

**SAVE FOOD**

In a time needing food economy many people are not getting all the nourishment they might from their food. It is not how much you eat, but much you assimilate, that does you good.

The addition of a small teaspoonful of Bovril to the diet as a peptogenic before meals leads to more thorough digestion and assimilation and thus saves food, for you need less.

5-18

**A Dyspepsia Cure**

M.D. advises: "Persons who suffer from severe indigestion and constipation can cure themselves by taking fifteen to thirty drops of Extract of Roots after each meal and at bedtime. This remedy is known as Mother Selgel's Curative Syrup in the drug trade." Get the genuine. 50c. and \$1.00 Bottles.

## DEDICATE AND PREPARE FOR Greater Food Production

Every One's Duty. Give One Week to Preparation for the Spring Crop Drive.

PLAN EARLY!

BE READY!

A SPECIAL Proclamation by His Honor the Lieutenant-Governor has been made to all County Councils to convene an extraordinary meeting to discuss ways to increase Food Production.

ALL CLERGYMEN to proclaim from their pulpits on April 14th the terrible truths of the 1918 food situation.

ALL CITIZENS to co-operate loyally in the sacred cause of producing more Food this year.

THE CRISIS IS WITH US—THE TIME OF SOWING IS AT HAND—THE RESPONSIBILITY UPON NEW BRUNSWICK IS GREAT.

**SUGGESTIONS.****PLANS—**

- (1) Arrange definitely crop rotations.
- (2) Secure seed early.
- (3) Where possible arrange to co-operate with neighbors in the seeding season. Change work.
- (4) Prepare to remain on farm every day after seeding commences until the seed is sown—Transact all necessary business now.

**EQUIPMENT—**

- (1) Carefully overhaul all harness.
- (2) Put all machines and implements into shape.
- (3) Procure the most needed repairs—Secure a few extra.
- (4) Have all tools, such as axes, saws, hammers and wrenches, ready and conveniently placed.

**SEED—**

- (1) Reclean seed unless it is satisfactory.
- (2) Treat oats for smut. Add 1 pint Formalin to 30 gallons of water. One gallon of this mixture will treat about two bushels of grain.
- (3) Treat potatoes for scab.
- (4) Have seed prepared before Spring operations commence.

**FERTILIZERS—**

- (1) Precure them early—The supply is very limited.
- (2) Have you used more than necessary in past seasons? Plan to use more green manures.

**CROPS—**

- (1) If your land is suitable for wheat sow a few acres; if not, arrange in order that some cereal will be grown.
- (2) Food, not dollars, is the great essential—Use your land so that your country and also that you may feel the best possible use has been made of every acre.

CONSIDER WHAT MAY HAPPEN IF AMERICA FALLS SHORT IN CROP PRODUCTION IN 1918!

NEW BRUNSWICK IS EXPECTED TO DO ITS DUTY IN THIS HOUR OF CRISIS.

J. F. TWEEDDALE,  
Minister of Agriculture of New Brunswick.

1918

**Studebaker**

The new Series 19 Studebaker Cars in three models embody long experience together with the latest and greatest achievements of some of the ablest and most experienced engineers and production experts in the automobile industry. These Cars are new throughout, with improved motors, intermediate transmission, new axles, bodies, tops, windshields, radiators, hoods, fenders, etc. They are beautiful in design, thoroughly modern and mechanically right.

They are unexcelled in power, speed, endurance, economy and riding comfort.

We have two carloads of these beauties on the way from the factory, but owing to transportation difficulties the time of their arrival is indefinite. They will be here, however, in plenty of time for the opening of the season of the country roads.

Wait for them. Don't buy until you see the new model Studebaker.
