AN EAST FLORENCE-VILLE HERO

Humane Society Medal For Saving Life of Boy—Appropriate Exercises Close With

"THROW OUT THE LIFE LINE"

A number of the friends of Mr. B. F. Smith met in the Baptist Church Saturday afternoon, at East Florenceville, when Mr. Smith was presented with a medal for saving the life of Vaughn Stokes, who had fallen into the river, June 31st. The presentation was made by Premier Fleming who said: "It paid to be brave and courageous", adding that he hoped that all through life he (Mr. Smith) would display the same courage which had been tested and proved.

Mr. Smith in his reply, thanked the premier and kind friends assembled. He was glad to know that he was the means of restoring the lad who was on the verge of eternity to his mother, and at the same time he felt a terrible responsibility as to whether the lad would grow up to elevate mankind or travel in the paths that are displeasing to humanity. He would always have a fondness for the lad. If the Royal Humane Society laid so much stress upon the acts of heroism, surely there is an opportunity for each one of us to display acts of heroism in other lines and life will be made sweeter.

"This emblem pinned on my coat I will always cherish, not for its intrinsic value, but because it recalls the mother who could not sing 'Where is My Boy Tonight?'"

The choir then sang: "Throw Out the Life Line."

The following representative men were present: Premier Fleming, J. C. Hartley, W. S. Sutton, Geo. E. Balmann, John Connor, W. D. Smith, A. N. Vince, Arthur Giddens, George Mitchell, Everett Colwell, L. E. Young and T. C. L. Ketchum of Woodstock; ex-Warden Morgan, Howard E. Adams, H. H. Hatfield, R. W. Cameron, F. A. Aiton, James Montgomery, H. R. Nixon, T. G. Simms, Hartland; W. W. Melville, Peel, and many others from the surrounding districts.

Miss Hazel Welsh entertained at a most enjoyable auction bridge of eight tables on Wednesday evening. Miss Welsh was assisted in receiving by her mother, Mrs. R. B. Welsh, who wore a becoming dress of black silk and Miss Hazel Welsh a pretty dress of rose satin, with tulle of shadow lace. Mrs. D. McDonald and

Crippling Pains Of Rheumatism

Cannot Be Cured by Liniments—Must Be Reached Through the Blood

Thousands of men and women suffer severely from rheumatism. Cruel, crippling pains in the muscles and joints make every movement a torture. Many people think rheumatism is due to cold or wet weather and they try to cure themselves by rubbing liniments on the painful parts. This is a great mistake—the rheumatic poison is in the blood, and liniments and rubbing cannot give more than the temporary relief. If you are a victim of rheumatism or lumbago you can only rid yourself of it by making your blood rich and pure, for only in this way can the poisons of rheumatism be driven from the system. Dr. Williams' Pink Pills have cured more cases of rheumatism than any other disease except anaemia, just because they make the rich, red blood that goes right to the root and cause of rheumatism. You cannot be well when your blood is impure, therefore, begin curing your rheumatism today with Dr. Williams' Pink Pills. The following are the particulars of one of the many thousands of cures to the credit of this health-giving medicine.

Mr. Jerome Nadou, St. Jerome, Que., says: "A few years ago I was seized with a severe attack of rheumatism. The pains in my back, arms and legs were terrible. I treated with several doctors but they did not help me, and as time went on I was unable to work, and began to think I would be a cripple for life. While in this trying condition a friend who had been cured of rheumatism by the use of Dr. Williams' Pink Pills advised me to try this remedy, and I got a supply of the Pills. I had taken the Pills several weeks before any improvement was noticed, but once signs of relief came the improvement from that time on was rapid, and I joyfully continued taking the Pills until every vestige of the trouble disappeared. No one but a similar sufferer can imagine the gratitude I feel for this relief from pain, and because I have since enjoyed perfect health I urge other rheumatic sufferers to give this medicine a trial."

You can get Dr. Williams' Pink Pills from any medicine dealer, or by mail at 50 cents a box or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

LENT BEGINS THIS YEAR THREE WEEKS LATER THAN NINETEEN HUNDRED AND THIRTEEN

How the Date is Arrived At—It is to the Council of Nicea That We Owe the Perpetuation of the Present Method of Reckoning Easter—Amendments to the Calendar

Lent begins this year three weeks later than last year, being of course based upon the date of Easter, which is April 12 this year, as against March 23 in 1912. Very few people can tell why Lent varies so from year to year and why Easter may come as early as March 22 or as late as April 25.

It is something of an anomaly from the religious point of view that the anniversary of Christ's death may fall on any one of thirty-five dates, while the anniversary of His birth is always on the same. It is no less of an anomaly from the astronomical standpoint, for there seems no reason why we, having adopted the solar year as the basis of our calendar, should cling to the lunar year merely for the establishment of one date.

It is a mystery why, when the date of Christ's birth was fixed as Dec. 25, some dates in April were not at the same time settled upon as those of His death and resurrection. That would have been logical and would have banished from the calendar a lunar cycle that has long been abandoned by all civilized people.

FIXING THE DATE

It should not be difficult to fix the rational date for Easter. If Christ was crucified on the fourteenth day of the March moon astronomers ought to be able to calculate on what date this fell. They say that in all probability it fell on April 7 of the year 30 of the Christian era. Why, then, not fix Easter once and for all as the first Sunday after April 7?

It is to the Council of Nicea that we owe the perpetuation of our anachronistic method of reckoning Easter. This council decreed that it should be the first Sunday after the first full moon that occurs after the vernal equinox, March 21. Pope Gregory XIII, undertook at that time to reform the Julian calendar, which had been in use ever since Julius Caesar, in 46 B. C., had prescribed that a year should consist of 365 days, every fourth year having 366.

AN OLD SYSTEM STILL

This Julian calendar was a reform of a still more ancient system based upon the emotions of the moon, which system varied widely in different lands. In Rome it had originated with Romulus, who established a year of ten months, having alternately thirty-one and thirty days, making 304 days in all. Numa Pompilius added the months of February and January, and in the year 452 B. C. the Decemvirs placed them where they now stand.

When Pope Gregory undertook to reform the Julian calendar, that had by that time become incorrect by about ten days, the revolution of the earth around the sun was not yet fully understood, so instead of making a change that would be thoroughly scientific, the present form of year was adopted, the Julian calendar being modified by calling Oct. 5, 1582, Oct. 15, and by making all terminal years of centuries 1700, 1800, 1900, etc., common years of 365 days, except when the year was a multiple of 400, as 1600, 2000, etc., which should be leap years.

MOVABLE FEATS

In those days they were so accustomed to movable feasts that it never occurred to the reformers of the calendar that a day might come when their observance should be inconvenient. They knew so little about the relations between the sun and the earth that they did not want to renounce the lunar year entirely and so upset the order of feast days that had from time immemorial been based upon the movements of the moon.

Though the Georgian calendar was issued in 1582, prejudice against any thing that came from Rome was so strong in England that it was not adopted there until by an act of Parliament, passed in 1751, Sept. 3, 1752 was reckoned as Sept. 14 and New Year's Day was set back from March 25 to Jan. 1 beginning with 1753.

To fix one definite date for Easter would require a decree from the Pope. The whole Roman Catholic world

SUFFERED AGONY WITH NEURALGIA

Nothing Helped Her Until She Tried "Fruit-a-tives"

CAMPBELLVILLE, ONT., May 5th, 1913.

"I cannot speak too highly of 'Fruit-a-tives'. For over thirty years, I have suffered from Chronic Neuralgia and Constipation, experiencing untold agony. The Neuralgia settled in my lungs and I took bottle after bottle of medicine without relief. The doctor told me I would not get better but 'Fruit-a-tives' proved that the doctor was wrong, by giving me quick relief and finally and completely curing me."

I would not have my present health if it was not for 'Fruit-a-tives' and I am glad of the opportunity of giving you this letter about such a splendid remedy as 'Fruit-a-tives', for the guidance of other women who may be similarly affected."

Mrs. NATHAN DUNN.

"Fruit-a-tives" is the only medicine made from fruit juices and is particularly suited to women because of its mild action and pleasant taste.

"Fruit-a-tives" is sold by all dealers at 25c. per 6 for 1.25, or may be obtained from Fruit-a-tives Limited, Ottawa.

and all Roman Catholics elsewhere would at once adopt it, and there is little doubt that the Protestant churches would follow. As it is a purely religious feast, this is all that would be necessary.

In Russia and Greece the Julian calendar is still in use, so their dates are now twelve days different from ours.
