

# The Subscription Contest

## Is Open To Everybody

It is very gratifying to see the high character and standing of the candidates who are entering this contest. They are well known in the educational, social and business life of this section.

Don't Neglect Your Opportunity—Subscriptions to the Sentinel Will Win You a Valuable Prize.

A Contest Attractive and Equitable to Every Candidate.

Everything to Gain and Nothing to Lose

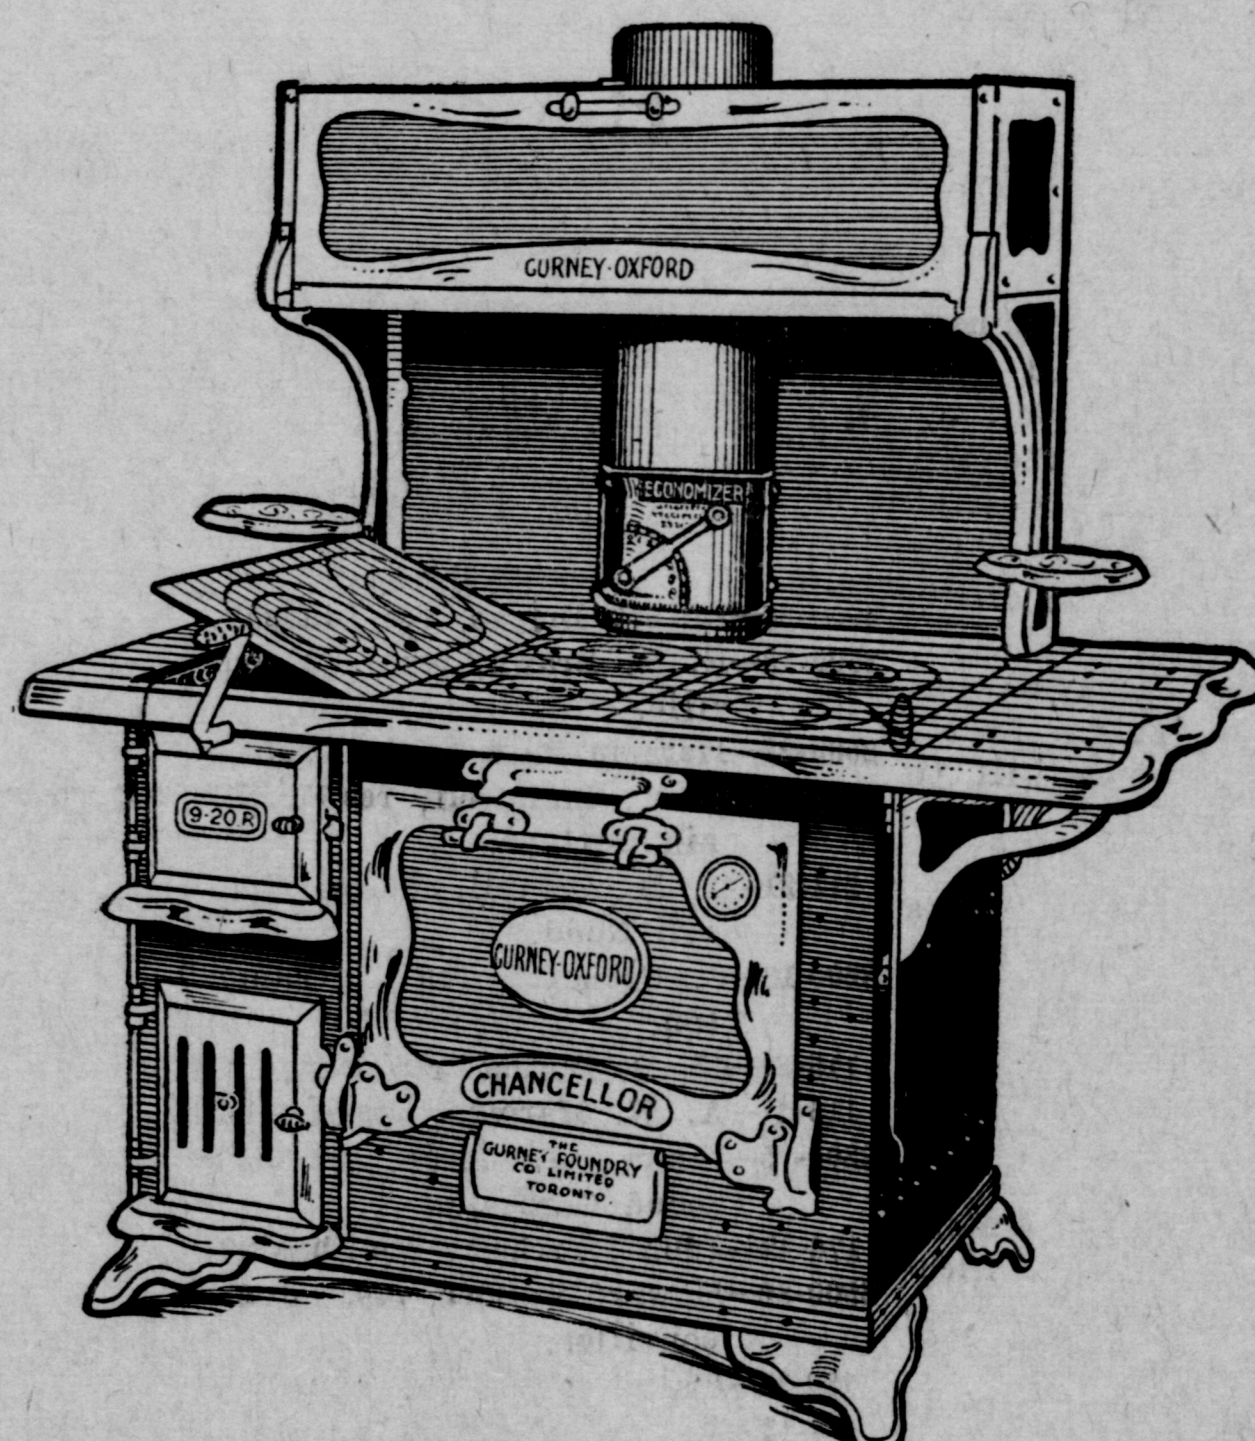

Subscriptions, Arrears, Renewals, Win

### A HANDSOME Amherst Piano

This Beautiful Instrument is the Grand Capital Prize. It will last you a life time, and a few week's work will win it.

### SECOND PRIZE A Gurney-Oxford Range

The most perfect piece of Stove mechanism ever devised. Call at **Fewer Bros' Store** and they will gladly demonstrate the features of this Stove of character. It is a Most Useful Prize.

### The Third Prize A Columbia Disc Grafonola

An Instrument of matchless tone and quality. It produces a class of music with a fidelity that is no less than flawless. It is made of selected quartered oak, is 43 inches high and 20 inches deep—a prize worth striving for.

Now Let Your Energy Loose and Your Honest Efforts Will be Rewarded With One of These Matchless Prizes.

#### Value of Subscriptions

	New Subscription VOTES	Renewal VOTES	Price
ONE YEAR	4,000	2,500	\$1.00
TWO YEARS	5,000	3,000	2.00
THREE YEARS	6,500	4,000	3.00
FOUR YEARS	8,500	6,000	4.00
FIVE YEARS	12,500	8,000	5.00

Get Busy—You Need Not Invest a Cent—Only An Honest Effort To Win a Valuable Prize

## WHAT HAS HAPPENED

### A Concise Outline of the Trend of Events That Have Transpired in the War Zone

Two German spies were tried, convicted, and shot in London last week. The first five months of war cost France \$1,286,000,000.

The election of a new Parliament in South Africa will take place in September.

Spies are suspected of having started fires which destroyed \$200,000 worth of war supplies near Belfast.

Lord Dalmeny, son and heir of Lord Rosebery, has been wounded in the fighting in France.

Newfoundland is contributing three aeroplanes and a number of machine guns to the British service.

Europe's war loans aside from those of Italy, aggregate over 151 billion dollars.

Italian soldiers under 18 years of age are being sent home, to their intense sorrow.

The Opposition in New Zealand has refused to unite in the formation of a Coalition Government in that Commonwealth.

A French engineer, who shot his wife because she praised the Germans and scoffed at the French army, was acquitted by court martial.

Three Bluchers, direct descendants of the Blucher for whom Wellington prayed at Waterloo, have been killed in the war.

A Copenhagen despatch says a million youths between 17 and 18 have lately been added to the German army.

British prisons have been turned into ammunition factories and the inmates of boys' reformatories have been given the privilege of joining the army.

It is claimed that Germany is sending 140,000 war worn and jaded soldiers across to the Western front, presumably for the belated walk to Calais.

The Emden is to be saved. A company has been formed to send a steamer with special machinery to fit out the Emden and bring her to Sydney.

An aeroplane on patrol service over Paris caught fire. The pilot was burned to death and a passenger was terribly hurt in jumping to a roof as the machine was being directed earthwards.

The U.S. have been asked to paint great flags on the boats of that country lest a German sub should get them. In the submarine war instituted by the Huns, the danger seems to lie with the neutral nations.

One man in Prince Edward Island, engaged in the purchase of horses for military purposes, paid farmers \$160

to \$210 for horses which were turned over to the Government at an average of \$227. The war is proving a harvest for conscienceless middlemen. William York, of Brantford, who went down with the Lusitania, before leaving home paid \$2 for an accident policy of \$2,500, with double liability in case of death on boat or train. The company last week paid the widow \$5,000, although it at first claimed exemption owing to the clause referring to death by explosives or war.

A British torpedo boat sank a German destroyer near the coast of Germany on July 16. It is thought to be of the G-196 type, a boat completed in 1911, displacing 689 tons, and with a speed of 32 knots an hour.

It was in the Sea of Marmora, however, where the submarines succeeded in doing the most work. A large steamer of 3,000 tons was blown up off the Mudania pier, along with several small steamers alongside.

A small gunboat was destroyed in the sea, and torpedoes were fired at lighters alongside the arsenal at Constantinople, but the result of the heavy explosion could not be heard. The Zeppelin powder mills were fired at, but the result could not be seen on account of darkness, while the railway cut one mile west of Jara Burnu was bombarded and a troop train blockaded. Three truck loads of ammunition were blown up here.

Back, again, in the Baltic Sea Russians claim that a British submarine sank a large German transport, while the French claim to have accounted for two more in the Sea of Marmora.

#### WANTED—WORKERS IN THE EMPIRE'S GRANARY.

Approximately fifty thousand men will be required this year to harvest the Western crop, which, from present indications, will be the biggest in the country's history.

Now is the chance for every man, more especially those with farming experience that are not at present, and who do not possess carrying arms in defence of their country, to avail themselves of this opportunity to do their share, and at the same time increase their earnings by working a few months at good wages.

Take advantage of the cheap rates and special excursion trains which will be run from St John on August 17th and 24th. St. John to Winnipeg \$12.00.

## LEGAL PROCEEDINGS AGAINST THE ST. JOHN STANDARD

Libel Suit will be Brought by Mr. E. S. Carter—Paper will Apologize or Liquor Hold-up will be Ventilated in Courts—Attorney-General Baxter in the Limelight

St. John, July 31—The Standard, the Tory newspaper of this city, is to be called upon to prove that E. S. Carter was a "public liar."

When he made the statement that the liquor dealers were called upon for contributions when legislation affecting them was under consideration. In other words, Mr. Carter will sue The Standard for libel and the newspaper must either retract and apologize for its remarks upon his veracity or plead that it was justified and thus bring the whole liquor business before the courts. Hon. Mr. Baxter may be smart but he is not half so astute and sagacious as he would have the people think him. It is common knowledge among his intimates that when the attorney general loses his temper he loses his head. A man must keep his temper if he would save his judgment. Baxter, apparently, has never been able to do this—hence his many mistakes. One of his most notable outbursts was his attack upon Police Magistrate Ritchie from his government place in the legislature. Again, when brought to task for his share in the preparation of the foreshores bill he lost his head again. He cannot stand criticism. He hates to be discovered. When the photograph of his \$500 check appeared, those in his vicinity when he saw the reproduction, made a

#### A WORD FOR MOTHERS

It is a grave mistake for mothers to neglect their aches and pains and suffer in silence—this only leads to chronic sickness and often shortens life. If your work is tiring; if your nerves are excitable; if you feel languid, weary or depressed, you should know that Scott's Emulsion overcomes just such conditions. It possesses in concentrated form the very elements to invigorate the blood, strengthen the tissues, nourish the nerves and build strength.

Scott's is strengthening thousands of mothers—and will help you. Try it. Scott & Bowne, Toronto, Ont.

hasty departure. And they were foolish enough to tell about it afterwards.

#### BAXTER AS A WRITER.

Mr. Baxter has always been more or less a newspaper contributor. He is the controlling spirit of The Standard and writes some of its political articles. They say the boys in the office are so familiar with Baxter's style and phrases that they can "spot" his work on sight. His articles do not betray the author because of their literary excellence. His favorite weapon is abuse. He forgets the law of libel frequently because being a lawyer he knows he has cheap law at his command. Just as he is referred to his particular enemy, speaking in the legislature as "that old scoundrel" so The Standard writer refers to E. S. Carter as a "public liar." Hon. Mr. Baxter, attorney general, speaking from his seat in the House, was privileged to say what he liked without any action being taken but the editorial writer in The Standard must either prove or apologize.

What course would Mr. Baxter advise?

#### BAXTER THE BOSS

The liquor dealers paid Mr. Baxter for advice for many years. It is said when he became attorney general he turned over this lucrative job to his legal associate, Mr. Logan, and his friend, Mr. Barry. However true that may be, it is difficult to realize that his old clients could have been held up as it were, under his nose and no protest made to the man who had been acting as their adviser for so long. It is a difficult job to persuade the public that these things can take place and the man who is supposed to be guarding the provincial interests entirely ignorant of what was going on. Mr. Baxter reminds one of the ostrich who, with his nose in the sand, thought his body, feathers and legs were also invisible. Messrs. Lo-

## The Superiority of Tone In Columbia Double-Disc Records

Is due to Patented and Exclusive Columbia Process of Manufacture.

Columbia Records are BUILT-UP. Instead of economizing and using one mixture for the whole record, Columbia records are made in THREE LAYERS, using the cheaper material in the centre only where it doesn't count in the reproduction. The best and most expensive material the world can provide is used on the outer surfaces on which the sound wave or music is engraved.

THAT'S WHY COLUMBIA RECORDS SOUND BETTER and WEAR LONGER—the same difference in value as there is between an ordinary pine and an expensive built-up oak door.

All Columbia records are double, a different selection on each side.

And yet these records cost you less money than any others.

You are not getting the utmost value for your money or the best out of your machine—no matter of what make—unless you use Columbia records.

Of Course, Columbia Records are Made in Canada.

If you have never tried Columbia records, ask to hear the following selections. We will gladly play them and many others for you.

Superb 'Cello Solo by Pablo Casals

A (Traumerei, Schumann) 5679 (Salut D'Amour, Elgar) **1.50**

Two well known Ballads by the famous Taylor, Hackel, Berge Treco.

A (Because (D'Harlelot) 1735 (Mother Machree (Olcott & Ball) **1.00**

Two Novelty (Marimba) Recordings

A (Italian Rhosies, Two Step, 1728 (Senorita, Two Step, **85c**

Two Patriotic Songs

P (Three Cheers for Little Belgium, 39 (Come on, You Boys of London Town) **85c**

There are over a thousand double disc records at 85c.

The Lounsbury Co. Ltd.,  
NEWCASTLE, N. B.

gan and Barry may be quite a sand heap but they can't hide their boss. Mr. G. A. Taylor, Manager of the Royal Bank of Canada, Fredericton, is in town, a guest of Mr. and Mrs. A. D. Holyoke.

A decided economy in fuel consumption is effected by using nickelled steel in

**McClary's Kootenay Range** oven. It attracts and holds the heat far better than most oven materials. See the McClary dealer.

Sold by Burr Hardware Co. Woodstock, N. B. and J. W. Montgomery, Hartland, N. B.
