

GRAY-DORT

UNIT by unit, and feature by feature, a comparison shows the Gray-Dort to be bigger or stronger or better than other light cars. The motor is bigger, with cooling system to match; 40-pound crankshaft; three-ring pistons; Westinghouse starting and lighting; big axles; long springs; deep upholstery; hand-tailored top; side curtains opening with the doors; Thermoid brake-linings. Any man who will take the trouble to measure and weigh and test the units of light cars will be able to see and feel the value which is in the Gray-Dort.

This value has made sales so rapid that you should see the Gray-Dort dealer at once to be sure of securing your car.
