### TOO MANY CHILDREN

are under-size, under-weight with pinched faces and poor blood; they do not complain but appetite lags, they have no ambition and do not progress.

Such children need the rich medicinal nourishment in Scott's Emulsion above everything else; its pure cod liver oil contains nature's own blood-forming, flesh-building fats which quickly show in rosy cheeks, better appetite, firm flesh and sturdy frames.

If your children are languid, tired when rising, catch cold easily or find their studies difficult, give them Scott's Emulsion; it supplies the very food elements that their systems lack.

Scott's Emulsion contains no harmful drugs and is so good for growing children it's a pity to keep it from them.

## COULD NOT STAND ON FEET

**Mrs. Baker So Weak—Could Not Do Her Work—Found Relief In Novel Way.**

Adrian, Mich. — "I suffered terribly with female weakness and backache and got so weak that I could hardly do my work. When I washed my dishes I had to sit down and when I would sweep the floor I would get so weak that I would have to get a drink every few minutes, and before I did my dusting I would have to lie down. I got so poorly that my folks thought I was going into consumption. One day I found a piece of paper blowing around the yard and I picked it up and read it. It said 'Saved from the Grave,' and told what Lydia E. Pinkham's Vegetable Compound has done for women. I showed it to my husband and he said, 'Why don't you try it?' So I did, and after I had taken two bottles I felt better and I said to my husband, 'I don't need any more,' and he said 'You had better take it a little longer anyway.' So I took it for three months and got well and strong." — Mrs. ALONZO E. BAKER, 9 Tecumseh St., Adrian, Mich.

**Not Well Enough to Work.** In these words is hidden the tragedy of many a woman, housekeeper or wage earner who supports herself and is often helping to support a family, on meagre wages. Whether in house, office, factory, shop, store or kitchen, woman should remember that there is one tried and true remedy for the ills to which all women are prone, and that is Lydia E. Pinkham's Vegetable Compound. It promotes that vigor which makes work easy. The Lydia E. Pinkham Medicine Co., Lynn, Mass.

**THAT "PATRIOTIC GIFT"** Thousands of Barrels of Potatoes Stored in St. John—Can J. B. Daggett Find a Market for Them?

(Mail.) The Woodstock Sentinel says:—"How many barrels of potatoes has Mr. B. F. Smith been paid for that did NOT go to England as part of New Brunswick's patriotic gift? Perhaps Mr. J. B. Daggett can furnish this information."

If there are any honest men among Premier Clarke's Legislative supporters they should insist on a thorough investigation of this potato deal. The transaction was handled by Secretary Daggett and Mr. B. F. Smith, promoters of the notorious Canada-West Indies Company. Nobody except Mr. Daggett knows how many potatoes were purchased, and nobody except Mr. Daggett knows how many were delivered in the Old Country. It is known, however, that there are some thousands of barrels belonging to the government stored in a warehouse at St. John, and Secretary Daggett is trying hard to find a market for them. The money paid for the potatoes was charged up as a capital expenditure. Should the surplus stock be sold the proceeds will no doubt be credited to ordinary revenue.

Ask for Minard's and take no other.

### Horse of Another Color

After the general election in 1911 the Montreal Star shed tears over the amount of money that had by both parties been spent for years among the party newspapers. It urged Premier Borden to turn over a new leaf and to stop this advertising and printing graft to the party journals; and, in an unusual fit of piety, said not a cent of such money should ever drop into the Star Treasury. It is now up to this protesting party paper to explain how it comes that the Auditor General's Report for last year shows \$3,674.95 paid the Star for advertising.

## MR. TITUS J. CARTER, M.P.P. AND THAT \$941.85

Easy Money Raked in from Public Treasury—A Joke as Prosecuting Counsel—Cases Like This Cause of Increased Taxation.

(Mail, Editorial.)

The rather surprising information was brought out in Parliament a few days ago by Mr. F. B. Carvell, M. P., that the investigation ordered by the Federal Government into the affairs of the Southampton Railway, cost the country the snug sum of \$5,482.62. The investigation was conducted by Mr. R. A. Pringle, K. C., of Ottawa, and lasted about ten days. What amount Mr. Pringle was paid for his services was not stated but Mr. E. J. Walsh, the engineer who inspected the road, was paid the sum of \$2,029.55. Another engineer named A. J. Milden who assisted in the work received \$840.70. The information was vouchsafed by the Minister of Railways that nothing was paid by the department to Mr. J. K. Pinder, M.P.P., or Mr. David W. Brown, material witnesses. It will be remembered that the case for the prosecution was placed in the hands of that eminent patriot and foe of graft, Mr. Titus J. Carter, M.P.P., and it will shock the public to learn that he charged the government for his services the tidy sum of \$941.85. Some men in Mr. Carter's position would have hesitated before taking up a case in which a brother member of the Legislature was concerned but not so with the great and only Titus. Whatever conscientious scruples he may have had

in regard to the matter were quick-buried, when he saw a good chance to rake in some easy money from the public treasury. He was right on hand when Commissioner Pringle opened his court and perhaps it is scarcely necessary to say that he remained on the job throughout. But as prosecuting counsel he was a joke pure and simple. He made no effort to inform himself as to the details of the case, and did not seem to care whether school kept or not. As a matter of fact had the case for the government depended upon the activities and legal acumen of Mr. Titus J. Carter, K.C. Mr. Pinder and his associates would have won out in the first round. Fortunately for the government Commissioner Pringle before going into court had armed himself with a copy of the record in the case of Stewart vs. The Southampton Railway tried a few months before and with the aid of this he was able to bring out the salient facts. So far as Mr. Carter was concerned he was more of a hindrance than a help. Had not Commissioner Pringle taken the witnesses out of his hands and personally examined them very little information would have been forthcoming as to the cost of the railway. So the report of the Commissioner was really based on the labors of Mr. F. B. Carvell, M. P., counsel for Mr. Stewart in the civil case, whose services cost the country nothing, and not on those of Mr. Carter. And yet the latter had the colossal nerve to charge the government the sum of \$941.85 for his alleged services. Is it any wonder that a government which has thrown money away in this fashion should now find it necessary to increase the taxation on the necessities of life in order to make ends meet.
