Thousands Have Been Helped By Common Sense Suggestions.

Women suffering from any form of female illness are invited to communicate promptly with the woman's private correspondence department of the Lydia E. Pinkham Medicine Co., Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence. A woman can freely talk of her private illness to a woman; thus has been established a confidential correspondence which has extended over many years and which has never been broken. Out of the vast volume of experience which they have to draw from, it is more than possible that they possess the very knowledge needed in your case. Nothing is asked in return except your good will, and their advice has helped thousands. Surely any woman, rich or poor, should be glad to take advantage of this generous offer of assistance. Why do folks keep Corns?

Why do you? Why do you merely pare them, or doctor them in old-time, ineffective ways?

Blue-jay ends corns—takes them out completely. Does it without pain or soreness. Does it to a million corns a month.

Why don't you employ it?

Blue-jay contains a little drop of wax. When you apply it the pain is stopped for good.

Then the wax gently loosens the corn. In 48 hours you can lift the corn out, and that ends the corn forever. New corns may come, but that old corn will never trouble you.

The Blue-jay way is simple, easy, painless. It is modern, scientific. It is so effective that it now is used on about half the corns in the country.

Paring merely eases corns. Other treatments palliate. Blue-jay takes the whole corn out, root, branch and everything. It costs but 15 cents to prove this, and never after will you suffer from a corn.

GIN PILLS SAVED HIM

513 JAMES ST., HAMILTON, ONT. My wife read in the papers about GIN PILLS and sent for a box. From the very first, I felt that GIN PILLS were doing me good. The pain was relieved at once and the attacks were less frequent."

In six weeks, the Stone in the Bladder came away. When I recall how I suffered and how now I am healthy and able to work, I cannot express myself strongly enough when I speak of what GIN PILLS have done for me."
