The Lodge, by the reports submitted, was shown to be in a good position. A noticeable feature was the large amount that had been expended in the assistance rendered to sick brethren.

After adjournment the members, on invitation of the Noble Grand and Vice Grand, proceeded to Williamson's where an excellent supper was partaken of and some time spent in social conference and speech making in response to various toasts proposed. GENTLEMEN,-I have used MIN-ARD'S LINIMENT from time to time for the past twenty years. It was recommended to me by a prominent physician of Montreal, who called it the "great Nova Scotia Liniment." It does the doctor's work; it is particularly good in cases of Rheumatism and Sprains.

423 Coristine Bldg., Montreal

Replying to your favor of the 15th inst., with reference to our new cut of Lumber, we beg to say that we had already made up our minds to give you our entire cut to sell In justice to yourselves you are pleased to state that the 700,000 ft. of lumber which you sold for us has averaged us a net profit of \$1350.00 over and above the best offer we had received from different wholesalers. Needless to say that the Board of Directors were quite willing to give you again our new cut. We will start sawing just as soon as the roads are fit to haul the logs on. If you have any special sawing schedule to give us, kindly let us have same at your early convenience. SAVOY CO. Yours truly,

Small Outlay---Big Returns

No man can read the tuture. If this were not so he would make millions of dollars in a few years on a comparatively small outlay. Next to reading the Future the only way is to take all known facts into consideration and study out in your own mind the direction coming events are going to take. Some people say that the man who plans a subdivision on the outskirts of a town, which later developes into a city, who plans a subdivision on the outskirts of a town, which later developes into a city, la lucky. There is no such thing as luck in a matter of this kind. The man saw that I lucky. There is no such that the city would grow out in the direction of the town would become a city and that the city would grow out in the direction of his subdivision. He merely used common sense and acted on his judgment.

PRINCE RUPERT, B. C.

When we add the train crews, yard men and freight handlers to the above, an estimate of 10,000 population seems very conservative It is reasonable to say that all property adjoining the holdings of the C. N.R. will greatly enhance in value from the large estate investments in and around Port Mann. There is still room on the gound floor but it is rapidly being taken up When things

are on an established basis and the population reaches up in the thousands, it will be too late.
