

PRESCRIPTIONS

are orders from your doctor for certain ingredients to be made into a medicine.

Whether these are put up just as your doctor desired or in some hurried, careless way will mean considerable as to the beneficial results obtained.

What's the use of having a doctor and getting the medicine unless you know it is filled up just as it should be?

Bring your prescriptions here. We are cranks on filling prescriptions exactly right.

This means more than that we are exact on measurements and weights of the different ingredients. After the articles are weighed there is a right and a wrong way to mix them.

We are careful to mix them to secure the best results and don't dump them carelessly together.

Bring your prescriptions here if you would be sure of getting the best possible results from your doctor's advice.

Woodstock, N. B., Jan. 15th, 1913.
Editor Carleton Sentinel:
Dear Sir,—I noticed in your issue of Jan. 10th some items from Grand View and among other things said was that there was much talk in that place in reference to the Reformed Baptist and Primitive Baptist uniting, and thus forming one denomination. Now I wish to say that as far as the Reformed Baptist's are concerned that there is no talk whatever along that line. And to say the least the statement made by your correspondent is very misleading.

Thanking you for your valuable space. I am—
Yours truly,
