

MOTHERS

REMEMBER! The ointment you put on your child's skin gets into the system just as surely as food the child eats. Don't let impure fats and mineral coloring matter (such as many of the cheap ointments contain) get into your child's blood! Zam-Buk is purely herbal. No poisonous coloring. Use it always. 50c. A very good way to use up the left-over lettuce, tomatoes and cucumbers is to chop the lettuce rather fine and cut the tomatoes and cucumbers into dice, add a little onion and parsley; then mix the whole together with French dressing, and it is ready to serve.

The elastics in the knee band of the bloomers that are to be washed will hold their elasticity much longer if their ends are not sewed together, but instead sew a snap hook to one end and to the other end an eye.

THE GATLIN TREATMENT

For Drink and Drug Habits

ENDORSED BY

Physician of Pasteur Institute

This splendid treatment, which has eliminated more physical suffering and mental distress than any other medical accomplishment of recent years, has the unqualified endorsement of many of the most eminent men of the medical world. We submit the statement of Dr. William L. Wheeler of the Pasteur Institute of New York, who says after a period of one year's critical observation:

DR. WM. L. WHEELER
361 West 23rd Street, New York,
August 5, 1913.

To the Medical Profession:

A little over one year ago, Mr. W. E. Godfrey came to my office full of enthusiasm for the Gatlin treatment for alcoholism. He stated that it had cured him of the drink habit, covering a period of more than 30 years and that he intended to devote the rest of his life time disseminating the efficacy of this "medical miracle" among men and women who drink to excess. While impressed with Mr. Godfrey's sincerity, I naturally looked with more or less distrust on a remedy claimed to destroy the appetite for alcohol in 3 days and at the end of that time leave the patient in first-class mental and physical condition. After twelve months close observation, I am pleased to announce that, in my judgment, there is no treatment that can compare with the Gatlin treatment for acute or chronic alcoholism. Its results have been surprisingly good in every instance.

WM. L. WHEELER.

No better evidence of the efficiency, success of the Gatlin Treatment can be asked for by even the most skeptical. Statements like the above are not idly made nor should they be so considered. Any man or woman who knows of any one addicted to liquor or drugs whose will power is weakened and who needs scientific medical assistance to save them from a life of misery or an early death should put them in touch with the facts concerning the Gatlin Institute.

Gatlin Institutes are established throughout the world where treatments may be had under the care of competent physicians, or treatment may be had in the privacy of the home, club or hotel. Get complete information in person or by mail in plain sealed envelope. All communications confidential.

Deering Haying Implements

The Deering Mowers are famous for their light running characteristics, and have been justly called the lightest running mowers on the market. Equipped throughout with roller and ball bearings. No clogging in the heaviest hay. No side draught. Adjustable and constructed to guarantee a satisfactory cutting on irregular ground as level.

The Deering Steel Hay Loader is equipped with steel spring forks that are flexible and amply protect it against breakage.

The Deering New Ideal Self Dump Rake is equipped with staggered spoke wheels, and have an inside flange on the rims that prevents twisting on hillsides and in soft ground when turning. Tough and pliable steel teeth. The Dumping Mechanism repounds quickly and easily so that a small boy can operate it as well as a man.

The New Deering Steel Hay Loader with five trucks is made entirely of steel, entirely new and in advance of any other Loader on the market. Absolutely the lightest in draught, less breakage, and most satisfactory to operate on irregular ground.

If you are going to buy any new implements for haying, it is important that you inspect our line first. It pays to buy the best.
