About one hundred Masons from Woodstock attended the dedication of the new Masonic hall at Houlton on Friday. They all speak in complimentary terms of the new home of Monument Lodge.

Commenting on the loss by a Fredricton man, of some choice brands of liquor for which water had been substituted, the Mail says: No such bad fortune attended a Woodstock man who imported some "wet goods" from Montreal. The container was in the centre of a barrel of cucumber pickles and arrived safely. There was a profit on both pickles and "booze."

Charles Hayden, aged 14 years, youngest son of Mr. J. Albert Hayden, met with a painful accident on Thursday. He with other boys had an old muzzle loader shot gun which they overloaded with powder. Hayden fired the gun the barrel of which exploded blowing the thumb off his left hand and wound him in the head. He was taken to the hospital and is now recovering from what might have been a fatal accident.

A girl from an up river town registered at the Aberdeen hotel Saturday and on taking her departure, Monday, forty dollars was missed from one of the rooms. Suspicion pointed to the girl and Sheriff Foster was put on the case. Although very indignant at the prompt methods of the law officer, who located her in one of the rooms at the way station, she was convinced that it would be good policy to return the coin. The girl belongs to a very respectable family and appeared to feel her position very keenly.

Mrs. C. L. Smith, accompanied by Mrs. John C. Gilman, of Fredericton left Thursday night for Washington, D. C., where they will visit relatives.

COPENHAGEN CHEWING TOBACCO

Copenhagen is used differently from ordinary chewing tobacco. Take a small pinch, for a start, and put it between the lower lip and gum, in the centre. Afterwards you can increase the size of the pinch to suit the strength of the chew you desire. Copenhagen is strong, because the tobacco of which it is made is cut into fine grains, which makes it impart its strength thoroughly and quickly. Hence, a little "snatch" goes a long way, showing that Copenhagen is not only an extremely economical chew, but also one of the finest quality, being made of the best old, rich, high-flavored tobacco.

THE FALL WEATHER HARD ON LITTLE ONES

Canadian fall weather is extremely hard on little ones. One day is warm and bright and the next wet and cold. These sudden changes bring on colds, cramps and colic and unless baby's little stomach is kept right the result may be serious. There is nothing to equal Baby's Own Tablets for keeping the little ones well. They sweeten the stomach, regulate the bowels, break up colds and make baby thrive. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.
