

FIRST PERIOD EXAMINATIONS

For High School Department of Fisher Memorial School

Following are the names of those who made 75 per cent. and above on the various subjects examined in. The names are arranged in order of merit:

Where * appears it indicates that same mark is made by pupils over whose names it is placed.

In some cases @ is used.

ALGEBRA.

GRADE XI—Russell Brown, Ray Fewer, Hugh Flemming, Robert Moore*, Alice Peabody*, Mildred Flemming, Marjorie Watson*, Irma Jones*, Louise Rogers*, Viola Jacques*, Isabel Upham.

GRADE X—Dorothy Smith*, Mabel Clarke*, Harriet Gray, Mary Balmmain, Gretchen Smith, Wilfrid McManus*, Gladys Moores*, Wilbur Rideout*, Daisy Rogers*, Hazel Atherton*, Ruth Dibble*, Alice Clarke*.

GRADE IX—Hubert Seely, George Plummer*, Gladys Glidden, Aurilla Gibson, Wilbert Kelly, Susie Sharp*, Edith Smith*, Gladys Haley*, Alice McPhail*, Marguerite Merriman, Bertha Sprague, Mildred Smith, Helen Smith, Leonard Slipp, Miriam Dunphy, Helen Slipp, Alwyn Brewer.

ARITHMETIC

GRADE XI—Robert Moores, Russell Brown, Mildred Flemming.

GRADE X—Frank Risteen, Mary Balmmain*, Ralph Holyoke*, Harriet Gray, James Lynott*, Gretchen Smith*, Mabel Clarke, Daisy Rogers*, Wilfrid McManus*, Alice Clarke*.

GEOMETRY

GRADE XI—Hugh Flemming, Mildred Flemming*, Russell Brown*, Robert Moores*, Viola Jacques, Louise Rogers.

GRADE IX—Hubert Seely, Helen Slipp*, Ella Kearney*, Helen Smith, Lyman Flemming*, Susie Sharpe*, Leonard Slipp*, Miriam Dunphy, Gladys Glidden, Alice McPhail, George Plummer, Gladys Haley, Edith Smith, Basil Watson, Marguerite Merriman, Wilbert Kelly, Kenneth Shaw, Murray Hay.

LATIN

GRADE XI—Louise Rogers, Russell Brown, Isabel Upham*, Robert Moores*, Evelyn Nicholson, Viola Jacques, Alice Peabody.

GRADE X—Frank Risteen, Gretchen Smith, Mary Balmmain, Dorothy Smith.

GRADE IX—Hubert Seely, Leonard Slipp, Susie Sharp*, Aurilla Gibson*, Marguerite Merriman, Bertha Sprague*, Mary Haley*, Gladys Glidden, Francis Sullivan, Helen Slipp*, Miriam Dunphy*, Basil Watson*, George Winchester*.

FRENCH

GRADE X—Mary Balmmain, Gretchen Smith, Mabel Clarke*, Frank Risteen*, Bertha White*, Agnes London*, Ralph Holyoke, Wilfrid McManus, Marguerite McLaughlin, Gladys Moores*, Alice Clarke*, Daisy Rogers, Dorothy Smith, Robena Flewelling, Ruth Dibble*, Mabel Colpitts.

GRADE IX—Susie Sharpe, Hubert Seely, Aurilla Gibson, George Plummer, Leonard Slipp, Freda Seely, Miriam Dunphy, Marian Mitchell, Helen Slipp, Edith Holmes*, Murray Hay*, Wilbert Kelly*, Mildred Smith*, John Savage*, Ella Kearney*, Francis Sullivan*, Edith Smith, Alwyn Brewer, Mary Cogger*, Gladys Glidden*, Mary Haley*, Marguerite Merriman, Basil Watson, Faye Stokoe, Bertha Sprague, Gladys Haley, Lyman Flemming, Kathleen McLean, Kenneth Shaw, Ruth McGibbon, Helen Smith, George Winchester.

ENGLISH LITERATURE

GRADE XI—Isabel Upham, Marjorie Watson.

GRADE X—Harriet Gray, Mary Balmmain, Dorothy Smith, Bertha White.

GRADE IX—Susie Sharpe, Helen Slipp, Leonard Slipp, Hubert Seely, Ella Kearney.

HISTORY

GRADE XI—Russell Brown, Mildred Flemming, Marjorie Watson, Evelyn Nicholson, Hugh Flemming, Louise Rogers.

GRADE X—Mary Balmmain, Gretchen Smith, Hazel Atherton*, Harriet Gray*, Wilbur Rideout*, Frank Risteen.

GRADE IX—Susie Sharpe, Hubert Seely, Leonard Slipp, Miriam Dunphy.

GENERAL AVERAGE

GRADE XI—Russell Brown, Hugh Flemming, Mildred Flemming, Robert Moores.

GRADE X—Mary Balmmain, Gretchen Smith, Frank Risteen, Mabel Clarke.

GRADE IX—Hubert Seely, Susie

The Tortures Of Rheumatism

Driven From the System by Dr. Williams' Pink Pills

The sufferer from rheumatism who has not gone about curing himself in the right must expect a return of the torture with every change to cold or damp weather. It is not the change in the weather that causes the rheumatism, but it does start the aches and pains. Rheumatism is a deep-seated disorder of the blood. You cannot possibly cure it with outward applications or hot formentations as so many people in their ignorance of the real cause of the trouble try to do.

Rheumatism can only be driven out of the system by driving out the poisonous acid in the blood. This can only be done by making the blood supply rich, red and pure. It is in this way that Dr. Williams' Pink Pills cure rheumatism, even after other remedies have failed. These Pills make rich, red blood; they go right to the root of the trouble, and the pains and aches are driven from the system and will not return if the blood supply is kept pure. This is the whole secret of curing rheumatism, and if you are a sufferer begin to cure yourself today by taking Dr. Williams' Pink Pills. Among the many sufferers from rheumatism who have been cured by this medicine is Miss Mary D. Kelly, South Drummer, Ont. Miss Kelly says: "Some time ago I had a very bad attack of rheumatism. At times I would be confined to bed for a couple of days and would seem almost paralysed with the intense pain in my back and legs. At such times I could not walk, and my joints were stiff and swollen. I consulted different doctors and took their medicine, but did not get more than temporary relief. At this time a neighbor advised me to try Dr. Williams' Pink Pills, and I got a supply. After taking a few boxes I found they were greatly helping me, and I continued their use until the trouble completely disappeared. I can strongly recommend this medicine to others who suffer as I did from the pains and tortures of rheumatism."

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail, post paid, at 50 cents a box, or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

SWEETS.

Turkish Paste.—Turkish paste or Turkish delight is a simply-made confection that is generally liked. Soak two level tablespoonfuls of powdered gelatin in half a cup of cold water until the water is absorbed. Then add two cupfuls of granulated sugar and boil gently for 20 minutes, taking care that it does not scorch. Remove from fire, flavor and color if desired with vegetable coloring; pour into a pan about an inch deep, that has been moistened first with cold water. When cold cut into squares, and dust with powdered sugar.

Marshmallow Fudge.—Cook together two cupfuls granulated sugar, two ounces bitter chocolate and one-half cupful of sweet cream, or milk to which is added a teaspoonful of butter. When it forms a soft ball in cold water remove from fire, add one-half pound of the best marshmallows and beat briskly until it stiffens. Pour into buttered plates, and when cool mark into squares.

Sea-foam Fudge.—Put two cupfuls of light brown sugar and one cupful of thin cream into a saucepan; boil together until it can be moulded into a ball in water, but not to the brittle stage. Have ready one egg-white beaten until stiff and dry, over which pour the boiling syrup, heating constantly. Add any preferred flavoring on continue beating until stiff. Drop on buttered plates in teaspoonful portions, giving each candy a pointed look.

Frosted Fudge.—Cook to the soft ball stage three cupfuls of sugar, one cupful of milk (or water) and two squares of chocolate. Remove from fire and add one tablespoonful of butter and one teaspoonful vanilla beat until thick and creamy, and turn into a candy box, which has been lined with oiled paper. Set the box just inside the oven, or where it will keep warm. Now boil together two cupfuls sugar (white) and one-half cupful milk. Remove and add one tablespoonful milk and beat until creamy. Pour this white candy over the chocolate mixture in the oven, and set aside to cool. Break down sides of candy box, and cut candy in thick slices, dividing slices into squares as desired.

A DIVORCE GRANTED

After many years of patient suffering you can be divorced from corns by applying Putnam's Corn Extract, which acts in 24 hours without pain. Refuse a substitute because "Putnam's" is the remedy that is safe and painless, 25c. per bottle at all dealers.

Sharpe, Leonard Slipp, Helen Slipp, Miriam Dunphy, Georgia Plummer*, Gladys Glidden*, Aurilla Gibson, Marguerite Merriman, Edith Smith.

FRED SQUIRES, B.A., Principal

TWENTY YEARS AGO

From the Sentinel
October 28th, 1893

Some two years ago Mrs. Charity Moore, of Fredericton Junction, became a wealthy woman by the death of her brother in Ireland. Mrs. Moore died last week at Fredericton and on Friday Robert Moore, her second son, died in Massachusetts. Such is life and its uncertainties even to the rich.

We are glad to notice that the Hartland Water Co. is moving in the matter of securing a water supply for that progressive village. Tenders for several items of work in the way of construction of above are advertised for.

A large number of Orangemen walked in procession to the Free Baptist Church Sunday morning to attend the memorial service of their late and esteemed brother, Joseph Vanwart. The sermon by Rev. C. T. Phillips, was not only a fitting, but, as well, a deeply impressive one.

The Convention for the Promotion of Holiness, now being held in the Reformed Baptist Church, is being attended by large congregations, who manifest deep interest in the animated services which are held each afternoon and evening. Rev. G. A. McLaughlin of Chicago leads the services and, beside the Pastor of the Church, Rev. A. H. Traflet, the following ministers are present and assisting: Revs. J. H. Coy, B. Colpitts, G. T. Hartley, J. Gravenor, and—Nutter, Forest City.

As the Church was too small to accommodate all who desired to attend last Sunday services, the meetings for a portion of the day on Sunday next will be held in the Rink. The services that day will be as follows: In the Church at 10 a.m., and in the Rink at 3 and 7 p.m., song and testimony meeting to begin at 7, preaching at 8 o'clock. Everybody is cordially invited to attend.

John Frapp, made a quick trip to Fredericton, by bicycle, Sunday last. He left Woodstock at 5.30 a.m., stopped at the half-way house 30 minutes and reached Fredericton at 12.30. Here he dined at the Queen and rested until 3.00 p.m., when he started on his return trip. At the half-way house he made a stop of one hour and ten minutes and reached home at 10.10. He thus made the down trip in 5 hours and 45 minutes, and the return trip in 6 hours.

WOODSTOCK LADY ACCOMPANIES FAMOUS EUROPEAN STAR

A Talented and Highly Educated Musician

(From Greenville Daily Piedmont)

Madame Cecile Talma, one of Europe's most famous opera stars, will appear in concert here Monday evening, Sept. 29th, at 8.30 o'clock in the G. F. C. auditorium. This singer is not so well known in this country as all her musical efforts have been abroad, but the enthusiasm and favor with which she has been received in all of the great cities of Europe, assure us of her ability as an artist of the highest rank. Madame Talma possesses a wonderful soprano voice, which together with her charming personality and stage presence, always makes her a great favorite with her audiences.

Madame Talma will be accompanied by Miss Maude Henderson, of the G. F. C. musical faculty. Miss Henderson is well known in Greenville as a talented and highly educated musician, and her playing is always a great treat.

A SENSIBLE MERCHANT

Bear Island, Aug. 26, 1903.

Minard's Liniment Co., Limited.
Dear Sirs,—Your traveller is here to-day and we are getting a large quantity of your MINARD'S LINIMENT. We find it the best Liniment on the market making no exception. We have been in business 13 years and have handled all kinds, but have dropped them all but yours; that sells itself; the others have to be pushed to get rid of.

W. A. HÄGERMAN.

There are various methods of breaking up a broody hen, some of them far from humane. About the best way is to place the broody hen in a box made of slats and set up on posts to allow the air to circulate under her. Of course, the bottom is made of slats also.

THE AMERICAN TARIFF REVOLUTION

In the table appended will be found the former United States Duties on a number of articles that are freely traded in by the people of the United States and Canada, together with the new United States duties and the corresponding duties levied by Canada. It only requires a glance at the table to establish the fact that, whereas Canadian duties formerly were much more moderate than those of the United States conditions are now reversed, and Canada's taxes on food and many important classes of manufactured product are much the higher.

The opportunity for profitable trade all along the border will be greatly increased. In many lines that trade already is of vast dimensions. During the year ending March 31, we sent \$29,913,201 worth of lumber and unmanufactured wood to the United States, despite the duties, and imported from the United States duty-free lumber to the amount of \$14,972,855, and dutiable lumber worth \$924,376.

THINGS WORTH KNOWING

Rats and mice will leave premises in which chloride of lime is used as a disinfectant.

Eggs deteriorate rapidly in the pantry or kitchen these days. Keep them in a cool place.

The natural place for a horse is in the open air and if he is confined in a stable it should be well ventilated. The farmer who has the hardest time keeping out of debt is the man who depends upon a single crop for his income.

The main object in raising calves is to keep them continually growing. It is easier to put on a pound of gain when they are young than when they are older.

The sections where the poor farms predominate are usually sections where the barnyard manure is not available or not properly utilized. There is nothing that will do more to keep farms in rich shape than the fertility that is produced by farm stock.

Measles is very common with small pigs. Since it is a contagion, it spreads very rapidly when once there is an outbreak in the herd. Some of its more common symptoms are coughing and sneezing. The eyes are red and watery and there is generally a discharge from the nose.

To estimate the weight of a stack of hay, say an exchange, take the height in feet to the eaves and add half the height from the eaves to the

crow. Multiply the result by the length in feet, then multiply the width in feet and divide by 27, which gives the contents in cubic yards. New hay will average about 130 pounds to the cubic yard and from 160 to 190 pounds of old hay will be contained in the same cubic area.

A DISTRESSING SITUATION

A question of anatomy that needed an immediate answer came up during Willie's morning ablutions, says the Family Herald of Montreal.

"Ma! Ma!" he sobbed. "Do my ears belong to my neck or my face?" "Why, what is the matter?" was the temporizing reply.

"Well, you told Mary to wash my face, and she's washing me ears, too!"

A COSTLY ERROR.

"The way of the transgressor is hard," said the justice, as he fined Bildad for exceeding the speed limit. "Not around here it ain't" retorted Bildad. "I never saw such mushy roads in all my life." "Ten dollars extra for contempt of court," said the justice. "Why, I haven't said anything about you, judge," protested Bildad. "Yes, ye hev," retorted the justice. "I'm road commissioner here as well as justice o' the peace."

Herd headers and herd builders are often overlooked in one's own herd.

Paid \$32 for the medicine + got no cure

\$2 spent in Zam-Buk cured her!

IS THIS LIKE YOUR CASE?

Mrs. F. Gervais, of 126 Bleury Street, Montreal, writes:—"My baby girl developed a bad rash on her body and it made her very fretful and ill. She would not take food and seemed very sick indeed. From fifteen pounds, her weight fell away to nine and a half pounds.

"I took her to a doctor who gave me a kind of lotion to use and I used it regularly, but the baby got no relief. The skin disease seemed to get worse and worse all the time we were doctoring for it, so we took the child to a second doctor. He told me to stop nursing the baby, and gave me other advice which I followed, but the skin disease got worse and worse.

"At this time a friend of mine visited us and, having seen the sad plight the baby was in, she said I did not know how to go about things. She took my baby to her home and applied Zam-Buk to its little body. This seemed to give the baby ease right from the first. It cured the sores and began to reduce the inflammation. I went on with the Zam-Buk treatment, and to my delight within one week from first starting with Zam-Buk the child looked like a different baby altogether! Within a month the skin disease was cured completely, the baby's appetite had returned and she was almost back at her normal weight. She now looks like the very picture of health.

"There is another feature of the case. One of the doctors has just sent me in a bill for \$32! The treatment I got for that money left the child no better than before it was started. The cost of Zam-Buk treatment, which restored my child to health, was \$2!"

"Every mother should know what a splendid healer Zam-Buk is." Zam-Buk is a "short cut" to skin healing. Use it for all skin injuries and diseases, eczema, ulcers, blood poison, etc., and for piles. All druggists and stores, 50 cents a box, or post free from Zam-Buk Co., Toronto, for price. Refuse harmful imitations.

Zam-Buk
EVERY HOME NEEDS IT

PAT WAS RIGHT.

Pat, who was left-handed, was being sworn in as a witness in the West Side Court of Denver, Colorado.

"Hold up your right hand," said the judge.

Up went Pat's left hand.

"Hold up your right hand," said the judge sternly.

"Sure and I am, yer honor," declared Pat. "Me right hand's on me left-hand side."

THE FALL WEATHER HARD ON LITTLE ONES

Canadian fall weather is extremely hard on little ones. One day it is warm and bright and the next wet and cold. These sudden changes bring on colds, cramps and colic and unless baby's little stomach is kept right the result may be serious. There is nothing to equal Baby's Own Tablets in keeping the little ones well. They sweeten the stomach, regulate the bowels, break up colds and make baby thrive. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Maple-cream Fudge.—To one cupful maple syrup allow one and one-half cupfuls light brown sugar and half a cupful of sour cream. Boil gently. When done according to the usual test beat with a fork until cold. Nuts may be added if desired.

Mexican Fudge.—Boil together two cups sugar (white or brown) and one cup milk to soft ball stage. Into another saucepan put one cupful sugar and allow to melt, cooking to the caramel stage, that is browned, but not burned. Add slowly to the other mixture, beating briskly until the caramel is dissolved. When creamy add one cupful chopped pecan meats (or a mixture of nuts will do). When cold cut in squares. 1b

THE HORSE

Habits good and bad are readily acquired by horses.

The whip is a poor starter for the horse, but often it is a good corrective.

Do you know exactly upon what date your mares were bred. If not, find out from the stallioner, and make a note of it. The period of gestation varies, but generally runs about 240 days. If the date of last

the colt not to fear street cars, automobiles, etc., by driving him frequently where they are, and showing him that they will do him no harm. Give the drafter this training as well as the light horse.

Few, if any others of our clovers and grasses stand sheep pasturing as well as does White Dutch clover. It makes a hardy, sweet addition to the permanent-pasture mixture.
