**TAKES OFF DANDRUFF,
HAIR STOPS FALLING**
Save your Hair! Get a small bottle of Danderine right now—Also stops itching scalp.
Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.
Get a small bottle of Knowlton's Danderine from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Danderine. Save your hair! Try it!

How Canada's Greatest Shoe House Supplies the Nation's Footwear

CONSIDER the amount of time and the infinite care you take when buying footwear to suit your own taste in regard to style, size, etc. Multiply your own individual needs by millions and you will get an idea of the immense task which confronts the makers of Canada's footwear, and the size of the organization it is necessary to maintain for that purpose.

The buying of a single pair of shoes is an event that occupies a person but a few moments two or three times a year—but to meet the accumulated demand of a nation's individuals, it requires the whole resources of a gigantic industry. Ames Holden McCready are truly "Shoemakers to the Nation." It is a title justified by their size and the importance of their business.

It may be a revelation to many Canadians to know that to supply them with proper footwear, this firm maintains huge factories each with many acres of floor space, and hundreds of intricate, almost human, machines—facilities and equipment sufficient to turn out 8,000 pairs of shoes every working day.

It requires a small army of work-people, clerks and warehousemen, in addition to executives, buyers and travellers.

It requires much study and thought to plan styles and models of Men's, Women's and Children's shoes in their various grades and styles.

In order to secure the best results in the production of various kinds and grades, it is also necessary to specialize.

For example: Ames Holden McCready factories are separated into three distinct factory units, each a complete factory in itself.

One unit of our factories is devoted entirely to the manufacture of high grade footwear for Women and Children. Consider the great variety of styles in women's footwear, including high-top boots, oxfords and pumps.

Consider the many different patterns and lasts, the varieties and shades of leather and finish—then you will see what a great number of models are required to meet the widely different needs of Canadian women in the cities and towns and also in the country districts.

Another factory unit is devoted to making only the better grades and styles of Men's Shoes—shoes for professional men, lawyers, doctors, and all business men, whose occupations permit the use of fine leathers such as calf and kid.

The third unit specializes in sturdier types of shoes for heavy wear and rough usage. Shoes for farmers, lumbermen, miners, trainmen, and workpeople who require a heavier and more solidly-constructed boot.

In addition to the work of manufacture—the requirements of distribution are also tremendous. A manufacturer must not only make his goods economically and well—but he must deliver them—DISTRIBUTE them. Therefore, in addition to a force of 60 travellers constantly visiting the retail trade from coast to coast, Ames Holden McCready maintain, in the centres of population throughout Canada, immense stocks of boots and shoes ready for immediate shipment to the retailers in each section.

These warehouses are located in the following cities:
St. John Toronto Montreal
Winnipeg Edmonton Vancouver

Years of experience has taught us the kind and styles of boots which are required in each locality. No matter in what part of Canada you reside, no matter what particular kind of shoe you require, your retail dealer can procure it for you without loss of time.

And that is the reason why you will find, even in the outlying districts, that dealers selling Ames Holden McCready goods are up-to-date with stocks that are fresh and new, and which reflect the latest shapes and styles.

When you see the A.H.M. trade mark on a shoe, you know that not only is that mark an endorsement by the largest shoe concern in Canada, but that being the product of a highly organized industry, the shoe you are buying represents the utmost in value, style and wearing qualities which can be obtained at the price.
