### BENTON

The young people of the village spent a very pleasant evening at the home of Mr. Frank Mills, the occasion being the birthday of his daughter, Wannee. She received congratulations and many pretty presents. Mr. Percy Grosvenor with his wife and children are visiting his mother, Mrs. Grosvenor. Miss Violet Grosvenor is also home from Boston visiting her mother. Miss Elizabeth McDonald is home from Bath visiting her many friends in Benton.

Mrs. Cassie Sherwood and family of M. 10, are visiting Mrs. John Boyd. Miss Georgie McHenry and sister Ella have gone back to Boston after

spending two weeks with their father, Mr. Joseph McHenry. Every train seems to bring a load of barn machinery to this station. Mr. Purvis on Saturday received a mowing and raking machine. Mr. Simons a beautiful new carriage.

Mrs. Elliott Murchie of Kirkland spent a few days visiting her friends Mrs. W. H. Murchie, Mrs. W. Anderson, Mrs. Purvis and Mrs. J. Bolger. All were delighted to see her. The gardens and crops in general look fine all around.

## GOVERNMENT SHOULD BRING BERRY BACK SAYS COMMISSIONER FISHER

Mr. Flemming's Memory Still Defective on Important Points. But He Admits Receiving a Letter from W. H. Berry, the Missing Official

Did Not Remember that Contractor Kennedy's First Name was John Although He Met Him at His Brother's House By Appointment—Refers to the Dope Administered by Gould to Fit Him For Speech Asking for \$2,000,000 From Legislature

(Telegraph, Tuesday) "I still think that the government should make some effort to secure the attendance of W. H. Berry before this commission. Personally, I would be very sorry to see the inquiry ended without his testimony. Although Acting Premier Clarke has said that he knows of no legal means to compel Mr. Berry to return, he also said that he had not asked him to do so. I think Mr. Clarke might at least write Mr. Berry a letter asking him to return to give evidence."

These were the remarks with which Commissioner W. S. Fisher yesterday greeted Mr. Carvell's statement that he is still using every effort to secure Mr. Berry's attendance, although his hopes of success were not as strong as they were three weeks ago.

The conversation occurred yesterday when the inquiry into the Dugal charges against Premier Flemming in connection with the timber lands graft was resumed. It arose in connection with a discussion regarding the procedure of the inquiry. Mr. Carvell urged that the case should not be closed and counsel compelled to argue until after the evidence in the Valley railway inquiry should be completed, in order to give an opportunity for the introduction of Mr. Berry's evidence if it should become available. Mr. Fowler opposed this, but the commission finally decided to leave the crown lands matter open while the railway inquiry proceeds, and to resume the railway inquiry this morning at 10 o'clock. Premier Flemming was on the stand again for the entire session yesterday afternoon, while Mr. Carvell finished his cross-examination and Mr. Teed his re-examination.

One of the Premier's admissions on the stand yesterday was that he had received a letter from W. H. Berry soon after the missing official had reached Boston. He denied that he had communicated with Berry in any way, that he had been in communication with G. C. Cutler or that he knew that Mr. Berry had waited upon Mr. Cutler.

Mr. Flemming's memory was not as good as it might have been, at times. He even forgot the first name of a man with whom he had a conference, by appointment, at his brother's house after the charges were made, a man who is one of the principal contractors on the Valley railway and who is widely and generally known by his first name or still more familiarly as "Uncle John."

The Premier denied that any of the lumbermen had paid for the privilege of evading the law regarding the export of pulpwood from crown lands, or for the privilege of cutting undersized logs, although he admitted that both practices were carried on with his consent under certain circumstances, of which he gave details. The spirit of the law, he asserted, was not violated, if the letter was.

The intimation that had required bromide to restore him to health after the illness which followed the announcement of the charges seemed to stir the Premier and, from a simple statement that he did not remember using the remedy, he passed to a most decisive oath to that effect.

Premier Flemming's evidence is the last to be introduced in connection with the timber lands charges, unless Berry turns up, and yesterday's hearing brings that case to a close except for the arguments of counsel, which will be heard later.

### Member of Legislature Discusses Revelations

SUGGESTS EARLY CAUCUS OF COLLEAGUES TO DEAL WITH SITUATION

(Globe)

Everywhere on the street there is discussion of the premier's testimony in the Crown Land investigation and speculation as to the future. Political friends of the Government, astounded at the revelations, declare there must be an immediate reorganization. Political opponents, equally surprised, are hoping the changes they foresee as imminent will again bring them control of the province. Everyone is stunned by the disclosures and the good men of both parties say what the Globe has been saying from the first, that there must be an entirely new deal with reference to the crown lands, fair alike to the lumbermen and the people. Talking over the situation this morning a member of the legislature said there was a feeling among those of his colleagues whom he had seen, that at as early a date as possible the Government supporters in the legislature should be called together to discuss the situation. The Government supporters were, he felt, as anxious as everyone else for clean government, and would insist on action that would convince all in the province of their honesty of purpose. The member did not care to predict any line of action for the caucus of Government supporters, but declared

## SIR WILFRID LAURIER TO VISIT N. BRUNSWICK LAST WEEK IN AUGUST

E. M. McDonald, M.P. for Pictou, Brings Good News of Liberal Chieftain's Coming Here at Most Interesting Time in Political World—Probably Two Addresses in New Brunswick Before Western Trip — F. B. Carvell, M. P., to Accompany Leader as Speaker in West.

Liberals in New Brunswick will be delighted to know that at this most interesting time in the political history of the province Sir Wilfrid Laurier, the great Liberal chief, will in all probability pay a visit to New Brunswick and deliver two addresses at central points. It is expected that the Liberal leader will spend the last week of August in the Maritime Provinces and deliver two addresses in each New Brunswick and Nova Scotia before leaving on his projected tour of the west.

E. M. MacDonald, M. P. for Pictou one of the fighting Liberals in the House of Commons, passed through the city yesterday on his return from Ottawa and met between trains F. B. Carvell, M. P. for Carleton, and E. S. Carter, Liberal organizer. Mr. MacDonald brought the good news that Sir Wilfrid was planning to spend the last week of August, just before leaving on his western trip, in the Maritime Provinces. Two meetings at central points are likely to be arranged in New Brunswick and the same in Nova Scotia, with places and dates to be announced later.

On his western trip Sir Wilfrid is to be accompanied by Mr. Carvell, Hon. MacKenzie King and Hugh Guthrie, M.P. for South Wellington.

his belief that they would insist on a change of leadership. Hon. Mr. Flemming's admission of his knowledge of what was going on made it impossible for the party to continue to support him. As no other member of the Government has been connected with the scandal and as the premier has admitted he kept knowledge of the fund from colleagues it should be easy for all to rally to the support of Hon. Mr. Clarke or whoever is chosen to lead the Government.

### GUARD AGAINST CHOLERA INFANTUM

Cholera infantum is one of the most fatal ailments of childhood and during the hot summer months thousands of little lives are lost by its ravages. The best way to guard against it is to give the baby an occasional dose of Baby's Own Tablets. The Tablets never fail to regulate the bowels and sweeten the stomach, thus preventing cholera infantum, diarrhoea, dysentery and all other stomach and bowel complaints. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Some Payments of Interest from Valley Ry. Account

Some Payments of Interest

One of the payments which excited the curiosity of the examining counsel was a matter of \$1,000 which the voucher explained simply as "advertising" above the signature of A. R. Gould. The accountant explained that the only value received for this sum was ten shares of stock of the Fredericton "Gleaner." The stock, at one time was attached to the voucher but had been removed before the investigators had an opportunity to see it. "Is it blood-money?" asked Mr. Carvell and witness gave no adequate explanation.

The neat sum of \$2,000 was paid to A. R. Gould "for special services" but the check which was issued in his name bore the endorsement only of J. N. W. Winslow. During the afternoon other payments of \$1,000 and \$300 apparently for services searching right of way titles were shown to have been made to Mr. Winslow.

The endorsements on the \$1,000 check, however, showed that it fell into the hands of Kennedy & MacDonald, railway contractors, before it was cashed. Mr. Winslow also received \$3,500 in payment for land in Woodstock said to have been purchased as the site for a station. The witness said that no preparations had been made for using the land for this purpose but he professed that he did not know that the land is now held in the name of Mr. Winslow and Ross Thompson, the managing director of the construction company.

Mr. Winslow is the postmaster at Woodstock who was appointed to that office by the present government very shortly after they took office, displacing an appointee of the previous administration.

The Misses White of Sussex, are guests at Carleton Hall.

Miss Helen Hand returned on Saturday, after spending a month with relatives at Augusta, Me.

## Nature's Curve

That's what you get in a Toric lense—a glass with a curve just like the curve of the eye. That's why it's better than a flat lens. It gives a wider field of vision and catches the rays of light from every angle in exactly the way Nature intended.

Toric lenses are the longest step forward in the grinding of glasses that has been made for many years. They can be ground to correct any effect in refraction and to fit any eye.

The Toric lenses which we supply are always accurate. We will examine your eyes and prescribe glasses or we will fill your oculist's prescription with the assurance that the glasses you get are exactly what your eyes require.
