers in any way from the troubles peculiar to women, if she will send me her address, enough of the ORANGE LILY treatment to last her ten days. In many cases this trial treatment is all that is necessary to effect a complete cure, and in every case it will give very noticeable relief. If you are a sufferer, you owe it to yourself, to your family and to your friends to take advantage of this offer and get cured in the privacy of your home, without doctors' bills or expense of any kind. Address MRS. FRANCES E. CURRAH, Windsor, Ont.

THE OTTAWA COMEDY.

Mr Bourassa has followed Mr Laverne to Ottawa. The Nationalist leader may have duties to perform as a provincial legislator at Quebec, but they are as nothing compared with the task of keeping Mr Borden under the thumb of the Nationalist party. Therefore Mr Bourassa sends Mr Laverne to Ottawa to herald his coming, and in due season appears himself, to remind Mr Borden that he (Bourassa) is the real premier of Canada.

Mr Bourassa is determined that Manitoba shall have separate schools in the new territory to be added. He is also determined that Canada shall have nothing to do with an imperial naval policy. The Conservative party was fully aware of his views when it entered into an alliance with the Nationalists to defend Sir Wilfrid Laurier. Mr Borden is now asked to pay the price of Nationalist support.

Mr Laverne was one of a strongly clerical and Nationalist group entertained at dinner by Mr Monk last evening. Mr Borden was not present, but Mr Monk was of course able to do the honors for the government. This Sunday evening banquet was an innovation at Ottawa, and it may be regarded as an evidence of the importance attached by Mr Borden's colleagues to Mr Laverne and the cause he represents.

Do the flag-waving supporters of Mr Borden in New Brunswick relish this sort of thing? Was it for this they appealed to patriotism? Where is the strong man, Mr Borden, who was to save Canada from French Catholic domination? So far as the Liberals are concerned, they told the people what would happen if the Borden-Bourassa alliance was endorsed, and they are therefore not surprised at Laverne's banquets, Bourassa's journeyings, Le Devoir demands and Nationalist triumphs. All these are a natural result of Mr Borden's surrender to the Nationalists when he made common cause with them and took three of them into his cabinet.—Times-Star.

Columbia, A Moose Hunt on the Preserve of the Shawinigan Club, Quebec and other articles serve as interesting reminders of the representative character of this Canadian sportsman's publication.

THE SECRET OF LONG LIFE.

Do not sap the springs of life by neglect of the human mechanism, by allowing the accumulation of poisons in the system. An imitation of Nature's method of restoring waste of tissue and impoverishment of the blood and nervous strength is to take an alternative glyceric extract (without alcohol) of Golden Seal and Oregon grape root, Bloodroot, Stone and Mandrake root with Cherrybark. Over 40 years ago Dr. Pierce gave to the public this remedy, which he called Dr. Pierce's Golden Medical Discovery. He found it would help the blood in taking up the proper elements from food, help the liver into activity, thereby throwing out the poisons from the blood and vitalizing the whole system as well as allaying and soothing a cough. No one ever takes cold unless constipated, or exhausted, and having what we call mal-nutrition, which is attended with impoverished blood and exhaustion of nerve force. This "Discovery" is an all-around tonic which restores tone to the blood, nerves and heart by imitating Nature's methods of restoring waste of tissue, and feeding the nerves, heart and lungs on rich red blood.

"I suffered from pain under my right shoulder blade also a very severe cough," writes John W. Hunt, of New Brunswick, N. B., to Dr. R. V. Pierce, Buffalo, N. Y. "I had four different doctors and none did me any good. Some said I had consumption, others said I would have to have an operation. I was bed-ridden, unable to sit up for six months—and was nothing but a live skeleton. You advised me to take Dr. Pierce's Golden Medical Discovery and Dr. Pierce's Pleasant Pellets. When I had taken one bottle of the Discovery, I could sit up for an hour at a time, and when I had taken three bottles I could do my cooking and feed to the chickens. I had ordered bottles in all and was then in good health. My weight is now 137 pounds."

Annual White Wear Sale

Begins February 8th, 1912,
Ends February 29th, 1912

This will be the Biggest Sale yet and will include all our new 1912 goods such as Corset Covers, Drawers, Night Robes, Under-skirts, Combination Suits, Bridal Sets, Fancy Dresses, House Dresses, etc.
