

## THE WEST DEMANDS IT

A Nova Scotian lady who has been living in Alberta for several years forwards The Morning Chronicle a copy of a letter which recently appeared in the Calgary News-Telegram with the request that it be reprinted in The Morning Chronicle, for the benefit of those people in the Eastern Provinces, who, our correspondent believes, voted against Reciprocity without knowing what it meant to the West. The Morning Chronicle has much pleasure in acceding to the request, for the letter in question emphasizes in a very striking and concrete way what the defeat of Reciprocity meant to the people of the Western Provinces. The letter is as follows:

## "RECIPROCITY LESSON OF VITAL INTEREST TO EVERY WESTERNER"

Langdon, Alta., April 29, 1912.  
Sir,—I do not wish to be classed as a kisser. I am a citizen and voter of Canada. All my interests are in Canada—in Alberta, the best part of Canada, in my opinion. I am trying to build me a home and gain an honest living, and am doing the very best that I can, according to my means and intelligence.

I am living with my large family upon my farm. All of my energy is concentrated in the effort to make this farm profitable and pleasant. Whatever profit I reap from my labor is spent here in Alberta in improvements on my land, in educating and rearing my family and in trying to bring some few of the comforts of home life on the once bald prairies.

Therefore, I feel that my own experiences, my own aspirations, my own ambitions and hopes, are identical with those of many thousands of farmers in the Western Provinces. In speaking my mind, I feel that I am voicing the thoughts of the entire farming class in the West.

I have just received returns from my 1911 wheat crop. I worked hard a large part of last year, with two

## PARALYSIS COMPLETELY CURED

## "Fruit-atives" Performs Another Miracle

BRISTOL, N. B., July 25th, 1911.  
"I had a stroke of Paralysis in March 1910, and this left me unable to walk or help myself, and the Constipation of the Bowels was terrible.

Nothing did me any good and I was wretched in every way. I then took "Fruit-atives" for the Constipation and it not only cured me of this terrible trouble, but gradually this fruit medicine toned up the nerves and actually cured the Paralysis.

By the use of "Fruit-atives" I grew stronger and stronger until all the Paralysis and weakness left me. I am now well again and attend my store every day. I say "Thank God for Fruit-atives!"

ALVA PHILLIPS.  
"Fruit-atives" not only cured the terrible Constipation, but also toned up the nervous system and the general health as to completely overcome the paralysis.

Truly "Fruit-atives" is a wonderful medicine.

50c a box, 6 for \$2.50 trial size, 25c.

At dealers or sent on receipt of price by Fruit-atives Limited, Ottawa.

and three hired men, in raising and harvesting that crop.

THE TOTAL NET RETURN ON MY WHEAT CROP IS JUST EXACTLY 23 CENTS PER BUSHEL.

Out of these 23 cents per bushel, I must pay all the cost of seed, labor, harvesting and all other expenses of raising the crop.

The wheat sold at 48 cents at Fort William, but the railroad company and the Grain Commission Company took 25 cents of that price, leaving me, who furnished the land, capital, seed—less than half of the price of my product.

This same wheat, under a Reciprocity agreement with the United States, which would give competition in the market, would have netted me anywhere from 45 to 55 cents per bushel, leaving the railroads and commission men their present toll, just the same.

This same wheat will be sold to the British buyer by the Canadian grain trust at 75 to 80 cents per bushel.

AND THIS ACCURSED MARKET CONDITION IS BROUGHT ABOUT BY A NARROW MARKET IN WHICH THERE IS BUT ONE COMBINATION OF BUYERS, WITH THE AMERICAN BUYERS IN COMPETITION, I WOULD HAVE RECEIVED DOUBLE FOR MY WHEAT WHAT I DID RECEIVE, AND EVERY CENT OF THIS PRICE WHICH I WOULD HAVE RECEIVED UNDER RECIPROCITY WOULD HAVE BEEN SPENT HERE IN ALBERTA, IN NEW BUILDINGS IN EMPLOYING ALBERTA LABOR, BUYING LUMBER, HARDWARE AND OTHER MATERIALS IN IMPROVING MY HOME.

IN SHORT, I WOULD HAVE BROUGHT BACK FOR INVESTMENT HERE IN ALBERTA EVERY CENT OF THE PROFIT WHICH THE AMERICAN MARKET WOULD HAVE GIVEN ME.

IS IT ANY WONDER, AFTER HAVING RECEIVED THIS ROTTEN RETURN FOR MY LABOR THAT I SHOULD BE TEMPTED TO VOTE FOR SECESSION OF THE WESTERN PROVINCES? PUT YOURSELF IN MY PLACE AND SAY FOR YOURSELF WHAT YOU WOULD DO UNDER LIKE CONDITIONS.

And the most cruel fact in this condition is, that a trade agreement with the United States, which would injure no interests in Canada, WOULD DOUBLE THE INCOME TO EVERY FARMER IN THE WEST.

Will the Canadian Government remedy this condition before it is too late?

Respectfully,

BERT HUFFMAN.

Is it indeed any wonder, then, in view of such trying experiences as are recorded in the foregoing letter, that the people of the West should be so enthusiastically in favor of the great policy, which was proposed by the Liberal Party in the last General Election campaign! Through restricted markets and inadequate outlets the farmers of the western Provinces suffered the loss of millions of dollars last season and they know by sad experience that their loss will be still greater this year, if the present expectations of a much larger crop are realized, unless they gain larger markets and wider outlets. This is one reason why Reciprocity is still a live issue throughout the West.

No surgical operation is necessary in removing corns if Holloway's Corn Cure be used.

## Why Crop Rotation is Necessary

Every well outlined system of farming consists not in growing one particular crop year after year, but in following certain crop rotations that will not allow the same plant to grow on the same soil many years in succession.

The reason for this becomes very apparent, when we fully understand the plant food needs of the various crops. From work that has been carried on for a great many years, we know quite fully what most plants need in the way of nutriment, but although much has been written regarding the functions of the nutriment materials within the plant itself, very little is certainly known.

We know without a doubt, that some soils may become depleted of some of their constituents sooner than others. Wheat cropping is followed nitrogen is the first of the really essential elements to disappear; but on the other hand there are crops that use less nitrogen and draw more heavily on some mineral ingredients, such as potassium and sulphur. When leguminous crops are grown nitrogen tends to accumulate in the surface soil.

Each crop required special substances in quantities in a certain state of combination. This being true it necessarily follows that the soil will be more able to meet the demands of any particular crop whenever the intervals at which that crop is grown are longest.

Suppose a soil, that contains abundant mineral matter is sown to wheat several years in succession; this crop will use practically all the available nitrogen of the soil without materially depleting its mineral supply. Wheat growing would not then be profitable. Suppose a bean or some root crop is grown likewise for a number of years; these crops would draw heavier upon a different set of substances that would finally be so drastically diminished that to grow them profitably would be out of the question. The soil, however, would be in prime condition for growing wheat.

If, on the other hand, these crops are sown alternately, each would draw especially upon its particular set of plant foods, and the result would be increasing crops for a greater length of time.

Two other important considerations should be given to any system of rotation. Crops differ very markedly, not only in the amount of food materials that are taken from the soil, but also in the capacity which they possess for absorbing their food from different classes of soils. They also differ in the amount of crop residue that is left on the field. Root crops leave the least amount and clover and grasses most. This latter point is important because the crop residue is one source of soil humus.

Consequently, for maintaining the proper physical condition of a soil and to keep all its sets of mineral plant food elements well balanced so as to obtain the largest crops for the greatest length of time, crop rotation is quite necessary.—Maritime Farmer

## CRITICAL TIME OF WOMAN'S LIFE

From 40 to 50 Years of Age. How It May Be Passed in Safety.

So, Wellington, B.C.—"For a year during the Change of Life I was all run down. I was really too weak to walk and was very despondent and thought I was going to die, but after taking Lydia E. Pinkham's Vegetable Compound and Blood Purifier my health and strength returned. I am very thankful to you and praise your medicine.

I have advised several women who suffered as I did to try your remedies. You may publish this if you wish."—Mrs. DAVID R. MORRIS, South Wellington, Vancouver Island, B.C.

No other medicine for woman's ills has received such wide-spread and unqualified endorsement. We know of no other medicine which has such a record of success as has Lydia E. Pinkham's Vegetable Compound. For more than 30 years it has been the standard remedy for woman's ills such as inflammation, ulceration, tumors, irregularities, periodic pains and nervous prostration, and we believe it is unequalled for women during the period of change of life.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

NOTICE OF SALE

TO ALLAN H. DALY, of the Parish of Richmond in the County of Carleton and Province of New Brunswick, Farmer, and Dora Daly, his wife, and all others whom it may in anywise concern:

NOTICE IS HEREBY GIVEN that under and by virtue of a Power of Sale contained in a certain Indenture of Mortgage bearing date the third day of December, A. D. 1909, and made between the said Allan H. Daly and Dora Daly his wife, Mortgagees of the First Part, and the Canada Permanent Mortgage Corporation, Mortgagee, of the Second Part, and registered in the Office of the Registrar of Deeds in and for the County of Carleton aforesaid in Book T. No. 4 of Records, pages 564, 565, 566, 567 and 568, as Number 52141, on the Fourth day of December, A. D. 1909, there will for the purpose of satisfying the moneys secured by said Indenture of Mortgage, default having been made in the payment thereof, be sold at Public Auction in front of the Post Office at the town of Woodstock in said County on Wednesday the Tenth day of July next at the hour of two o'clock in the forenoon, all the lands and premises described in the said Indenture of Mortgage, as:—

"All that certain lot, piece or parcel of land and premises situate, lying and being in the Parish of Richmond aforesaid and bounded and described as follows:—Beginning at a cedar post standing on the base line between the Fifth and Sixth tiers of Lots, said post being twenty one chains and seventy three links on the North line of Mary Cassidy's lot; thence North eighty six degrees West seventy nine chains to a stake standing on the American boundary line; thence due South along said line to the Northwest angle of the said Mary Ann Cassidy lot; thence South eighty six degrees East along said line seventy four chains and seventy five links to another marked cedar post standing at the Northeast angle of said Cassidy's lot; thence Northerly along said base line to place of beginning, containing one hundred and sixty six acres more or less and being the same land conveyed to the said Allan H. Daly by two separate deeds thereof, one being from James H. Daley and others and bearing date the fifth day of November, A. D. 1894 and recorded in the Carleton County Records in Book "T" Number three on pages 303 and 304, and the other from Albert Daly and wife bearing date the Nineteenth day of February, A. D. 1898 and duly recorded in Book "Y" Number three on pages 135 and 136."

TOGETHER with all the buildings and improvements thereon and the rights and appurtenances to the said lands and premises belonging or in any manner appertaining.

FURTHER NOTICE IS HEREBY GIVEN that if a sufficient offer of purchase is not received for the said lands and premises at said Public Auction that same will be drawn from said sale and will be disposed of by private contract without further notice being given.

IN WITNESS WHEREOF the Canada Permanent Mortgage Corporation has hereunto caused the Corporate Seal to be affixed at the City of Toronto in the Province of Ontario this thirty first day of May A. D. 1912, the affixing of which Seal hereunto is duly attested by the signature of George W. Monk and Rufus S. Hudson the Vice-President and Joint General Manager of Canada Permanent Mortgage Corporation the day and year last aforesaid.
