STATEMENT IS UNTRUE

To all whom it may concern—
I, Freeman Carmichael of the Parish of Wilnot, in the County of Carleton, do hereby certify:

That the statement made by me to Andrew McLean and Stanley Pryor, that Gibson Merrithew in hauling potatoes to Herbert Pryor at Bridgewater Centre, had concealed two empty barrels in each load under the seat and received his pay for them as potatoes, is untrue, and there was no foundation whatever for making such statements.

Dated this tenth day of December, A. D. 1913.

FREEMAN CARMICHAEL.

St. John, N. B. Times:—There is to be no delay in the York county by-election. So confident is the government that another flag waving campaign can be successfully conducted in that constituency that the writs have been issued and polling day fixed for January 7. The period of the Christmas and New Year holidays is not a very desirable one for an election campaign. The people generally are thinking about other matters and encouraging a sentiment which is quite different from the bitterness of a partisan political struggle. Doubtless the government is not anxious to have a full discussion and therefore gives very short notice and chooses the Christmas and New Year season with deliberate intent, in the hope that the opposition will not be able to get the people together during the holidays to listen to political discussions. If that can be accomplished the Tory machine in the county, which is always particularly well greased, might do the rest.
