NEW BRUNSWICK WILL HAVE TWO AGRICULTURAL COLLEGES

One Will be in Woodstock—Government Asks Fisher Estate to Erect Building—If This is Done College Will Come Here—Schools of Manual Training and Domestic Science Part of Scheme

At the request of Premier Flemming he was met Friday afternoon by the Board of School Trustees and representatives of the Fisher estate. Mr. Flemming said it was the intention of the government to establish two agricultural colleges in the province, one would be located at Sussex and he hoped the other would be at Woodstock. The government would, in the event of the Fisher trustees, furnishing the building, agree to a school of manual training and domestic science to be part of the building, these two departments to be furnished, equipped and maintained by the town. The government would bear the expense of the up-keep of the whole building and the Agricultural department would be under government direction. The suggestion seemed to meet with the approval of those present and Mr. Osadell, representing the Fisher interests, was quite willing to enter into such an arrangement. Some discussion of the plan and site took place, but no definite action could be taken until architects and experts from other colleges were consulted. It seemed to be the general impression that the building would be erected on Chapel street. As soon as the location is definitely settled and the plans prepared work will commence, which will probably be in early spring.

THE AFTERMATH

As a fitting climax of the most successful bachelors' ball a meeting of the bachelors was held in Dow's Restaurant on Monday evening, where that previously unheard-of thing—a surplus—was disposed of in a judicious and thorough manner. The guests assembled at ten o'clock and at 10.30 they assembled around the board groaning under its weight of dainties and indigestibles. The good-looking and genial secretary, R. P. Hartley, presided, and saw to it that none of those present was neglected. After the eatables had been disposed of the gathering resolved itself into a business meeting. The report of the financial end was presented by Mr. Hartley and received a prolonged outburst of cheering. A venturesome soul was dared to ask an explanation of an item was removed from the banquetting chamber. He is at present doing as well as could be expected. Upon the conclusion of the secretary's report Mr. W. E. Stone, in a scintillating outburst of language, moved a vote of thanks to the secretary. It seemed to those present that Mr. Stone's address was rather in the nature of a valedictory, and that never again would he be numbered among the bachelors on an occasion such as this. When Mr. Stone had subsided Mr. E. R. Vince rose to second his motion. Mr. Vince's speech was one of the finest of the evening. He spoke of the great success of the ball and eulogized all bachelors, but especially those present. After this followed music, more speeches, and more music. Finally, as the dawn was gilding the summits of the surrounding mountains, the happy bunch retired to their rest, perhaps.

Owing to the fact that next Sunday is the World's Temperance Sunday, it will be duly observed in the Methodist church here.

THE TOWN FATHERS IN REGULAR SESSION

Error in By-law Respecting Buildings—Treasurer Presents Report of Town's Finances—\$589.90 For Enforcement of Canada Temperance Act One of the Charges

The town council met in regular session Monday night and approved of the minutes of the previous meeting. A number of bills, (always a feature of a Council session) were presented and scrutinized by the members of departments after which ceremony they were passed on to the finance and audit committee for approval.

Coun. Balmain felt that the old hospital should be relieved of taxes, about \$80.00 due for years 1910-11. He moved that this be done and the motion carried.

Coun. Mair had a copy of the by-law relating to buildings covered by the fire district—he claimed there was a very serious error or omission in the law as it now stood, as the district between the armoury and Green street was not mentioned. Other members of the Board agreed with this view and Coun. Mair moved that a committee, including the Clerk and building Inspector, be appointed to draft an amendment to Sec. 2 of the by-law respecting buildings. The section referred reads:

"The use of wooden shingles shingle roofs is prohibited in the following district, the district bounded on the West by Green street, on the south by Chapel and Regent streets, on the north by Elm street and its prolongation to the River St. John, and on the east by the River St. John, and in this district all buildings must be covered with gravel or metal roof or other proof roofing." All water rates not paid by Dec. 1st were ordered given to a collector. The street committee were ordered to insure the street roller.

A motion was carried that the 67th band be paid \$100.00 balance of the appropriation of \$200.00 granted for concerts during the summer.

The town treasurer presented the following—
