

LOCAL AND GENERAL

The death of Benjamin F. Clarke of Dorchester, Mass., formerly a well known citizen of Woodstock, took place recently.

Social in aid of the Red Cross was held on Tuesday evening, Jan. 18th, at Lindsay. The sum of \$25.75 was realized for Red Cross purposes.

Chatham World:—Hurrah for Northumberland! She is the banner county of New Brunswick. Her council has placed her far in the lead. The elected representatives of the people, in council assembled, have voted \$30,000 to the Patriotic Fund. We can now sing loyal and patriotic songs without a blush. All of us who are not fighting are paying.

Thomas Glew, who for many years has been baggage master on Houlton branch of the Canadian Pacific, has been superannuated. Mr. Glew has been in the employ of the Canadian Pacific, serving in different capacities for nearly 50 years. Mr. Glew has many friends who will regret that he has left the road but wish him many years of happiness at his home in Woodstock where he now resides.—Pioneer.

Glenn, the 13-year-old son of Mrs. Minnie Adney, the Woodstock music teacher and principal of the Woodstock School of Music, is one of the best pianists of his age to be found in the Maritime Provinces or New England. His work on the piano is simply marvelous, speaking volumes for the teaching he has received from Mrs. Adney. It is surely worth the while of any music-lover to hear this young man perform upon the piano, either alone or in company with his mother.—Fort Fairfield Review.

Hazel Dawn, the most beautiful star of the Famous Players, will be the attraction Friday, Jan. 28th at the Bijou. This captivating actress will appear in "The Heart of Jennifer." In this story Miss Dawn exerts a power over the audience that keeps interest from the first scene to the last flash of the picture. Elsie Janis will be the bright particular star at this popular house, Monday, Jan. 31st in "Nearly a Lady." Don't miss these superb screen attractions.

Belcher's Farmers' Almanac for 1916, issued by Royal Print & Litho, Ltd., Halifax, Canada, is here again with its usual wealth of information. It contains the important items of the calendar and the five eclipses of the year—the fullest information of tidal movements at various points in the Maritime Provinces, and the latest additions and changes pertaining to the lighthouse service along the different coast lines. The fact that this publication has been issued continuously for 93 years should be proof of its usefulness.

At a meeting of the Valley railway directors in Fredericton Thursday night, it is announced, a settlement was reached to satisfy the long standing claim of Kennedy & McDonald, contractors. It is said that the figure is \$67,000. No settlement was arrived at with the Hibbard Company. One of the difficulties said to be is that there are some time checks outstanding and that the company repudiated these and the government has not seen its way clear to pay them. The Hibbard Company are asking that they be paid the five per cent. withheld on their contract.

Being interested in fertilizer and our general potato crop being short, the farmer was inclined to think that the companies were not keeping their goods up to the guarantee. Mr. S. M. Boyer of Hartland, N.B., sent some samples of Lowell Kent Co. goods, Windsor, N.S., for analysis. This is what the goods tested. He bought these goods for a 4 ammonia, 8 phosphoric acid, 4 potash. The report of the department at Ottawa, under date Jan. 10, 1916, shows an overplus of ammonia of .37, and phosphoric acid of .57, and potash of .62. Mr. M. DeWitt is the local representative of the company.

Soft Smooth Skin

Seems odd to talk about smooth skin when this weather has been spoiling everybody's hands, making them rough and unsightly.

But we have helped a lot of people to keep their hands smooth, well and comfortable, no matter how badly they were chapped before.

It only takes a few words to tell you the secret—it's

Penslar

Almond and Cucumber Cream

and, our word for it, this is the finest, daintiest application for the hands and skin that is in our big stock of toilet things. Two sizes, 25 and 50 cents.

If you knew as much about Penslar as we do you would expect this to be the best thing of the kind—as it is. For Penslar means Highest Quality every time you see it.

WOODSTOCK, - N. B.

A young Woodstock soldier, under date Jan. 11th, writing from Liphook, Eng., says in part:

"We have been in England just two months and two days and expect to make a move pretty soon. As far as efficiency is concerned the 55th is as good as any in the camp."

Bob Moores was here in leave, right from the trenches, and he looks great. He reports all quiet there now but looks for big drive about last of March. They need a new brigade to fill up the 3rd Division and he thinks we will be one of the regiments to go and I hope we will be. Our Battalion is duty Battalion this week and you can bet I am glad I am in the Signallers.

But after this week I am going back to the boys as "wigwagging" in the trenches does not appeal to me. You know my idea of a soldier was one with a musket over his shoulder so I guess I will stick to that, though I will admit that forming fours gets a bit tiresome when you have been at it eight months. . . . I figure on a trip to Ireland if possible before we leave England."
