## TWENTY-SIX ARE KNOWN TO BE DEAD

### Regina Now Under Martial Law— Measures for Relief of Stricken Ones—Babe of Chatham Parents Among Those Who Lost Lives

Regina, Sask., July 2—From all reports received the worst now seems to be known in connection with the cyclone. The finding of the body of Scout Master Appleby, between Seventh and Eighth avenues in Cornwallis street, brings the total number of known dead up to twenty-six.

It is said that no action will be taken to drain the lake at present for fear of typhoid. The lake will be, however, dragged for dead bodies. The finance committee has decided to accept all offers of help which have been made, among them being those from Winnipeg, Calgary, Edmonton, Moosejaw, the government of Manitoba, the dominion government and the Winnipeg Telegram.

A relief committee with ex-Alderman McConnell, has its headquarters in the mayor's office. Citizens whose homes escaped destruction file in offering for the accommodation of the destitute.

Engineer Allee is the head of this work and has gangs of carpenters making houses habitable. Another large gang of workmen are busy cutting off the wires of the devastated area and stringing them west, so that the people west may have lights.

The local militia units have returned from Swell Camp and have taken over, with the mounted police, the task of protecting the affected area from looters, and the authorities have proclaimed the city under martial law, and the citizens must be off the street after ten o'clock unless supplied with passes signed by the officer commanding.

**CHATHAM BABE AMONG KILLED**  
Chatham, N. B., July 2—Word was received here yesterday that in the tornado which swept Regina on Sunday afternoon the house in which Mr. and Mrs. H. N. Loggie lived was demolished and their seven-months-old baby, Donald, was killed; also that the boarding house of Jack Nicol was levelled to the ground though he himself escaped uninjured.

Other word was that Jack Loggie, son of Mrs. M. R. Loggie, 'was in Saskatoon at the time and was all right and that Mr. and Mrs. D. C. MacDonald and family were also uninjured.

**THE INJURED.**  
The following is a partial list of the injured as compiled at midnight: Patients in the general hospital are:

Ernest Blenkhorn, head cut and back injured.  
Ed. Bowden, legs bruised, arms cut and suffering internal injury.  
Alex. D. Bruce, face smashed, arms cut and bruised on back.  
Miss Ella Bowers, thumb broken and arms badly cut.  
Miss L. Bates, arms cut and bruised on the face.  
John Dawson, legs and arms bruised, ribs hurt.  
Mrs. Dunn, legs and arms bruised.  
Kenneth Dunn, chest and shoulders bruised.  
Thomas Buberville, ankles and feet in very bad condition, arms slightly bruised.  
Leslie. Evans, ribs broken.  
William Evans, arms, legs, and face smashed.  
Wm. Edwards, shoulder and arms badly cut.  
Frank Easton, fingers cut and arms bruised.  
F. Flangastan, head bruised, broken leg.  
Kenneth Ferguson, ribs broken and face smashed.  
Thomas Featherstone, back and chest badly bruised.  
Redmond Faulk, broken leg.  
Wm. Friesel, legs and arms cut.  
Mr. Genter, legs, arms cut, shoulders bruised.

**OTHERS SERIOUSLY HURT.**  
The following seriously injured are not given in the hospital list: George Ross, Mrs. Powers, Hamilton street; Alfred Crawford, 1244 Scarth street; Mrs. H. W. Ball, Mr. and Mrs. Moyer and child, Mrs. Sanders and two children, Mrs. Robert Gilson, Mrs. Mitchell, 1371 Cornwall street, Mr. and Mrs. Collins, A. C. Comer, Isabella Logan, Wm. Ward, Mr. and Mrs. Bennett and two children, C. W. Lee, Mr. and Mrs. Rogers, Miss Aetie Russell, Ethel Street, Miss Mary Robertson, 2160 Rose street; Mrs. Davis, Miss Davis, Mrs. Vickerman, Fell Levateau.

This list does not include scores of minor cases of injuries treated in the drug stores and temporary hospitals.

A fire in Edmundston Tuesday morning destroyed the Jewelry Store of A. Levesque. Nearly all of the stock was saved.

The United Baptist Association of New Brunswick will hold their annual convention at Newcastle, commencing July 8th and continuing until July 12th.

He is a useful man who makes one burdock, grow where two were wont to grow before.

The town fathers met in regular session Tuesday evening, passed a number of bills and talked school matters.

Councillor Mair, as a representative of the school board, spoke at some length on the question of furniture for the new school building. He was under the impression that the building was to be equipped by the Fisher Estate and he felt that this was the general impression among the citizens. However the Board was informed that this equipment would not be furnished and there was no other remedy than to ask permission of the Council to issue bonds for the purchase of desks and other necessary furniture.

Coun. Jones moved, seconded by Coun. Balmain, that the School Board be empowered to issue bonds to the amount of \$2000 for the purpose mentioned.

Mayor Ketchum in bringing up the street improvements said the critics had now shifted their criticism from the crusher to the mode of work now being carried on. He was in receipt of anonymous letters in reference to certain phases of the work, to which of course, he took no notice. He would ask Mr. Gosline, who was present, to make a verbal report to the council in reference to the work now being carried on under his direction. Mr. Gosline said the crusher was doing good work, averaging about 100 tons of crushed stone a day. The work so far had been done along the lines suggested by Mr. Feeney, who was employed by the Council and planned the work. He said it was necessary to have a dumping ground for the material crushed, as there was not room on the streets. Excavation was about completed and he hoped to have the roller in operation on Thursday when work will progress rapidly. In answer to a question, Mr. Gosline said handling stone twice could not be avoided.

Mr. A. W. Fields in answer to a query as to work now being done on Broadway said the intention was to put on five inches of gravel, but after crushing had commenced and there was a surplus of stone it was thought advisable to use the stone, as it was cheaper than gravel. He was acting under instructions from Coun. Gallagher—the chairman of the street committee. He had been to Houlton and examined the roads there which he said had not been excavated, but were built on top. He doubted the advisability of excavating, but was told by the Supt. of Streets in Houlton, if the town could stand it, the work would be better.

Coun. Mair said we were putting down permanent streets and not streets that required repairing every year. The engineers recommendation for permanent streets was being carried out.

The Kennedy retaining wall was discussed briefly and Marshall Kelly made some explanations as to the understanding between Mr. Kennedy and the town, in which each were to bear half the expense.

Coun. Mair asked if provision had been made for water connection on vacant lots along new streets. Supt. Fields said the curb cocks were now here and would be put in at once where necessary.

Coun. Dibbles said there were too many bosses and a lot of unnecessary expense and he did not blame the ratepayers for kicking. He asked if the town could stand the expense of permanent streets, etc. The councillor evidently forgot that he voted

## TOWN FATHERS DISCUSS MATTERS OF IMPORTANCE

### \$2,000 Voted School Board to Properly Equip Fisher Memorial School—Some Criticism of Permanent Streets—Work Being Carried on as Suggested by Engineer Feeney

The town fathers met in regular session Tuesday evening, passed a number of bills and talked school matters.

Councillor Mair, as a representative of the school board, spoke at some length on the question of furniture for the new school building. He was under the impression that the building was to be equipped by the Fisher Estate and he felt that this was the general impression among the citizens. However the Board was informed that this equipment would not be furnished and there was no other remedy than to ask permission of the Council to issue bonds for the purchase of desks and other necessary furniture.

Coun. Jones moved, seconded by Coun. Balmain, that the School Board be empowered to issue bonds to the amount of \$2000 for the purpose mentioned.

Mayor Ketchum in bringing up the street improvements said the critics had now shifted their criticism from the crusher to the mode of work now being carried on. He was in receipt of anonymous letters in reference to certain phases of the work, to which of course, he took no notice. He would ask Mr. Gosline, who was present, to make a verbal report to the council in reference to the work now being carried on under his direction. Mr. Gosline said the crusher was doing good work, averaging about 100 tons of crushed stone a day. The work so far had been done along the lines suggested by Mr. Feeney, who was employed by the Council and planned the work. He said it was necessary to have a dumping ground for the material crushed, as there was not room on the streets. Excavation was about completed and he hoped to have the roller in operation on Thursday when work will progress rapidly. In answer to a question, Mr. Gosline said handling stone twice could not be avoided.

Mr. A. W. Fields in answer to a query as to work now being done on Broadway said the intention was to put on five inches of gravel, but after crushing had commenced and there was a surplus of stone it was thought advisable to use the stone, as it was cheaper than gravel. He was acting under instructions from Coun. Gallagher—the chairman of the street committee. He had been to Houlton and examined the roads there which he said had not been excavated, but were built on top. He doubted the advisability of excavating, but was told by the Supt. of Streets in Houlton, if the town could stand it, the work would be better.

Coun. Mair said we were putting down permanent streets and not streets that required repairing every year. The engineers recommendation for permanent streets was being carried out.

The Kennedy retaining wall was discussed briefly and Marshall Kelly made some explanations as to the understanding between Mr. Kennedy and the town, in which each were to bear half the expense.

Coun. Mair asked if provision had been made for water connection on vacant lots along new streets. Supt. Fields said the curb cocks were now here and would be put in at once where necessary.

Coun. Dibbles said there were too many bosses and a lot of unnecessary expense and he did not blame the ratepayers for kicking. He asked if the town could stand the expense of permanent streets, etc. The councillor evidently forgot that he voted

For the resolution to build permanent streets on an estimate submitted to the council and approved unanimously.

**E. W. Mair Makes**  
Extensive Improvements on Recently Purchased Property

Over 1200 Square Feet of Floor Space—Finest Soda Fountain East of Montreal

For some time past Mr. E. W. Mair found that his store was inadequate to handle his fast growing business, and need for more room to display his immense stock has been pressing for some time. He was puzzled as to exactly what direction the needed expansion should take, until he found that the property of H. P. Baird could be purchased and this being done the problem was solved. With the additional space there has been made a modern and up-to-date establishment that makes it the leading drug store in this section of Canada.

The present owner has conducted the store for ten years and has succeeded in maintaining a reputation for high class goods and reliable dealing, that created a demand that necessitated an extension to take care of the increased trade and accordingly the store has been enlarged and most elaborately fitted up, which means a doubling of its capacity and opportunity. There is now over 1200 feet of floor space in the retail department.

The work incident to the enlargement and improvement of the property, which is of very large proportions, was so well planned that the business of the store went on without interruption.

The interior is in oak and with the exquisite shading, tinting, etc., is convincing proof that Mr. Mair has, in addition to making a convenient store, also succeeded in making it most attractive.

Perhaps the most important feature, especially at this season, is the soda fountain—A McLaughlin Hygia—which is all marble and most elaborately fitted up for dispensing goods that are in demand during the hot and sultry season. The fountain (Continued on page twelve.)

E. W. MAIR.
