The Canadian Liberal Monthly, the official organ of the Liberal party, has been reduced in price from \$1 to 25 cents a year. It is published at Ottawa once a month and contains a synopsis of political events, prepared in an attractive manner. No Liberal who desires to keep posted on political events should be without this paper. Subscriptions should be sent to the Liberal Monthly, 63 Sparks street, Ottawa.

Here is a sample of the kind of letters that printers and publishers are getting practically all the time: "Price advance. All prices for printers' rollers are hereby withdrawn. New prices will be made to conform with the market price of glycerine. This commodity having advanced over 200 per cent since September 1, 1915". And lots of other stuff that printers use has advanced too, and generally keeps on advancing, so that the life of the printer who tries to pay his bills is not always one sunny round of pleasure.—Review.

A COMPLAINT

To the Editor of the Sentinel:
The individual who masquerades in the make-up of a night-watch will be in for a busy time with the approach of the Christmas Shopping Season, since he has added to his duties the task of driving people from the shop windows.

Such was my experience last Saturday evening. I don't know whether to ascribe the occurrence to the ignorance of the officer or an attempt on his part to enact the role of an exponent of German Kultur. The storekeepers should feel glad that we have such an intelligent and energetic custodian of the law.

The Police Department would do well to devote less energy to interfering with the rights of peaceful citizens, and more to the drunks around the streets, and enforcement of some by-laws which are being infringed every hour of the day—for instance, speeding over the bridge, poultry running at large, etc.

What about that 9 o'clock by-law? LEX NON SCRIPTA.

FOUR FALLS FACTS

There was a large and representative attendance at the memorial service for Corporal Bruce Johnston on the 28th inst at the church. Rev. J. R. Hopkins delivered an eloquent address on the occasion. There was quite a muster of the L.O.L. present. J. W. Everett raised eleven hundred bushels from white jewel oat seeds and they certainly are the finest oats I have ever seen, both in quality and appearance. Those requiring superior seed had better write Mr. Everett for terms. Fred McQue raised from four bushels of Red Fife wheat, seventy five bushels. Fred is a snug farmer. We think the military officials should inspect outlying stations, as reports say that in some cases the discipline is very lax.

Just received three new styles of Ladies Dress Boots, Military Pattern at Bailey Bros.
