

## ROYAL COMMISSION

(Continued from page two)

(d) The name of each and every person or persons to whom each sum of money so paid was diverted and the date when so paid or diverted.

(e) The name and address of each contractor under the St. John & Quebec Railway Company who was compelled to pay money to Hon. James Kidd Flemming in the year 1912, before they obtained contracts, the date of the payments and the amount paid.

Mr. Carvell—"If my learned friend would furnish me with this information that would settle the case. I will frankly admit that I cannot give him all the information he asks for; this is a suit for a specified amount of money. Mr. Dugal has shown that so much money has been provided for the road and so much spent on it. The difference between the two items is a matter of \$600,000 or \$700,000. Our object is to show where this money went. The information asked for is a matter of evidence. If I were to give all my witnesses I might not get all my witnesses here. If my friend merely wants additional time that is a matter for the commission to deal with."

Mr. Teed—"I see no difference between the two cases. In the one it is charged that money was unlawfully extorted and in the other that it was unlawfully diverted. Surely this is not a fishing expedition. I think we are entitled to the information."

FORCED TO GIVE INFORMATION.  
Mr. Carvell—"Mr. Clarke, the acting premier, asked Mr. Dugal for much of this information and Mr. Dugal replied that he should not be compelled to furnish it. The acting premier intimated that the government could not see their way clear to appoint a committee unless more information was forthcoming. Mr. Dugal again protested but furnished some information and afterwards was sorry that he had done so. He told the government that Jas. H. Corbett & Sons had paid \$10,000 to Premier Flemming and that Scott & Kelly had paid \$1,500 to Hon. H. F. McLeod. This was sufficient and steps were taken for the appointment of a commission."

"The object of this inquiry is not to throw mud but to get to the bottom of the financial affairs of this railway, one of the most important financial matters ever undertaken by the provincial government. Mr. Dugal has charged that the company has been paid at the rate of \$28,000 a mile—\$25,000 in guaranteed bonds and \$3,000 in subsidies—he says that the road will not cost more than this amount; that the company owes the contractors about \$200,000 and that it will take \$600,000 to complete the road. Therefore \$800,000 has been taken out and diverted from its proper purpose and we want to learn what has been done with this money. "The real object of the inquiry is not to cast aspersions upon any person but to inquire into the financial affairs of the company. Mr. Dugal claims that the second grant to the company was not necessary and this he proposes to show. We intend to show that the money has not been put into the road and if we can go further and show where it did go, so much the better. I do not think that we should furnish this information at this stage."

Dr. Wallace supported Mr. Carvell's contention and the chairman announced that the commission would take the matter into consideration and would give their decision at the next meeting. The commission then adjourned until Tuesday, June 16, at 10 o'clock.

THE  
GATLIN  
TREATMENT  
EST. 1900

## For Drink and Drug Habits

For fourteen years Gatlin Institutes have been receiving for treatment cases of "nervous drinking." During the entire time *no man* has ever come to a Gatlin Institute with "alcoholic nerves" and craving for liquor who did not leave with *nerves steady* and without *any* craving or desire for liquor whatever.

Usually but a period of *three days* is required—no one has found it necessary to remain longer than *five days* for liquor treatment.

When the business or professional man has to drink for his "nerves" it is time to think—**TO THINK HARD**

The treatment is purely vegetable, guaranteed harmless, quick in its action, certain and lasting in its results. It is the only scientific treatment administered without the use of hypodermic injections or any other strenuous method. Treatment may be had at any of the Gatlin Institutes established throughout the world, or special treatment will be furnished those who prefer remaining at home.
