EVEN a good cook likes to work with "easy" ingredients. But she has learnt that all is not gold in fact that glitters in promise. Does the following look to you like a gilded promise or a truthful fact?

Gold:

Regal Flour makes the *best quality* and the *utmost quantity* of bread per barrel of any flour you have ever used. White, light loaves always. And pastry of melting flakiness.

Substance:

Unless Regal Flour proves every bit as worthy as we say, your dealer will return your money. We protect him in that. Isn't that a substantial offer? The sooner you ask for Regal the easier your bakesdays.
