

## Corns Are Out-of-Date

They Indicate Methods Which Are Obsolete Now

Falls who have corns are following the old-time treatment—ways not up-to-date.

Most folks don't keep corns now. When one appears they apply a Blue-jay plaster. The pain stops instantly. In 48 hours the corn disappears forever.

A famous chemist found this way to end corns without pain or soreness. Now millions use it. Fully half the corns that grow are ended as soon as they appear.

There is no excuse for corns. You can't prevent them, maybe, but you can remove them quickly. There will be no lasting corns on any foot when all folks know of Blue-jay.

## TWO LADIES PASS AS DRUGGISTS

Highly Complimented by Examiners

In the list of successful candidates at the pharmaceutical examinations held in St. John last week, are the names of the Reverend Sisters Martin and Malouhney, members of the nursing staff of the Hotel Dieu Hospital, Chatham.

Both these Reverend Sisters are now regularly licensed Pharmacists—the first ladies, it is believed, to obtain this diploma from the N. B. A. McKim Limited report the usual

Pharmaceutical Society.

That the examiners were highly pleased with the work of Sisters Martin and Malouhney is shown by the following congratulatory message received:

"The examiners wish to express their congratulations to you both on the neatness of your work, the thoroughness of your knowledge, the application you must have given to the studies, and the familiarity which you have shown all through with methods, etc., shows you are well up in your work and in experience. It was a pleasure to correct the papers. We have never received such neat work. Both passed with good papers."

## 1915 Edition of McKim's "Canadian Newspaper Directory" Now Issued

It is now nearly a quarter of a century since Mr. A. McKim, who established the first independent Advertising Agency in this country, completed the rather ambitious task of publishing the first Directory of Canadian publications. The nine successive editions of this valuable work provide the most complete and detailed record available of the growth of Canadian periodicals.

The 1915 Edition, of which we have just received a copy, shows that the great war has not seriously affected the newspapers of Canada. While the birth-rate of new publications has received a check, and the death-rate of the weak ones has perhaps increased a trifle, most of the leading papers, particularly the dailies, show very healthy increases in circulation. Three metropolitan dailies have reached or passed the hundred thousand mark.

A census of the papers listed and described in the 1915 Directory shows nearly 150 Dailies, 7 tri-Weeklies, 45 semi-Weeklies, over 1000 Weeklies, about 40 bi-Weeklies or semi-Monthlies, 250 Monthlies, 3 bi-Monthlies and 18 Quarterlies—a total of over 1575 publications.

This means approximately one Daily to every 10,000 families, and one Weekly to every 1,500 families. From this one would infer that for a comparatively new country, Canada is well-read.

A. McKim Limited report the usual

## VIOLENT ATTACKS OF DYSPESIA

Suffered Tortures Until She Tried "Fruit-a-tives"

St. JEAN DE MATHA, Jan. 27th, 1914.  
"After suffering for a long time with Dyspepsia, I have been made well by 'Fruit-a-tives.' I suffered so much that at last I would not dare to eat for I was afraid of dying. Five years ago, I received samples of 'Fruit-a-tives' and after taking them I felt relief. Then I sent for three boxes and I kept improving until I was well. I quickly regained my lost weight—and now I eat, sleep and digest well—in a word, I am fully recovered. Thanks to 'Fruit-a-tives.'  
MRS. CHARBONNEAU.  
Box, a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid on receipt of money by Fruit-a-tives Limited, Ottawa.

keen demand for the Canadian Newspaper Directory, which sells at \$2.00. Its red-headed, gold-stamped green cover has become a familiar sight on the desks of advertisers, publishers and business men everywhere who are interested in Canada.

## MAKE BIG CUTS IN AUTO PRICES

Price Goes Down—Many Manufacturers Cut as Much as Thirty Per Cent From Sale Price.

Boston, June 23—An economic revolution seems to be starting in the automobile industry. Just at a time when sales of the larger companies were attaining record figures, and when net profits were sensationally large, an era of price cutting has developed. The automobile people explain the phenomenon by the statement that "quantity production" is their aim and ambition.

The Wiley-Overland cuts its price 30 per cent or from \$1075 to \$750 and plans on an increase of 75 per cent in output, to a total of 100,000 cars.

## For Sale!

FARM of 100 ACRES—about 95 acres under cultivation, balance woodland. A fine house in excellent condition, recently remodelled. A potato cellar, with storage capacity of 1400 barrels, so situated that team can back in to load; three barns in splendid condition; large machinery store house, built last spring; good granary and workshop; purest spring water in the house, and good well at barn; a fine orchard of over 100 trees.

This desirable farm is situated at Woodlawn, Richmond, Carleton County, within 4 miles of railway, convenient to churches and schools. The farm runs up to the Maine boundary. Large general store within 20 rods of house.

I also offer for sale my farm in Watson Settlement, containing 255 acres, with 100 acres cleared, balance well wooded. Two large barns, shed, granary and wagon house on this property, also dwelling house.

Will sell with stock and farm machinery if desired. I am disposing of these fine farms owing to ill health, and will sell at a reasonable price.

For terms and full particulars apply to

ALEX. BELL,  
Woodlawn, Carleton Co.

The Buick company cuts its prices 25 per cent or from \$1250 to \$985 and plans on a 50 per cent increase in production to 60,000 cars, and may go even higher. The Hudson company follows suit.

Now comes the Packard, long regarded as one of the standard makes of highest priced cars. It startled the automobile public by announcing the first new 12 cylinder car a few weeks ago, and has followed this by the even more sensational development of a price of \$1950 for its high powered car and \$2600 for the lower powered car, a cut in each instance of \$900 from the 1915 six cylinder car a reduction of 25 and 35 p.c.

Considering the fact that the Packard company has shown in its annual statements profits but \$350 or \$400 per car this cut of \$900 per car appears somewhat difficult to reconcile with the maintenance of normal net earning power. The answer doubtless is in part that the company like some of the others, is planning on quantity production. The Packard put company in its biggest year, 1911, made and sold 4000 pleasure cars. significant fact that the maker of
