BENTON.

The Benton schools closed June 30th. Miss G. Long has given entire satisfaction. Her classes all graded and the closing program was warmly commended. The raising and solving of the flag was loudly applauded. The songs were creditably rendered. The recitations were especially interesting, Tessie Bolger and Gladys Veness being prominent. Mary of Tipitany was sung in character by Miss W. Mills and Caldwell Bolger and was loudly applauded. The primary department closed with appropriate exercises under the direction of Miss Price.

The school garden and play grounds presents a most creditable appearance.

The Misses Eva and Inez Day and Louisa McGinnis spent the fourth in Houlton.

Two autos of Houlton and Woodstock people were callers last Sunday.

Benton is a village where no rum

is sold but there is a team comes in on Saturday evenings when the men are home from the different employments and things are made pretty lively. Mr. Colpitts ought to be on his job about here.

A very sad event was the death of Mrs. Alice Campbell, aged 45 years. A large family of ten children are left. She was only ill eight days.

Miss Eva Caldwell is in the village visiting relatives and friends.

On Sunday D. W. Olts and family and Miss Eva Caldwell took an auto ride down to Lower Queensbury and back.

Harry Body has gone on the Woodstock branch to take charge of the section work there for the present.

McLeod Mills and family have left for Amherst, N. S., where they will reside.

Mrs. William Day was called suddenly to St. Stephen by the illness of her daughter-in-law, Mrs. Bert Day.

BURNT LAND BROOK.

Mrs. Edith Inman is visiting her sister, Mrs. James Jenkins, this week.

Mr. Wm. Johnson went to Fredericton this week to see his wife who is still in the hospital.

Miss Ada Johnson went to Weaver this week to visit her cousins.

Mr. and Mrs. Peterson and sons, Droine and Powers, and Mr. and Mrs. Ralph Roberts of Caribou, Me., were the guests of Mr. and Mrs. J. O'Regan over Sunday.

Mr. and Mrs. J. O'Regan drove to Everett on Sunday calling on friends J. B. Johnson went to Fort Fairfield for the fourth.

D. A. Jenkins went to Riley Brook on Wednesday to cook for a survey party.

Jack Finnamore has been doing carpenter work for J. S. Jenkins.

MARRIED

Married at Monticello, Me., Wednesday, June 25, 1913, at the residence of the officiating clergyman, Rev. Wm. H. Mills, Alfred William Adams of Littleton, Me., and Miss Laura Belle Cullins of Oakland, N. B. The sitting room was prettily decorated in green and white with tinsel trimmings. The bride looked charming in white muslin trimmed with lace, while the groom looked his best in a fine suit of navy blue. The young couple are well and favorably known and have the best wishes of the community for a long and happy wedded life. They will reside in Littleton.

The street parade which will be given by the Howe's Great London Show when it comes here on Thursday, July 17, is well worth coming miles to see. It is not the old-time parade that has been seen yearly in this section, but one that is so modern as to be refreshing. In it will be seen many features entirely new and which have never before been reviewed in any street peacant.

This mighty parade is fully, if not over a mile in length. The opportunity will be given to see some of the finest horses in this country. There will be herds of elephants, droves of camels, herds of sacred cattle, llamas, buffalo and other hay eating animals. Of course, there will be many open dens containing wild beasts, beautiful lady and gentlemen riders, the funny clowns, steam pianos, calliopes, chimes and Wild West caravan. In the parade will be the most costly tableau wagons, historical and allegorical floats that are carried by any show. It will be well for every one whether or not they intend to see the performance to come early and secure good points of vantage so as not to miss any of the great parade features.

LOCAL AND PERSONAL

Mr. and Mrs. D. R. Bedell, came down from Perth by canoe last week. Mrs. Atherton and child, of Woodstock, who have been visiting her sister, Mrs. H. P. Gilman, returned home on Wednesday.—Victoria County News.

Mr. and Mrs. Herbert Baird leave today for an auto trip to St. John, via Woodstock and Fredericton. Mr. and Mrs. A. E. Kuplek will accompany them as far as Fredericton.—Victoria County News.

An up river lady suggested that if some enterprising Automobile Co., adopted the name FLEMMING, for some new and powerful type of automobile, meaning by that it would successfully combat these worse than corduroy roads, they would speedily get rich and no other advertisement would be needed.—Mail.

Since the potato bugs disappeared last fall, none have been seen in this part of the country. If they have permanently disappeared, as is hoped, the farmers will be saved a great deal of money. Dealers who stocked paris green have found themselves left with it on their hands and no demand. The absence of the bugs is attributed to various causes. Some say they are tired of the Flemming-Borden government, while others declare their delay is due to the condition of the roads.—Observer.

Sometime ago a number of caterpillars were brought to this office by some gentlemen who found them in their apple trees. Mr. Adney sent them to the Dominion Entomologist and has received the following letter in response to them:

Tappan Adney, Esq., Woodstock, N. B.

Dear Sir,—

The Caterpillars which you sent from apple are of a species of Tussock Moth of the genus Olea. It is by no means a common pest of the apple, and we are very glad indeed to receive these larvae. The caterpillars are spinning their cocoons, and we hope to rear the moths.

I have the honour to be, Sir, Your Obedient Servant, ARTHUR GIBSON, For Dominion Entomologist.

Because the senate held up the naval bill, Senator Baird of Perth has decided to forgo a trip to the old country which he claims to have had planned for the present summer. If the patriotic senator from Victoria thinks the general public cares one iota whether he gets to the old country or stays at home he must have a very inflated idea of his own importance. In this connection he might be said that it is not an unusual thing for Senator Baird to change his mind. It will be remembered that at a banquet held at Edmundston in the summer of 1911, he came out flat-footed in favor of the reciprocity agreement with the United States, but when an election was run on the issue a few weeks later, he responded to the crack of the party whip and opposed it. If Senator Baird is ashamed of the action taken by the senate on the naval bill he should lose no time in resigning his seat in the red chamber.—Mail.

A WOMAN'S WORK sometimes reduces her strength to the depths of weakness—her devotion to household cares prevents sufficient rest and recreation. Thousands of women in this condition find Scott's Emulsion exactly what they need; it is predigested body-food so medically perfected that every drop yields direct returns in strengthening the organs and tissues and in making healthy, life-sustaining blood. Scott's Emulsion is devoid of alcohol or any harmful drugs, and overcomes tiredness and nervousness in a marvelous way.

It is said that a Portland company is intending to start a ginger pop factory in Calais. Well for the love of Mike what does Calais or any other town want with a pop factory? Pop is about the most useless beverage that ever moistened the throat of man. It is nothing but water with something put in it to spoil the water. It is only good to fill up on. And then it causes kinks and cramps. A town must be hard up that would encourage a pop factory. Take some water and force wind into it, and some pulverized grave stones and a little glucose and you have pop. Pop has nothing to recommend it, it is water fooled with till it won't quench thirst, and is spoiled for washing baby clothes. Pop is to respectable drinks what croquet is to billiards. It is what lawn tennis is to baseball. Pop is like a neutral paper in a political campaign neither one thing or another. The steady drinking of pop will cause a man's liver to grow white, and make him afraid to go home in the dark.—Calais Advertiser

The celebration of Dominion Day has been so warmly taken up in England that Australia and New Zealand have decided to follow Canada's lead next year. Canada, however, will never be displaced from her position as the favorite daughter of the Old Country.

There is no tented aggregation whose performance is complete without clowns. There are clowns, and there are clowns, but a show is much better without them unless they are clowns that are funny with out being foolish. Only a fool will laugh at his folly, is a maxim that stands good in relation to clowns, just the same as it does to those who are not clowns. Clowns are only engaged to make others laugh, and the successful clown is he who can create laughter without laughing himself. The Howe, Great Lon-

don Show is coming here on Thursday, July 17, and will bring with them no less than forty of these funny fellows.

12 Tumors Removed Without An Operation

Silver Lake, Ont., Sept. 20, 1909.
Dear Mrs. Currah.—I am enjoying better health than I have for eight years, and I think I am entirely cured. I have none of the old symptoms. I am very grateful for my present health, and think Orange Lily is the greatest treatment for women the world knows. Its use in my case caused 12 tumors or growths of some sort to be expelled. Some were as large as a hen's egg, and others smaller, down to the size of a walnut. You may use my case in your advertisement, for it is the solid truth, and pen cannot describe all the good it has done for me. Mrs. Louise E. Bolte-ridge.

This letter gives an indication of the positive benefits that always follow the use of Orange Lily. It is an applied treatment and comes in direct contact with the suffering organs. It produces results from womb, irregularities, leucorrhoea, etc.

I will send a sample box containing 10 days' treatment absolutely free to any suffering woman who has not yet tried it if she will send me her address. Enclose 2 stamps and address MRS. FRANCES E. CURRAH, Windsor, Ont.

Think How Long You've Bothered with That Same Old Corn

Perhaps you have pared it an hundred times and seen it grow again. You have daubed it with liniments, maybe. Or used old-time plasters. And the corn remains as bothersome as ever. It will remain until you treat it in a scientific way.

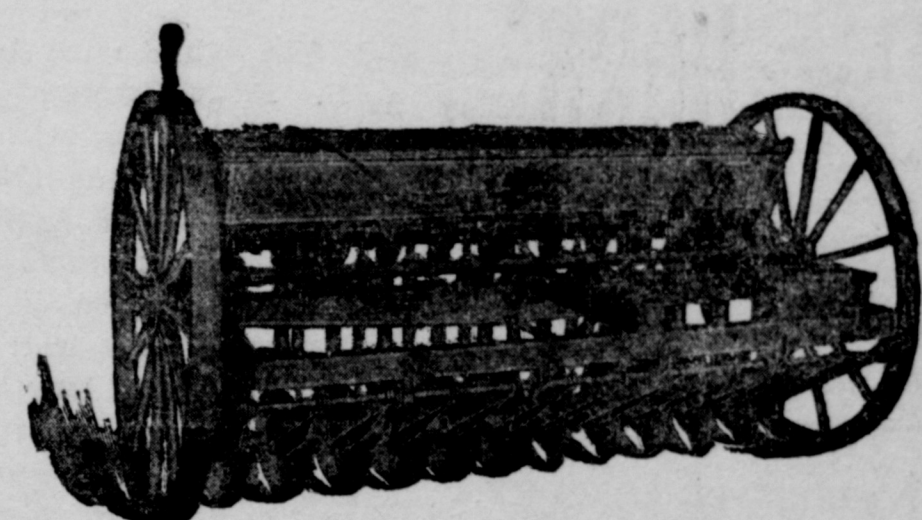

Other folks do this:

A in the picture is the soft B & D wax. It loosens the corn. B stops the pain and keeps the wax from spreading. C wraps around the toe. It is narrowed to be comfortable. D is rubber adhesive to fasten the plaster on.
