BABY'S HEALTH IN THE SPRING

The Spring is a time of anxiety to mothers who have little ones in the home. Conditions make it necessary to keep the baby indoors. He is often confined to overheated badly ventilated rooms and catches colds which rack his whole system. To guard against this a box of Baby's Own Tablets should be kept in the house and an occasional dose given the baby to keep his stomach and bowels working regular. This will prevent colds, constipation, colic and keep baby well. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

MILITARY NOTES

New clothing and equipment for 180 men arrived at the armory this week.

Word has been received that Capt. B. M. Hay is returning from England to take a position in the Canadian Aviation School of Instruction.

A post card dated Feb. 17th, was received Wednesday from Wilfrid Hand. He is now in a new prison camp in Germany, having been recently changed.

Three young men of Marysville who were making for Millinocket, Me., were held up at Woodstock, Tuesday, by the military police. Two were taken to St. John and placed in Class E., and the third proved he was under age and was allowed to go on his own way.

Charles J. Jones, the junior member of the well-known law firm of Jones & Jones, has joined the 6th battery and is now on duty with his unit. Mr. Jones, although young in years, has by his excellent record won the confidence and admiration of good judges of men among the people and in his profession and no doubt greater successes were in store for him. He has joined the colors to perform the greatest duty that anyone can be called upon to perform in time of war or peace. He is one more added to the young men whose devotion to honor and country will consecrate them in the eyes of those of us who are left behind.
