## FOR THE FREEDOM OF THE WORLD

THE most brilliant, spine thrilling patriotic drama ever made into a motion picture—a picture to challenge the pride and the conscience of all humanity.

Thousands of men organizing and drilling to fight the battle of civilization. Thousands of men marching away to the front and into the jaws of death.

Before your very eyes nations banding together in a blood brotherhood against a common enemy.

Heroes and cowards transformed into supermen of gigantic courage walking and scurrying into a living hell of shells and fumes to bring in the wounded from artillery raged plains.

Women showing their bravery in the home and at the camp; women living through the inferno of battle to nurse and stimulate their men to victory; women risking certain death to be near the men they love. And the arrival of the Stars and Stripes on the battle front in France in a climax that brings audiences up to their feet with cheers.

These are the exciting scenes you see in Edwin Power Hesser's inspiring photo-panorama, "FOR THE FREEDOM OF THE WORLD."

Throughout its eight remarkable reels you hear the tread of thundering feet marching along the Roads to Glory in defense of their blood brothers' honor and the rights of civilization.

Createst Patriotic Drama Ever Screened

## CORRESPONDENT PUTS IT UP SQUARELY TO TOWN FATHERS

Claims Useless Expenditure of Money—Suggest Reduction in Police Force—Will Council Take Action?

Editor of Sentinel:

A new Council is organizing to conduct the town affairs for the coming year. The members are all experienced in town business and generally regarded as sound business men and the citizens naturally expect them to give a good account of themselves. It is a time of economy in every province, city, town and village in Canada and it is not necessary to go into any details as to why this feature is so prominent, but it is necessary to call the attention of the new board to one item of unnecessary expense in the Town of Woodstock. It is the POLICE FORCE. We are paying two men approximately \$1500 a year to guard the town. Will any citizen make the statement, in good faith, that the service is worth the expenditure of this amount? The time has arrived to cut out the sentimental gush that surrounds this part of the machinery, and get down to real facts. Is a day policeman needed at the present time? What special crisis is there that demands this service? A night officer (a real one) is undoubtedly required if only for fire purposes. He goes on duty at 3 p. m. and remains there until 7 a. m. when he goes home to get needed sleep and rest. This officer can be called during the day if he is required and thus the work is done for one half the amount paid. Now, it's up to this Council to consider saving \$750 a year on this item alone. Has the council the pluck to stand up or will the same old pull be in evidence? Here are facts that cannot be denied and the citizens will watch the moves with interest. Gentlemen of the Council it's up to you.

TRUE ECONOMY.

## THE NEW TOWN COUNCIL

Three New Men At Board—Mayor Appoints Committees.

The new Town Council met for organization Monday evening.

The board this year:

MAYOR  
H. E. BURTT.  
ONE YEAR COUNCILLORS  
H. T. STEVENS  
J. S. LEIGHTON  
JOSEPH FEWER.  
TWO YEAR COUNCILLORS  
W. M. SMITH  
J. W. GALLAGHER  
J. R. BROWN.

Couns. Gallagher and Brown are the new men and Coun. Smith were elected by acclamation.

The following committees were appointed by Mayor Burtt.

Finance and Audit—Leighton, Smith, Stevens  
Streets—Gallagher, Brown, Fewer.  
Water—Smith, Leighton, Fewer.  
Poor—Brown, Gallagher, Stevens.  
Fire—Stevens, Brown, Gallagher.  
Police, Scales, Town Hall, Sewers—Fewer, Smith, Leighton.  
(The first named in each department is chairman.)

## DEATH OF MR. JUSTICE MADIGAN

One of the ablest and most prominent men in public life in the State of Maine passed away on Saturday evening, when Mr. Justice J. B. Madigan died at his home in Houlton. Mr. Justice Madigan, who was between 50 and 60 years of age, had been on the bench for several years, and previously had been active as a legislator. For a short time he was a member of the St. John river commission. A man of the highest character, his death will be a severe loss to Houlton, to Aroostook and to Maine. Mr. Justice Madigan is survived by his wife, one daughter and one son, as well as four sisters—Mrs. Cunningham, Boston; Mrs. Jas. V. Doherty, Springfield, Mass.; and two Religious of the Sacred Heart.

Maard's Lament Cures Diphtheria.

## DR. KEIRSTEAD ADDRESSES COUNTY COUNCIL

Strongly Urges Increased Production of Wheat—Farmers Asked to Assist Department of Agriculture in Distribution of Seed Wheat—The Department Buys Grain and Delivers to County Councils.

Mr. T. W. Caldwell and Dr. Keirstead appeared before the Council on behalf of the Department of Agriculture and the Provincial Committee on Food Resources, and asked it to co-operate with the Agricultural Department in a campaign for greater production of foods especially of wheat, and in the distributing and financing of seed wheat and of other seed grains.

Dr. Keirstead in addressing the Council spoke in part as follows: "The war situation has practically come down to this: Can we hold our western front and resist the intrigues of the German war lords until the United States is prepared and our armies are re-inforced by their forces? That depends very largely upon our food supplies. There is today almost a famine in fats and meats. The live stock of the world has been diminished by over 115,000,000. In addition to the natural increase Europe has killed off its hogs to the extent of more than 33,000,000. The production of fats in France last year was less than 40 per cent of our year's. Our allies have also practically a sugar famine, as the normal sources of supplies have been cut off from them by the war.

This is a world shortage of wheat. The aggregate wheat harvests of the world have been year by year falling behind the demands of the population and this year are smaller than ever. The wheat crop of France this year was only 45 per cent of her pre-war yield. Italy is hungry for bread. The wheat shortage among our allies is far more acute than the general world shortage owing to lack of tonnage, which limits importation to

(Continued on page eight.)

## THIRD ANNUAL CONVENTION NEW BRUNSWICK POTATO GROWERS' CONVENTION

Large Number In Attendance—Distinguished Agriculturists Heard—Hon. J. F. Tweeddale Talks to Convention—No Price on Potatoes Fixed by Food Controller.

The third annual convention of the New Brunswick Potato Growers' Association was held Wednesday and Thursday in the Vocational School building and was attended by a large number of farmers. The exhibit of potatoes attracted much attention and indicates that potato growing is still the leading industry among the farmers. The first session Wednesday morning was devoted to hearing reports of officers, appointment of committees and other routine business. T. W. Caldwell, the president, was in the chair at the afternoon meeting at which several very interesting speeches were made.

Mr. A. A. H. Margison, of Centreville, gave an instructive address on "The Cultivation of the Potato Crop." He strongly advocated ploughing early in the fall to a depth of 8 or 9 inches. In the spring use a good disc harrow loaded with a heavy man and then go out with a spring tooth harrow until a perfect seed bed is made, and the ground cleared of all grass roots. He advocated shallow planting for early potatoes if planting is deep and rain comes the sun will not warm the earth sufficiently.

A very able address was delivered by Mr. J. A. Clark on "The Relation of the Live Stock Industry to the Potato Industry." (His address will appear in next week's issue.) In answer to a question Mr. Clark said there were one and a half million bushels of potatoes on P. E. I. at present over and above the local consumption.

Against the farmers. I can say no

## GORDON COGGER AWARDED THE MILITARY MEDAL

Gets Message Through Under Heavy Fire.

Another Woodstock boy has distinguished himself in the world war and his great work under most critical conditions has been recognized and he is now the proud possessor of the Military Medal. In a letter from Gordon Cogger to his mother, he writes in part:

"I suppose you will be surprised to hear that I have been awarded the Military Medal for conspicuous bravery and devotion to duty in the scrap at Passchendaele, Belgium. Was quite surprised when I saw it on Farnham orders, as I do not deserve it as much as the men who are in the front line and who are continually under heavy shell fire and have no shelter to go under. Whereas

GORDON COGGER.

I when I have to go out, can beat it out and trust to luck to get there and get my job done and then beat it back to safety.

The O. C. was tickled to think of the way I got his messages through on the lamp and when the lamp failed delivered them myself. But anyway now we are out on our month's rest and am having a fairly decent time and the weather is pretty cold and about a foot of snow on the ground."

## STORY TELLING HOUR

The management of the L. P. Fisher Public Library are arranging for a story telling hour for the children at the Library on Saturday afternoons during the winter.

This form of entertainment has proved very popular in other public libraries and it is expected that enough talented story tellers will be found in this district to provide an excellent programme.

Children of all ages will welcome. The first of a series of stories will be given on Saturday, January 26th inst., at 4.45 p.m. by Mrs. W. Garland Foster.

ler and none will be fixed.

G. E. Saunders in his address on price has been fixed by the Controller "Control of Insects Injurious to Potatoes" gave some very valuable information.

The following resolution was moved and passed unanimously:

"Whereas at the present time there is a steady desire on the part of farmers to market their potatoes, and shippers have orders on hand which would enable them to move out stock quite freely; and whereas shippers have found it impossible during the past ten days to get more than one tenth of the number of cars required and whereas, it is important to both the consumer and the producer that the crop should be moved without delay—therefore, Resolved, That this Association ask that the strongest possible action be taken by the Food Controller to secure the necessary cars, and provide an officer who shall have charge of the transportation of New Brunswick potatoes, and

Further Resolved that a copy of this resolution be wired by the Secretary to the Food Controller."
