THE Gurney-Oxford nears  
perfection this year.

It has many splendid  
points, of which these are the  
most important:—

The Gurney-Oxford Econo-  
mizer (not to be had on any  
other stove) is such a con-  
venient method of regulating  
the fire and saving fuel that  
it certainly should be on the  
stove you buy.

The fire is supported on grates  
that supply lots of air; coal  
doesn't smoulder, it burns,  
leaving clean, clear ashes—  
not clinkers. Clinkers mean  
waste.

The heat goes directly to the  
oven where it should—over  
and under and around the oven,  
heating it evenly in every  
corner. It can't get up the  
chimney; it must do its work.

These, briefly, are the devices  
that make the Gurney-Oxford  
the most perfect piece of stove  
mechanism ever devised.

## PREMIER FLEMMING ADMITS SELECTING E. R. TEED TO HOLD THE BAG AND RECEIVE THE SWAG

**Teed Sends Him Keys of Safety Deposit Box Contain-  
ing Funds—Refers to Money as a Campaign Fund—  
The Premier Testifies in a Shaking Voice—Acting  
Premier Clarke Gives Surprising Evidence**

(Friday's Telegraph)

Premier Fleming was the star  
witness at the Dugal inquiry yester-  
day, and today many thousands will  
read his denials—and his admissions.

He denied extorting money from  
the lumbermen, directing that extor-  
tion, or receiving any of the money.

But he admitted selecting E. R.  
Teed to take charge of the money,  
just as Teed said. Mr. Fleming

made distinctions. He swore solemn-  
ly that he told W. H. Berry that he,  
Berry, must not receive the money,  
and that he told Berry he himself  
could not receive it—but, said Flem-  
ming, if the lumbermen are going to  
pay it, E. R. Teed is the man to

handle it. So he assigned Teed to  
the job. Subsequently he said Teed,  
when very ill, sent him the keys to  
the safety deposit box containing the  
funds, that he, Fleming, never  
used the keys, never went near the  
money, never got any of it—except  
that \$15,000 loan and the \$9,000 for  
his Gould stocks.

Fleming swore he believed the  
fund was made up of voluntary con-  
tributions. He spoke as though the  
idea that a fund be raised originat-  
ed among the lumbermen. He swore  
Berry told him so, and that he be-  
lieved it.

As for Teed, the premier admitted  
readily enough that he selected Teed  
as custodian of the cash, and his  
seeming conclusion was that so long  
as Teed was not an official of the  
department the transaction was all  
right.

Moreover, he swore that he didn't  
know Berry was taking part in the  
levying of the graft, much less that  
he was using threats in doing so.  
The Premier even said that if he had  
known compulsion or threats were  
being employed he would have put a  
stop to it.

The premier denied having profited  
personally by the collections, which  
he referred to as a campaign fund.

His evidence came somewhat unex-  
pectedly at the afternoon session. He  
was called as the first witness for  
the defence and gave his evidence in  
reply to the questions of his coun-  
sel, M. G. Teed, K. C.

Throughout the day as the premier  
sat in court and listened to the de-  
tails of the management of the fund  
being related he showed more unrest  
than he has since the inquiry opened.

When he took the stand his first  
answers were in a scarcely audible  
voice, and his voice shook as he  
spoke. As the examination proceed-  
ed his voice steadied and strengthen-  
ed somewhat, although at no time  
was it much above a whisper except  
when he undertook to justify his ad-  
ministration of the crown lands de-  
partment. For the most part he sat  
far forward, with his head resting  
upon his hand, alert and ready. His  
mind was working clearly and he  
answered for the most part readily  
and in a tone more of sorrow than  
of anger.

Soon after 4 o'clock Mr. Teed  
asked for an adjournment in order  
to have time to confer further with  
his client. Cross-examination was  
thus postponed until today. Mr. Car-  
vell suggested that from one stand-  
point it was an excellent time to  
suspend. The premier will continue  
this morning under Mr. Teed's ques-  
tioning, and then will come the  
cross-examination.

Apart from the evidence of the  
premier that of the acting premier,  
Hon. George J. Clarke, was the  
most surprising of the day. Mr.  
Clarke announced that when Berry  
left the country he was regarded by  
the government as no longer in their  
service, although they have taken no  
notice of his departure, have receiv-  
ed no resignation from him, or have  
taken no steps to dismiss him. Nei-  
ther as head of the government nor  
as attorney-general did he think that  
he had power to induce Berry to re-

turn.  
E. R. Teed was the first witness  
at the morning session, and his evi-  
dence was largely an amplification of  
that given on Wednesday. He sub-  
mitted a statement showing that he  
still holds the entire amount, except  
for the \$200 paid to Mr. Brankley  
and \$1,000 he took himself, for ex-  
penses.

Teed said that he did not know  
what is to be done with the fund,  
but he had the next election in his  
mind as the time when something  
would be done with it. He denies  
that he has given an accounting for  
it or that he ever had instructions  
as to what to do with it.

J. D. Seely, secretary of the Maine  
& N. B. Power Company, also gave  
evidence regarding the stock of that  
company held by Premier Fleming  
and Mr. Teed.

#### SAINT JOHN EXHIBITION

The Experimental Farm System of  
Canada is co-operating this year in  
making the Agricultural Department  
of the Saint John Exhibition a larg-

has been the case for some years.  
Owing to the early dates on which  
the Exhibition must be held in or-

those attending, the display of Agri-  
cultural products has during the last  
two or three Exhibitions not been so  
comprehensive as the Exhibition au-  
thorities would like but this year a  
special effort is being made and the  
Experimental Farm System will  
make an exhibit embracing the fol-  
lowing departments:—Animal Hus-  
bandry, Field Husbandry, Forage  
Plants, Cereal, Botanical, Horticul-  
tural, Poultry, Chemical and Bees.  
This exhibit will be in charge of  
special officials and will be of a high  
educational value and of great in-  
terest to all classes whether farmers  
or not. It is also planned to supple-  
ment the value of the exhibit by  
literature especially prepared and  
also by special lectures to be de-  
livered under the supervision of the  
Provincial Department of Agriculture.  
In these days it is the up-to-date  
and scientific farmer who produces  
the goods that command the best  
prices and these lectures will describe  
the latest and most effective ways of  
getting the desired results. Other  
features are also under contempla-  
tion which will indeed make the St.  
John Exhibition of 1914 an Agricul-  
tural Exhibition in fact as well as in  
name. The dates are from Septem-  
ber 5th. to 12th.

#### WIRE WOUNDS

My mare, a very valuable one, was  
badly bruised and cut by being  
caught in a wire fence. Some of the  
wounds would not heal, although I  
tried many different medicines. Dr.  
Bell advised me to use MINARD'S  
LINIMENT, diluted at first, then  
stronger as the sores began to look  
better, until after three weeks, the  
sores have healed, and best of all,  
the hair is growing well, and is NOT  
WHITE as is most always the case  
in horse wounds.

#### WEALTH OF HAIR

Parisian Sage Makes Thin Lifeless  
Hair Soft and Abundant

Beautiful hair, thick, soft, fluffy,  
lustrous, and free from dandruff, is  
one of woman's greatest charms, yet  
so many have streaked, thin and  
lifeless hair and think there is no  
remedy. Pretty hair is largely a  
matter of care.

Frequent applications of Parisian  
Sage well rubbed into the scalp is all  
that is needed—it acts like magic.  
Try it tonight—you will really be  
surprised with the result. Not only  
will the hair become soft, fluffy,  
radiant with life and really doubly  
beautiful, but all dandruff disappears  
falling hair and itching scalp cease—  
your head feels fine.

All druggists sell a large bottle of  
Parisian Sage for fifty cents. Get it  
from E. W. Mair, he will refund the  
money if you are not satisfied.

#### MARRIED

CARTER-JONES

A very pretty wedding took place  
at Avondale, Car. Co., on June the  
24th, when Miss Myrtle, daughter of  
Mr. and Mrs. Calvin Jones, was  
united in marriage to Mr. Harry  
Carter, of the same place, but form-  
erly of London, England.

The marriage was performed by the  
Rev. J. H. Coy, of Woodstock, in  
the presence of about fifty invited  
guests. The presents to the bride  
and groom were numerous and cost-  
ly and showed the esteem in which  
they were held by their friends and  
relatives.

### A Sherlock-Manning Piano

Finished in Richly Colored Mahogany. Worth  
\$400.00. Is a Prize that is Yours for  
Only An Honest Effort.

This Piano is one of the Finest Musical Instruments that time  
and money can produce. Prof. Joseph Adams, of Summerside,  
P. E. I., writing of this Piano says:—

The Sherlock-Manning combine great sweetness of tone, to-  
gether with power, a combination which to my mind, is lacking in  
the great majority of pianos. Their singing qualities I consider of  
the very finest, a merit, which every musician will consider of the  
highest importance.

Finally, I consider their touch unsurpassed. It is very flexible  
and pliant, and will meet the requirements of the most fastidious  
pianist.
