## CANADIAN WAR NOTES

J. T. Armand, a Montreal mining broker is held by the Germans as a prisoner of war at Baden.

The British Government has ordered one and a half million shirts from Canadian firms.

The Ross rifle factory at Quebec is working right and day, including Sunday.

Lord Roberts inspected the Canadian troops at Salisbury Plain last week.

An addition of 599 men has been made to the Northwest Mounted Police.

Col. the Hon. Sam. Hughes has been made a Major-General. Col. Gwatkin, Chief of the General Staff, has been given the same rank.

Major T. Rivers Bulkeley, late Comptroller of the Household of the Duke of Connaught, was killed in action at the front.

N. W. Rowell, speaking before the Orillia Canadian Club, advocated larger provision by war pensions for families of dependents.

Rev. Dr. Chown, General Superintendent, has sent a protest in the name of the Methodist Church to Sir Robert Borden against wet canteens for the Canadian soldiers in Britain.

An attempt was made to shoot a sentry at the Hydro-electric station at Niagara Falls, the third affair of the kind in that vicinity within a week.

Major General Sam Hughes says that nothing can stop Americans from joining Canadian ranks for service. "We are prepared to furnish 300,000 men," he said. "Fully 200,000 Americans have gone to Canada in the hope of joining the Canadian forces, and how will they be prevented from doing so if it is their desire to join?"

It is expected that by the end of the year about 100 cadets of the Royal Military College will have left for the front to serve as officers in British and Canadian regiments. Possibly only about thirty cadets will be left at the college.

A report from Constantinople says 14,000 men of the first Canadian expedition are guarding the Suez Canal. But this is a very unlikely story. The appointment of a British general to command the whole force means that the force is to be used as one body and at the seat of war. As the Alberta Legislature was about to prorogue, T. M. Tweedie, Conservative, Calgary, presented a resolution calling upon the Attorney General's Department to suspend publication of The Alberta Herald, a German publication of Edmonton, for alleged treasonable utterances, and to prosecute its editor. For a few minutes there promised to be a stormy scene. Hon. Duncan Marshall denounced the resolution as a dirty Tory trick, but withdrew this at the request of the Speaker, meanwhile asserting that he would have no hesitation in repeating the words outside the House. A vote was called for, and in the first division of the session the resolution was de-

feated, 31 to 18.

Contracts aggregating about half a million dollars have been given to manufacturers in Windsor, Walkerville and Sandwich for supplies of various kinds for the British Government. In addition to this, some \$4,000,000 worth of Canadian saddles are being made for the British, French and Russian war authorities. Canadian textile industries will be kept busy all winter supplying orders from the British War Office for immense quantities of sweater coats, socks, woollen underwear, blankets, etc., for which orders are now being placed by the British purchasing agents at present in Canada.

The only difficulty in the way is in getting enough raw material in the form of wool.

Two German naval reservists were arrested at Montreal on a charge of creating a disturbance on a train. Two Russians were sitting immediately behind the two, and, according to them, Fisher and Yousen drank to the health of Germany and the downfall of her enemies. Then the men threatened to blow up the train, that a few of the enemies of the fatherland might be put out of the way, according to the Russians, each of whom understood German slightly.

The German Cruiser Emden last week sank a small Japanese mercantile steamer.

The Kronland, loaded with American copper for an Italian port, was seized at Gibraltar last week. The British Government believes the copper was for the enemy.

The Brindilla, a German steamer purchased by the Standard Oil Co. since the war, and which was seized and taken to Halifax, has been released.

A British hospital ship, on her way to succor French and Belgian wounded, was driven on the Yorkshire coast and wrecked. There were some two hundred people on board.

A British fishing trawler reports that she got a submarine tangled in her nets. The nets were abandoned.

and the trawler ran for it. What happened to the submarine is not known.

One of the most daring feats yet performed by the German navy was in laying mines off the north coast of Ireland, with the result that the Manchester Commerce, a British freight steamer, was sunk with her captain and three of the crew.

A peculiarly daring feat was performed by the German cruiser Emden last week when she entered the British harbor of Penang, in the Straits Settlement, and sank the Russian cruiser Jemtechug and a French destroyer with torpedoes. The Emden went in under the guns of the fort, and after sinking the cruiser and destroyer, escaped through the Strait of Malacca.

## FIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender Little Stomach, liver and bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad, has sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

### The Foyer Garden

WATER THE PLANTS.—Water house plants thoroughly, but do not keep the pots in saucers filled with water. The saucers are good to keep the water from running through to the floor, but that is all. Apply water until it begins to run through and then stop. Do not water again until the plant needs it. Plants with their tops cut back require less water than those with a large, full top. Remember that flowers can be killed by giving too much water as easily as by not giving enough.

MOVING THE PLANTS.—Cut back the tops of plants taken in from out doors from one-half to two-thirds. This is important. While this operation must be done at the sacrifice of the flowers, it is necessary for the life of the plant. With the disturbed condition of its root system, the plant cannot be expected to maintain a large top, flowers and all, in full vigor. When the top is cut back, the plant is stimulated to send out new shoots. By the time these begin to grow the roots have become established in the pots and the plant remains healthy.

J. G. Emery & Co.,  
Woodstock, N. B.:  
Dear Sir,—I bought two boxes of your No. 1 Ointment this summer and found it extra good. I used it for a swelling on my leg, below the knee. I had the swelling about a year and it had become a running sore at times. I was only about two months curing it. The ointment is white, pure and clean, and is an excellent family remedy.

## Improved Roller Bearing Hover Potato Digger Free

The Hoover Digger has always been acknowledged to be the World's Standard in a Potato Digger. This year it is equipped with Roller Bearing throughout, heavy steel sides, and other important improvements. These new improvements greatly increase the lead it has always maintained when compared with anything else ever offered the public in the shape of a Potato Digger.

Salesmen in Aroostook County, Maine, selling other diggers have, in years past, met with a certain measure of success by telling the farmers they had something as good as the Hoover, with less draught. But in every instance their success meant that much disappointment to the farmer as when he got up against a hard piece of digging, or a season when the digging conditions were unfavorable, the digger that was claimed to be just as good as the Hoover was hauled back of the barn and a Hoover purchased.

That story is worn threadbare and cannot be used to advantage now, consequently our competitors are using a new story, and it is the new story we want to warn the farmers about, as some have already been victimized through it. It is the story that they are selling the Improved Hoover, leading the farmers to believe they are made by the Hoover Manufacturing Company of Avery, Ohio. We will admit that there are several Potato Diggers offered for sale in Carleton County that are imitations of the old Hoover Digger, which we have discarded. Our Diggers are manufactured by the Hoover Manufacturing Company of Avery, Ohio, and to convince you that we are the sole Agents for Hoover Diggers, we will offer FREE to anybody a New Improved Roller Bearing Hoover Digger, if they can prove our competitors have any Agency to sell Potato Diggers manufactured by the Hoover Manufacturing Company of Avery, Ohio.

We keep a Complete Stock of Hoover parts at all times.
