SOLE AGENT FOR
SEMI-READY CLOTHING

Mrs. William Gibson of Fredericton is the guest of Mrs. A. G. Bailey

A meeting of the creditors of A. C. Smith & Co., was held last week when the debtor made an offer of 25 cents on the dollar. This was, however, declined, and the creditors made a suggestion in the form of a counters offer and it is understood that this is now being considered by Mr. Smith.

3400 r. p. m. Chalmers Means Gallant Going Over All Kinds of Roads

The swift, silent breathing of the unique engine of the new 3400 r. p. m. Chalmers is faster than that of any other car on the road.

Without gasp or throb, this weird, aluminum-lunged beast inhales a mist of gasoline through the tiny nostril in its carburetor so rapidly that it can spin its motor at the supreme velocity of 3400 revolutions per minute.

High engine speed in a racer means just one thing—track-burning car speed.

But the high-speed engine of the 3400 r. p. m. Chalmers means automobile attributes not measured in mere speed alone.

It means the whole gamut of performance most desired by men and women who demand more from a car than a beltful of racing records.

Chalmers engineers have translated superlative engine speed into the composite boon of pick-up, poise, and power.

The versatility of this vehicle has won it the vigorous O. K. of every person I know for whom it has performed.

The 3400 r. p. m. Chalmers does everything a car should do. It wrings 23 miles of gallant going out of every gallon of gas, a mile a minute if you're keen for speed.

Always there is the feeling of velour beneath my accelerator foot.

This car has the liveliness of a spirited mare, with a Pullman-like stability that keeps your back-seat passengers from rattling around like peas in a pod, which happens in so many other light, fast cars.

This able Six is heavy enough and so finely poised that its four wheels stay always on the ground, with direction as straight as a bullet.

By transforming this car's superabundance of brute might into all-round performance, Chalmers engineering has saved you from \$150 to \$200 worth of fuel per year.

So it's a sane and sensible buy from every slant—and the smart ones whose sense of values hasn't been blunted by prosperity are dropping around with their check-books.

Touring Car or Roadster, \$1475

Three-Passenger Cabriolet, \$1900

Colors: Meteor Blue, or Orford Maroon with gold stripe. Cabriolet furnished also in Valentine Green.
