Germany's Greatest Naval Disaster

A Crushing Sea Defeat—Italy Declares War on Turkey

There is still great life in the Russian Bear. He has dealt a decisive blow to the German navy, sinking one battleship and three cruisers as well as seven torpedo boats. That is the latest word from Petrograd and the notable triumph has been confirmed by the President of the Russian Duma, who also states that already the Russian torpedo boats have sunk over one hundred Turkish boats in the Black Sea.

The Russian naval victory was accomplished in the Gulf of Riga where the German fleet had taken the offensive. The Huns were driven off and victory was acclaimed for our ally's ships.

Another item of interest in war circles is the declaration of war by Italy against Turkey. This move has been looked for for some time but has been at last realized. It is now felt that a portion of the army will be sent to the Dardanelles to assist the British in penetrating that stronghold so that a road may be opened up to Russia.

IS THERE A NEW SUPERINTENDENT OF WATER WORKS?

New Appointee says Don't Want Job—Manipulators of Move All In the Air—Coun. Young Not Present at This Meeting—Pure Water Again Drilled on Island Park—Curfew for Woodstock

The town council was in session Monday evening and dealt with some matters of special importance to the citizens just at this time. Probably explanations will be in order in which the quick-change artists of the town combination will be asked to explain their "broad views" regarding their recent moves for town betterment.

Mayor Sutton was in his place and Coun. Young was the only absentee.

The minutes of the previous meeting were not read, the members not thinking it necessary, although the town clerk volunteered to get the books.

The Mayor stated that the object of the gathering was the appointment of a Supt. of Water Works. Coun. Leighton in presenting the majority report of the committee moved that a contract be entered into with Mr. A. G. Fields for one year according to the tender furnished for \$850 and \$100. additional for streets.

Seconded by Coun. Fewer.

Coun. Flemming—"I object to the town furnishing a man to assist the Supt. in caring for the fire system."

Coun. Leighton—"This is a matter that can be dealt with by the chairman of the fire committee. Sometimes it requires two men."

Supt. Fields was called and explained that necessity of an extra man on certain work. It was impossible to do the work with one man, especially when testing the line.

The council divided on the appointment, Couns. Leighton and Fewer voting for Fields, and Couns. Noddin, Smith and Flemming, against.

Coun. Smith moved that the tender of C. W. Burpee of \$57.50 per month, with additional \$100 for streets, making \$790, be accepted. Seconded by Coun. Noddin.

Coun. Leighton—"I would ask the mover and seconder what work Mr. Burpee proposes doing. His tender does not give any details."

Mayor Sutton—"It will be left with the committee to draw up a proper contract."

The vote stood Flemming, Noddin and Smith for Burpee.

Coun. Leighton—"As chairman of the water committee, I would like to know if Mr. Burpee is prepared to go to work Sept. 1st."

Coun. Smith—"He would not tender if not prepared to enter into a contract."

Coun. Leighton asked that he be given authority to buy a switch for the water department as a cost of \$60. It is very necessary to have it on at once.

Mayor Sutton—"Let this matter lay over till next meeting."

Coun. Leighton—"The last night of the meeting we heard from the doctors of the town on the water conditions, which greatly impressed

all who heard them. The committee now ask for authority to bore what wells are necessary in order to find out if supply is available. It may be only necessary to put down one or two hundred feet. We want the council to agree to prospect for pure water under the direction of Mr. Barbour. If we find two hundred feet of wells sufficient we will then stop. I move that the water committee be authorized to bore what wells are necessary on Connell park. Seconded by Coun. Smith.

Mayor Sutton—"This matter was once decided at a meeting of the full board. I would prefer it lay over until the regular meeting."

Coun. Noddin—"This is not treating this council right, in here. Mr. Barbour's report calls for an expenditure of \$600. I would say that this motion is not in order. Eliminate it down and I will submit. I will feel hurt if this is run through. You must put up a different proposition in here."

Mayor Sutton—"It will be a monument for the men who do it. It is not a business proposition. A few holes is no move towards pure water. This is a matter for the ratepayers. It will not be a wise move. Coun. Leighton—"Mr. Barbour was brought here by this council. He is an expert and as such makes a report asking us to do certain things. As we stand now we have nothing to lay before the ratepayers. If we find pure white water then we will have a proposition to lay before them. You haven't anything now. Show them where you can get pure water and then you can go ahead."

Mayor Sutton—"We already have an expenditure of \$50,000 to lay before the ratepayers. The tax rate was raised and created much unfavorable comment. Your motion don't limit to any amount. I am strictly opposed to any prospecting this year. The motion carried with Smith, Leighton and Fewer voting yea. Noddin and Flemming, nay."

Coun. Leighton gave notice that at the next meeting he would move a bye-law that all girls and boys, 14 years of age and under, be off the streets at nine o'clock.

Coun. Fewer—"I can tell this council that the town will be without a water Supt. after Sept. 1st, as Mr. Burpee will not sign a contract on that date. You are in a position now that something must be done."

Coun. Smith—"I don't see how this can be as we have this man's tender. Council at this point adjourned."

Say Girls: Keep your hands on your heart when you see popular Mr. J. Harold Harriott in "Are You an Elk?" as Mr. Harrison who is in love with Lucy in the play, well, he makes a dandy "lover", don't fail to see him Monday night, Aug. 30th. Hayden-Gibson theatre, Monday, Aug. 30.

Judge Jonah, Sussex, was a recent guest at the Carlisle.

ONLY ELEVEN MORE WORKING DAYS

And the Sentinel Contest Will Be Over—All Leaders Making Big Gains—Who will be Winners?—Tremendous Public Interest Manifest—Next Week is the Final Week—The Big Week—The Week That Spells Victory or Defeat—Now For a Grand Finish

They are going like a whirlwind votes, the voting has been so split and intensely interested friends are up that no one has a commanding watching this contest with as much lead in the race. IN ELEVEN WORKING DAYS THIS CONTEST A steadily increasing success is the WILL BE OVER. WEDNESDAY only manner in which to describe EVENING AT 6 O'CLOCK, SEPT. this Sentinel contest. More votes sth, a committee of judges will be coming in every day and the count the votes and declare the candidates are beginning to find that winners of the valuable prizes. This their friends are quite willing to assist them in the race, and in fact win the special prize of five pounds only too glad to do so.

Miss Coffey, this week, makes a record of 119,000 votes. This is the largest gain yet. And Miss Bar-cord and goes ahead with a vote of 99,000 for the week. Miss Mallory is being received a steadily increasing vote and has this week a magnificent total of 262,300. C. A. McBride is very much in the race showing figures in two weeks work that total over 100,000. Despite the grand total of HARDEST. IT'S UP TO YOU.

Miss Rebecca Barclay	371,500
Miss Ruth Mallory	262,300
Miss Julia Rose Coffey	248,500
C. A. McBride	104,500
Miss Hilda Phillips	39,500
Mrs. Jennie Plummer	29,500
Master John Troy	15,000
Miss Eva Gallagher	15,000
Miss Marion Craig	11,500

ODDFELLOWS HAVE FINE TIME AT ANNUAL PICNIC

WELL KNOWN ENGINEER MEETS FRIGHTFUL DEATH

A Day of Merriment in Spite of Rain—Parade was Feature of the Proceedings

That the Oddfellows are live wires of enthusiasm was demonstrated at Wednesday's picnic, in spite of the fact that the elements did not enter into the harmony of the occasion, for the piece of weather that old Probs hand-out was not at all creditable. The Houlton members of the order, with their friends and a band, composed of excellent musicians, arrived by train. Aside from this means of transportation that modern and popular means of locomotion, the arrivals in this way gave additional zest to the days proceedings. Early in the day some 100 Oddfellows with parasols of various hues, emblematic of the far east lined up behind the Woodstock and Houlton bands and marched from Connell park through the principal streets. Many bursts of applause greeted the merry men as they bravely trudged along in spite of the showers that fell with exasperating regularity, and seemed to delight in hampering the festivities. Returning to the park dinner was served and the menu provided was as varied as it was excellent, and a great tonic for the keen appetites whetted by the "exhilarating" atmosphere.

Finding it impossible to carry on the outdoor program as arranged, the whole party adjourned to the opera house where a delightful time was spent until the time arrived for the departure of the Houlton brethren. It can be truly said that in spite of the disagreeable weather that laughter was king and there was no restraint. "Joy was unconfined". The music by the Houlton band was of a very high order and greatly enjoyed by everyone. The members of the committee worked hard and their work was carried out under many difficulties.

John Keezer, C.P.R. engineer was instantly killed in Hartland yard on Monday morning the village witnessed its most gruesome tragedy, says the Hartland Observer. Mr. Keezer was driver on the mixed train from Aroostook Jct. to Woodstock. When he pulled into the yard he dismounted from the engine to get his pay-check cashed at the bank. The conductor waited a moment and when he emerged from the bank gave him the "high ball" signal to go. This Mr. Keezer passed on to his fireman, who started the train. The ill-fated man climbed the side of a box car intending to walk forward to the engine. It is not known how he fell, but marks along the track showed where he made an agonized effort before finally letting go whatever force he may have had. Death must have been instantaneous when he struck the rail.

At the south end of the yard the fireman, fearing some mishap, stopped the train, and the crew was horrified to find the remains some distance in the rear.

A. R. Foster was the only available officer. Under his instructions the remains were placed on the train and he accompanied them to Woodstock. Upon arrival there Coroner Foster officiated and the jury, after hearing the evidence, found a verdict of accidental death with blame attaching to no one.

Mr. Keezer was about 45 years of age, and leaves his wife and one child. He had railroaded all his life and was considered one of the company's most capable engineers. He is home in Woodstock.

The funeral which was held Wednesday was largely attended, particularly by fellow employees of the railway. The services were conducted by Rev. Samuel Howard and interment was in the Methodist cemetery. The pall bearers were: George Keys, Roy Farnham, Tyler Smith, A. McIntyre, Oliver Vandine and Fred Carson.

John Keezer Instantly Killed at Hartland—Coroner Foster Holds Inquest—Verdict of Accidental Death

When John Keezer, C.P.R. engineer was instantly killed in Hartland yard on Monday morning the village witnessed its most gruesome tragedy, says the Hartland Observer. Mr. Keezer was driver on the mixed train from Aroostook Jct. to Woodstock. When he pulled into the yard he dismounted from the engine to get his pay-check cashed at the bank.
