Potatoes High

A sharp rise in the price of old potatoes has been the feature of the past week in the local produce market. New potatoes are too high and almost too poor to be popular, and almost everybody is still using the old ones. Moreover, it does not look as though new potatoes would be plenty and reasonable until much later than in former seasons, therefore there is what might be termed a strong speculative demand for old ones. The buyers are paying \$2.00 a barrel here today, with strong likelihood of a rise if the supply is not soon increased. According to a market special from Boston, Maine is the only producing State where there are any potatoes left, and, if the results of the efforts at local dealers to secure supplies show anything, only very few are left here. Prices have gone up very rapidly because of this demand. One Boston house has had 15 men touring the Maine potato sections for the past week or so; all they could get was one carload. Under ordinary circumstances each man could easily have secured a carload. Houlton Times.

MARRIED

On Wednesday, May 28th, at 2 o'clock, a very pretty wedding took place at the home of Mr. and Mrs. O. Graves, Jacksonville, when their daughter, Miss Jessie, was united in marriage to Mr. Guy Dow, a popular young farmer of Northampton.

The bride and groom entered the dainty decorated parlor to the strains of Mendelssohn's Wedding march played by Miss Kate McAuley of Williamstown. The ceremony was performed by the Rev. G. Ayers, in the presence of a number of relatives and friends.

The bride was becomingly dressed in a gown of blue silk voile and carried a bouquet of cut flowers. She was the recipient of a number of beautiful presents of linen, china, and silver.

After refreshments were served the happy couple left amid showers of rice and old shoes, for a trip to Fredericton and St. John. After their return they will reside in Northampton.

Next Sunday, the second Sunday in June, is Children's Day. Next to Christmas and Easter it is the most widely observed festival in the Protestant church calendar. The day is fittingly celebrated by the local Advent Christian church. The Sunday school will attend the 11 o'clock preaching service, and hear an address especially for them by the pastor. The church will be appropriately decorated and there will be a suitable and helpful musical program. The public is invited to these exercises.

Potatoes have been around the \$2.00 mark for the past few days, although for a few days the last of the week they were \$2.20 to \$2.30. About seven-eighths of all the potatoes that were in the hands of the Senator Ellis of St. John, N. B., was the only Liberal in the Upper House to record his vote in favor of the Borden naval bill. Not so many years ago Tory newspapers and politicians did not hesitate to call Senator Ellis an "annexationist" and a "traitor." The grey haired statesman journalist from the winter port has certainly had his revenge.—Mail.

It is the general impression that Hon. W. C. H. Grimmer the attorney general is to get the new supreme court judgeship for New Brunswick and that Mr. J. B. M. Baxter, K. C. The liquor seized at the Windsor Hotel at St. Stephen recently, by Scott Act Inspector Gibson, who is also town marshal, have been returned to the proprietor. It appears that under the Scott Act, which is the Canadian prohibitory or local option law, an officer making complaint against violators is not authorized to make seizures or serve warrants in liquor cases, and Marshal Gibson did both, it is alleged, whereupon the court ordered the return of the confiscated goods.

Announcement has been made by General Superintendent Groat, of the Atlantic Division of the C. P. R., of the awarding of the contract for the new shops to be erected at McAdam Junction to Henry Post, of Woodstock. Mr. Post will start work at once, the railway company in the meantime tearing down some buildings and making other necessary changes so that the work can proceed. The new shops will be of concrete and steel and will be modern in every particular, being operated

with electric motor power. The work at McAdam involves an expenditure on the part of the C. P. R. of about \$100,000.

The potato market has improved of late owing to a raise in the American market. In Arrostook county the price is \$2.25 and local dealers were paying as high as \$1.25. Had not the Conservatives defeated the reciprocity agreement Carleton Co. farmers would today be getting \$2.00 and more per barrel for their potatoes. When the Democrats have removed the duty on potato's European and Irish competition will permanently lower the price, which is the intention of the political party now in control in the States.—Observer.

In the appeal case before Mr. Justice Barry, of the St. John & Quebec Railway Company against the decision of the arbitrators in the matter of the O'Dell estate, judgment was delivered dismissing the appeal and confirming the award made by the two arbitrators, Messrs. Bates and Mitchell, allowing the O'Dells \$3,000 damages for the 4.2 acres taken by the railway for right of way purposes. M. F. Teed, K. C., appeared for the O'Dells, and P. A. Guthrie for the Company. It is understood that the company intend to appeal the matter to the full bench, which meets some time in June.

There is a feeling that an election is bound to come and members who represent close constituencies with such awkward local questions as the Farmers Bank are this morning wearing a thoughtful air and looking forward to the future with considerable distaste.

The Senate's action is held by many members to make an autumn session almost a certainty. Should the session be called the Government will not again introduce the Naval Aid Act, but will make redistribution the chief item of business. The majority of members representing both parties say that there will be no election until after redistribution.

In view of Premier Borden's declaration in Montreal and elsewhere that if the Senate threw out the Naval Bill he would appeal to the country it is believed that the Government will not be able to continue Parliament till its full term, which would be two years longer, but will have to go to the country, with the Naval question as the issue.

BORDEN DECLINES TO SAY ANYTHING ON NAVAL BILL

Feeling That an Election Must Come—Expected that Senate's Action Will be Considered at Conservative Caucus

Ottawa, May 30.—Premier Borden this morning declined to make any statement upon the Senate's action in killing the Naval Bill last night.

It is understood that the Government has determined upon no course of action. The matter will be dealt with at a cabinet meeting when the question of having an election or joggling along without one will be considered. It is expected that this matter will be the occasion of a Conservative caucus.

In the House of Commons the Government and its followers are considerably exasperated with the action of the Senate. There is not a great deal of disappointment expressed over the fact that the Navy Bill has been killed, but Conservative representatives are highly indignant at the Liberal majority in the Senate should have not only thrown out their legislation, but have practically ordered them to hold an election.
