F. B. CARVELL, PRESIDENT.

A Weekly Newspaper, printed and published by "The Carleton Sentinel Publishing Company Limited."

FRIDAY, MARCH 13th, 1914.

THE GALLANT COLONEL SQUEALS.

The sensation of the week is the exposure of the Southampton Railway affair, in parliament, by Mr. F. B. Carvell and Mr. McLeod's statement that "items have been padded and turned into the government that were neither true nor correct." In spite of the extraordinary attitude of the member for York and his corroborator of Mr. Carvell, it is quite evident that he is in a muddle and instead of extricating himself is getting in deeper and bringing others with him. The granting of the double subsidy, about the time Mr. Pinder had his eye on Ottawa, and the subsequent action of this gentleman in putting Mr. McLeod in nomination for the seat are features that will need more light than the member for York has given in his outburst in parliament. Now that the gallant Colonel has made a definite charge upon the man who helped elect him, it will be in order for Mr. Pinder to tell what he knows of this scandal, one of the many near home upon which the saffron Tory papers are silent.

In dealing with this phase of the affair the Telegraph says: Conservative Journals and politicians have had a great deal to say about the National Transcontinental and other alleged scandals. Some of these journals and politicians will now recognize a real scandal much nearer home that will demand their close and immediate attention. The whole country will watch intently the course of Mr. Borden and his Ministers in connection with this matter. So virtuous a circle ought not to hesitate for a moment in the face of the evidence placed before the House of Commons by Mr. McLeod of York. Hon. Mr. Fleming, too, who numbers Mr. Pinder among his supporters, has an obvious duty, and ought not to hesitate.

This is one of the cases that gives the country some real light upon Conservative methods. Before the revelations are complete it may be surmised that between Mr. McLeod and Mr. Pinder the New Brunswick Premier and the local and Federal members for New Brunswick are going to participate in some rather heated if instructive proceedings. At a time when the Conservatives have been so laboriously constructing "scandals" to discredit the Laurier government, this York County case, involving both the local and the Federal administrations, is likely to enlist about all the energy the Conservative party can muster.

Col. the Hon. Sam. Hughes is reputed to be a brave man, as should be the head of the fighting department of the Government. But whatever may be his personal bravery in the face of a Boer army, his official bravery is not so ostentatious. He seems to have considerable respect for the strategical philosophy of Hudibras—"He that fights and runs away may live to fight another day." He is not averse to the Indian style of warfare—fighting from behind the cover of a tree—in his case, represented by the privilege of parliament. On Monday, Feb. 23, in the House, the Minister of Militia made a speech in which he charged the late Minister of Agriculture with personally and financially profiting from the purchase of lands for the government of the day. Hon. Mr. Fisher disputed the statement, denying its accuracy, and challenging the Minister of Militia to make his statement in a way that could be reached by a suit for libel.

So far the "brave" Colonel has not had the courage to make his statement outside the House, as challenged to do by Mr. Fisher.

It was brought out in parliament yesterday that Mr. B. F. Smith, who had a license to cut burnt timber on the Tobique Indian reserve, had also cut green timber, in violation of his license. And yet Mr. Smith has had, and doubtless still has, aspirations to become a Canadian law maker.—Times-Star.

It seems that the sub-contractors on the Valley Railway are not greatly enthused over the application of the company for a further guarantee of bonds. They will oppose the application unless they are given some assurance that they will ring in on the deal and get some of their bills paid.—Mail.

Many people are still wondering where the Fleming government got the enormous corruption fund which it had at its disposal during the elections of 1912. The concern which is supposed to have come down with a good part of it will shortly be seeking additional favors from the Legislature. Will the government comply with its demands? Sure thing.—Mail.

\$2000 fine, or a month in jail, for cutting green logs on the Tobique Indian Reserve is the sentence handed out to one of the original owners of the property. Mr. B. F. Smith pays \$28.18 for cutting logs on same property. Mr. Smith wanted to represent Carleton County in the federal parliament.

The St. John Valley Railway Company wants \$2,000,000 more bond guarantee. A statement of what has been done with the money already furnished would seem to be in order.

Never mind the Trent Valley Canal get nearer home and tell something about the graft on the Valley railway. And the Tory papers might "say something" about Mr. B. F. Smith's recent logging operations on the Indian reserve.

You Never Call the Doctor

Unless You Need Him

You listen with grave attention to every word he says. BUT THEN—what do you do with that vitally important thing—the prescription he leaves?

Do you use the same care in choosing the druggist to fill it that you do in choosing the doctor who writes it? And shouldn't you? Doesn't the success of the doctor's treatment depend more than anything else on the exactness and care with which his prescription is filled, and the freshness, strength and purity of its ingredients? We also claim that nowhere else near here can you get your prescription filled with more exact skill and care—the same exact precision—as in our prescription department. People who have us fill their prescriptions will tell you that our claims are based on facts. And these facts are becoming more widely known daily, as is evidenced by our constantly increasing prescription business.

When You've Had the Doctor, You Need Us.
