INSTEAD OF PAINT

DON'T paint your pretty home this sea-
son, but use instead Velux Creosote
Shingle Stains. By so doing, you can
bring out all the beauty of the wood.
And think of the preservative value
Velux Shingle Stains contain. Creosote,
the greatest wood preservative known.
This means prolonged protection
against wind and weather. It therefore
means economy.

Velux
Creosote Shingle Stains
Half the Cost — Twice the Wear
Velux Creosote Shingle Stains coat
about half as much as paint. And they
wear much better because they penetrate
the wood. They do not evaporate or dry
out and of course they cannot peel off.
These stains come in any color you want.
They are very easily applied. You ought
to investigate them. We have the complete
line and we know you will like them.
Write us for a sample of wood stained with
Velux Creosote Shingle Stain.

Does Total Abstinence Pay?

During the past thirty years, The
Manufacturers Life Insurance Company has
maintained two separate Departments
known as the Abstainers' Section and the
General Section, thereby classifying Total
Abstainers and Non-Abstainers.

The result has been that the Abstainer
has shown himself a much superior risk to
the Non-Abstainer, and our statistics in this
regard are considered the most authentic of
their kind on the continent.

Appreciating the superiority of the
Abstainer as a Life Insurance risk, we give
those eligible for insurance in this class the
benefit of special plans and rates. Our
statistics prove they are deserving of them.
Why not ascertain what we have to offer
before placing your insurance?

Upon receipt of your name and ad-
dress, we shall be pleased to send you our
little booklet "Total Abstainers vs. Moderate
Drinkers." Insurance issued to women on
these special plans as well as to men.
