

## PRESCRIPTIONS

are orders from your doctor for certain ingredients to be made into a medicine.

Whether these are put up just as your doctor desired or in some hurried, careless way will mean considerable as to the beneficial results obtained.

What's the use of having a doctor and getting the medicine unless you know it is filled up just as it should be?

Bring your prescriptions here. We are cranks on filling prescriptions exactly right.

This means more than that we are exact on measurements and weights of the different ingredients. After the articles are weighed there is a right and a wrong way to mix them.

We are careful to mix them to secure the best results and don't dump them carelessly together.

Bring your prescriptions here if you would be sure of getting the best possible results from your doctor's advice.

THE Merchant who will advertise regularly, even if only in a small space, will be surprised to see how the public will look for him in his regular position and be disappointed if he fails to appear. The familiar name in the business news is greeted with as much pleasure as the familiar face that you meet on the street. Once interest is created by a man's methods of advertising, readers turn to it as to a serial story.

Those Conservatives who say that if the United States take off the duties on foodstuffs Canada will get all the advantages of the Reciprocity agreement without giving anything in return, overlook the fact that under the Reciprocity agreement Canada would have enjoyed an exclusive preference in the markets of the United States. The route of the Valley Railway between this city and St. John has been fixed by law and it should stay fixed. It was with the understanding that the road would be utilized by the Grand Trunk Pacific Railway that Hon. Dr. Pugsley was able to secure from the Dominion government a generous grant to aid in construction of the necessary bridges across the St. John and Kennebec rivers. The people of this section of the province are a unit in favor of carrying out the original compact and have the road go to Courtenay Bay—Mail.

In the Supreme Court at Fredericton, Mr. W. P. Jones, K. C., acting for George A. Shea, moved for a rule nisi to set aside a rule made by the court in November last, ex parte under the New Brunswick Railway Act, in the matter of an agreement between John Riorden, Senior, of Carleton County, and the St. John and Quebec Railway Co., with reference to right of way. The grounds of Mr. Jones' application were that John Riorden did not own the land when the agreement was made, and that the company had knowledge that it was owned by Shea, also that the mortgagees had not consented, and that the alleged agreement with Riorden is not such a sufficient agreement as is contemplated by the act. The rule was granted returnable next term.

### DEATH OF THOMAS W. ALLEN

Thomas W. Allen one of the town's best known and highly respected citizens, died at his home, Houlton Road, Wednesday morning, after an illness of eight days, from pneumonia.

Mr. Allen, who was born in Nova Scotia, came to this town forty years ago and secured employment, as a moulder, in Connell's foundry. Mr. Allen worked steadily at his trade for forty years and during all that time was one of the valued employees of the firm. He was quiet and unassuming and truly a home man, though he took much interest in public affairs. He was affiliated with Woodstock Lodge F. & A. M., and was a member of the Baptist church. His death is a source of deep regret to his many friends and the family has the sincere sympathy of all who knew him.

Mr. Allen was twice married, and leaves one son, Percy, residing in Denver, Col., by his first wife, and three daughters by his widow, Mrs. A. W. Fields, Mrs. Roy McLaughlin and Miss Maud Allen, assistant matron of Gardiner, Mass., hospital. The funeral, conducted by the Masonic order, will be held today, (Friday), at 2 o'clock.

Farmers are unable to sell their hay at any price, as local buyers have filled their warehouses and no shipments are going forward. In Houlton, only twelve miles away, farmers are paid from \$17.00 to \$18.00 per ton. Some Carleton County farmers have hauled their hay to Houlton, paid the duty and still had a fair profit. In view of the fact that there is absolutely no sale for hay in the home market, farmers will sell in Houlton if the roads continue in condition for hauling.

Local buyers are paying \$1.10, for potatoes, but on account of the extremely cold weather the past week, and the uncertainty of getting shipment made over the B. & A. few are being handled.—Houlton Times.
