

# GREAT VICTORY WON-BRITISH SMASH HINDENBURG LINE

## Hon. F. B. Carvell Limits.

(Continued from page One.)

that proposition not that he had any doubts about his right to vote for the bill itself. He told his leader that so far as voting for conscription was concerned he would do so. What did bother him was the proposition for a referendum. That bothered him for a month. He tried to convince himself it was the proper thing to do. Every time he came back to the question: suppose a referendum should be defeated? Suppose the people of Canada voted against some form of military service, where were we to get men and if we didn't get the men where was Canada to be in the eyes of the world? Worse than that, suppose we lost the war and went down to defeat, he, as one of the two hundred men who had a right to vote upon this matter had voted against Canada doing all she could, where would he be?

He had no hesitation. It did not bother him very much longer and once he had made up his mind he voted against the referendum and the conscription bill. He had no doubt whatever that they would give him the endorsement to which he was entitled.

Mr. Carvell went on to say: "I want to say to my Liberal and Conservative friends here if anybody thinks it is a pleasant thing for a man who has been as long as I have allied to one party and taken as active a part as I have, and I say it without egotism, climbed as near to the top as I have, if anybody thinks it is an easy thing to break away from the associations of a lifetime, he is wrong. It is a hard thing for me to break away from them. However, I am not going to break away from very many of them because most of them are going to follow me."

### QUESTION OF PRINCIPLE.

Mr. Carvell referred feelingly to Sir Wilfrid Laurier who had been his leader for thirty years and said that he gave him credit for honesty and he wanted Sir Wilfrid to give him credit for the same. They had differed simply on a question of principle. He could not bring himself to vote against what he considered was necessary for the good of the country. Mr. Carvell then related the negotiations leading up to the formation of the union government. That he refused to enter the union government at first, because he thought that when the law was passed his leader would say that it was the law of the land and must be obeyed but he found that the Liberal leader would not go on and enforce conscription and he would not follow him unless he did enforce it. On that rock they split.

The Liberal-Unionists could not agree that after the elections were

over and the Liberal party had come into power and there were twenty-five thousand men in uniform those men would be sent home or tied up until a referendum while thousands of our men were being slaughtered on the other side.

"The government that has gone out asking for your suffrages is neither Conservative nor Liberal, but composed of both banded together for the sole and only object of doing the best they can for Canada, carrying Canada through these troublous times and for a reasonable time for demobilization.

"Then our contract ceases—I have not been asked to give up one principle which I have held dear during my lifetime."

"Neither have the Conservatives who joined that government been asked to give up one principle. We have only the one object in view of seeing that Canada goes forward and does all possible until this war is over."

Mr. Carvell then reviewed the present war conditions and pointed out the extreme gravity of the situation.

### IF GERMANS SHOULD WIN

Mr. Carvell then described what would happen in Canada if the Germans should win the war. People might say that it was impossible that the Germans should ever get to Canada, but who would have said a year ago that Russia would collapse or who would have thought a month ago that the Germans would have been in northern Italy?

"IT IS VERY WELL TO SAY THAT WHEN THE GERMANS COME TO CANADA WE WILL FIGHT, BUT THE ONLY PLACE TO DEFEND CANADA IS IN FRANCE AND FLANDERS AND THE ONLY WAY TO DEFEND IT IS BY SENDING MEN THERE. THERE IS NO ARMY LIKE THAT OF CANADA THAT HAS DONE WHAT THE CANADIANS HAVE DONE WHEN THERE IS A HARD PLACE TO BE TAKEN THE OTHER TROOPS ARE WITHDRAWN AND THE CANADIANS ARE SENT IN TO TAKE IT AND THE FRENCH-CANADIANS ARE AS GOOD AS ANY."

"The issue boils it all down to one simple little question: Are you willing that Canada shall stand up to the end or are you going to quit like Russia has quit? You are either going to send men to take the Canadians at the front or you are not that is all there is to it. Why, when you read the papers, when these horrible telegrams come, when you realize the brave men who have been the supreme sacrifice, when you realize the other men who have been wounded and maimed, men in hospitals, going through almost unthinkable agony, when you realize what these men have done and more are going to get it and the army is going to be gradually reduced and reduced and reduced."

"It all comes down to the question: Are you going to let these men die in vain or are you going to rise like true Britons and send men to help them?"

"That is what this election means. We say we are going to send men, the leader of the opposition says he is going to have a referendum, and I want to tell you that you couldn't possibly work out a referendum and have men on the firing line by Christmas of 1918."

## Your Automobile Wants

Every car should have a thorough overhauling during the winter months. It is only fair to the car, and means a saving of dollars in its operation the following season. As a rule the car that does not get a thorough overhauling once a year has to make frequent visits to the garage during the summer months for repairs. This is not only inconvenient and annoying to the owner but costs more in the end than if it had been thoroughly gone over during the idle winter months. With the new addition to our garage we are exceptionally well equipped for winter work. Let us give you an estimate on the cost of putting your car in first-class condition.

## Vulcanizing

We have just added a large vulcanizing equipment to our plant, and are now in a position to save money for you on your tire problem. Many tires are thrown away every year that might still be made to do several hundred miles of useful service. Send or bring your tires to us and let us give you an estimate on the cost of repairing them.

## Storage Battery Service

Your storage battery needs careful attention during the winter months. We are prepared to look after it for you. If it needs repairs we will attend to it. We are fitting up a large storage battery room in our new addition, and this department will be in charge of a thoroughly competent man. We are the sole distributors for Carleton, Victoria and Madawaska Counties of the Ever-Ready Storage Batteries.

## OBITUARY

DENNIS McGAFFIGAN.

Dennis McGaffigan, St. John, died at an early hour on Friday morning. A native of Chatham, County Galway, Ireland, Mr. McGaffigan came to America when quite young. When civil war broke out in the United States he went to the front with the northern forces, and served for some time. In 1864 he came to New Brunswick and settled at Florenceville, Carleton county, where he became established in business, and remained until 1913. He was one of the leading general storekeepers in the county, was very successful, and stood in the highest repute. He retired in the spring of 1916, and moved to St. John. He is survived by two daughters at home—Misses Kate and Mary.

The funeral took place on Sunday afternoon and was largely attended. The remains were taken to Holy Trinity Church, where the service was conducted by Very Rev. Mgr. J. J. Walsh, V. G., after which interment was made in the new Catholic cemetery. A large number of floral tributes and mass cards were received.
