Correspondence must be in the office by Wednesday at twelve o'clock to ensure publication that week.

FRIDAY, MAY 10th, 1912.

A SMALL PART OF THE RECORD.

It would be interesting to know on what grounds Premier Fleming will bring on an appeal to the electors. The slanders against the old government will no doubt be rehearsed, the pledges and promises made by the government, prior to the last election, will be ignored. The government would also ignore an explanation of the creation of a deficit and the part played in it by "various persons."

The increase of highway taxes, with no improvement in the roads. The employment of Conservative lawyers to carry on work for which the Attorney-General and Solicitor-General are paid.

Favoritism in awarding government contracts.

The almost total disregard of the tender system and the consequent squandering of the people's money.

The wasting of thousands of dollars on roads and bridges to help Conservative candidates.

The dismal of Liberals from offices in direct violation of the promise to be non partisan.

The payment of accounts over the head of the Auditor-General, declared to be excessive.

The excessive amounts paid to bridge superintendents, and to others under the caption of "various persons."

The deception in the school book policy.

The total failure of the agricultural policy.

The reduction in the size of the log which may be cut and the consequent depletion of New Brunswick's forest wealth.

The playing politics with the Valley Railway.

The absolute uselessness of the audit act, and payment of hundreds of thousands of dollars by the Treasury Board.

Why Mr. Fleming give a true statement of the government's record?

SILENT TRIBUTE

A few days ago there was a temporary cessation of labor on all the properties of the Grand Trunk railway and its affiliated lines as a silent tribute to the memory of President Hays. This is a memorial unique but fitting. The great transportation machine which this master mind had built up from a weak beginning and expanded until it has become an instrument of empire building, stands for life and ceaseless movement. How could the realization of the great loss it has sustained in the circulation of the system; the corporations heart had skipped a beat.

But those who paid silent tribute The Buffalo News prophesies that

were not confined to the employees who formerly looked to Mr. Hays as their chief. This man's influence was not, and, from the very nature of things, could not be limited to any such narrow sphere. The East and the West looked to him with hope and believed his promise of great things in the future. Locked away in his mind were comprehensive plans that, reaching their fullness, would have been a powerful force in industrial betterment.

But there is this hope. Be a man ever so great, it is the human law that some one there will be who will pick up the broken threads and carry the web on toward completion. The great work will be carried on; perhaps not along the same channels through which Mr. Hays would have directed it, but nevertheless toward the great goal he had in view. And as long as the Grand Trunk or the memory of it shall endure, so long will the memory of its great president be fresh.

THE GARDEN.

In figuring the income of families on which such things as estimates of social efficiency are based, there are many other sources that are reckoned beside that of the wage envelope received by the head of the family on pay day. One of the most important of these outside sources is the home garden, the plot of land under cultivation in the rear of the home, which may seem to be of not so very great importance, but which in reality represents many dollars and cents added to the family fund.

It is one of the things people ought to be thankful for that they have an opportunity to till the soil themselves; it is a privilege that is denied to so many of the thousands who are crowded up between brick walls in the cities. What about gardens in Woodstock, are there the number that there ought to be? Here is a good way to fight that high cost of living monster and delivering a blow in a vital spot.

SOME SARCASM.

We would respectfully suggest that the annual drill be abandoned and that, instead, all patriots be enlisted to give the farmer a lift in June. They will have all the benefits of military drill, such as discipline, obedience, physical training, and the exaltation of spirit which comes patriotic devotion. What spectacle could be more ennobling than that of the Knights of Bath, colonels, majors and Daughters of the Empire, with the rank and file, digging out sow thistles, mending fences and spreading the stercoraceous heap.—Toronto Weekly Sun.

Richibucto Review, "The Gleaner the official organ of the Fleming government, having assailed the contracting company which has undertaken to build the Valley Railway, has run foul of the St. John Standard and another of the local government papered organs. The Standard in no mid language tells the public that the Gleaner cannot be relied on. In fact the St. John paper leaves the impression that its Fredericton contemporary is nothing less than a degrading, stands for life and ceaseless movement. How could the realization of the great loss it has sustained in the circulation of the system; the corporations heart had skipped a beat."

The Buffalo News prophesies that

we are to have a cold summer, in fact, that the chilly summer of 1910 is to be repeated. In that year, it is said, there were frosts in June, and in Vermont 16 inches of snow fell. In May the roads were covered with an inch of ice and the buds were frozen on the trees. There was ice on the Fourth of July and on the 20th of August snow fell.

Mr. Bowder states that year before last five hundred immigrants came to New Brunswick, last year eight hundred, and he expects the number this year to reach twelve hundred. When we deduct from these the number who, after a time, move on, and consider also the number of our own people who go west or to the United States, it is obvious that the province is not yet increasing to any appreciable extent in population. But if there is to be development there must be more people. Why does not the provincial government take up this question in a really serious manner?—Times-Star.

Fredericton Mail.—The effort being made to shelve John A. Young, M. P. P. at the next election is not likely to be a success. Mr. Young does not concur in the opinion of certain Tories that he has not made good as a representative, and announces that he intends offering for reelection even if he does not get a place on the government ticket.

One of the tests of good citizenship is the cleanliness and order of one's home. And this means the back yard as well as the front lawn. The man or woman who spruces up the front of the house and allows dirt and rubbish to litter up the back is no better than a whitened sepulcher.

Very generous are the contributions to the fund for the relief of sufferers rescued from the Titanic. With all its extravagance and apparent indifference the present generation does not shut its eyes to suffering when this is brought forcibly to its attention.

It has not been announced that the contract for the section of the Valley Railway between Centreville and Grand Falls has been awarded. Mr. Cochrane does not approve of this route—Why?

That work for putting the town's water system into shape has actually been begun is a matter for congratulation. When put on a proper basis it will be better for all concerned.

The automobile has not yet been perfected. What is needed is a machine which will insure the lives of its passengers when struck by an express train.

The weather is a prolific topic of conversation and some remarks heard on the streets would not look well in print.

Now for some of those flowers which the showers of April are supposed to insure.

CONTRACT SIGNED.

Fredericton, N. B., May 8.—It is reported here tonight, on the best of authority, that the contracts for the three sections of the St. John Valley Railway have been signed and that work will commence at once.

COUNTY COURT

Carleton County Court, Judge Carleton Presiding. Opened Tuesday. There was but one Case: King vs. Albert Coy and Francis Wilkins

Grand Jury found true bill against Coy.

This was a case of theft of horse from Gallagher Bros. Evidence showed that prisoner hired horse from Gallagher Bros. Saturday night, April 27th to drive his wife up river. Instead he went down to Canterbury early next morning, left there about 10 a. m. and made for boundary line. Was arrested near Island Falls Monday afternoon by Deputy Sheriff Hillman of Aroostook County. Prisoner claimed to be looking for work and that he intended to bring horse back and settle with Gallagher Bros. for extra time. Evidence being contrary throughout.

Jury after being out two hours announced through their foreman, Wilmet Anderson, that they had failed to arrive at a verdict, and were discharged.

Court was adjourned until May 30, when case will come up again. J. C. Hartley prosecuted and T. W. Jones appeared for prisoner.

MARRIED

At the home of the bride, Landsdowne, Car Co., on May 1st, by Rev Jos. A. Cahill, Mr. Samuel D. Tompkins to Mrs. Annie E. Orser both of Landsdowne.

MR. DIFFIN ENJOYS COMFORTS OF HOME

Rockland, May 10, 1912.

Dear Sentinel:

Home again and blamed glad to get here. Stayed in St. John until Friday night and had an awful good time, although at my age home always looks good and the baked beans Saturday night went better than all the fancy fixings I had at the hotel. I see by the papers that another first sod is to be turned on the Valley railway. Most people I meet are asking when the last one will be turned.

I expect to go to St. John next week and will write you and give you all the news I can find there.

Yours truly,

CYRUS A. DIFFIN.
