

A Great Canadian Mining Region

The Province of British Columbia is fifty per cent larger than the state of Texas, and Kootenay is a 20,000 square mile block. It is covered with mountains throughout, there are dozens of peaks exceeding 10,000 feet in height. And these mountains are alive with wealth; nearly all the lead and zinc and much of the silver and gold of Canada come from Kootenay, and it is the leading bituminous coal producer of Western Canada. But the surface has only been scratched; it will sometime produce a hundred-fold what it at present produces.

Kootenay has the minerals, the timber, and the pulp, and it has the waterpower to turn the wheels of a thousand mills. On the Pend d'Oreille 200,000 horse power can be developed, and on the lower Kootenay 100,000 horse power, with half a million more scattered throughout the district. Many mountain streams are power generators.

The district is well supplied with railroads. The main line of the Canadian Pacific crosses the north part of the Kootenay and the Crow's Nest line of the same railway crosses the southern part. The Lake Windermere Branch, running north and south through the beautiful Windermere region, connects two lines in East Kootenay; while in West Kootenay several rail-and-lake routes connect Revelstoke on the main line with Nelson on the Crow's Nest. Car ferries operate on the Lakes. Branches of the Great Northern, crossing the American border, connect with the Crow's Nest line at Grand Forks. Trail, Nelson and Fernie; a branch of the Crow's Nest runs from Yakh across the border to Spokane.

The leading industries of Kootenay are lumbering, mining, and fruit raising. At present other lines of industry are in their infancy. Eighty per cent of the total area is covered with forest. The question of wood-pulp is intimately associated with the lumber industry. The demand for pulp and the scarcity of paper are felt in Canada and elsewhere. Canada has 83 pulp mills, but there is not a mill between the west coast of British Columbia and Rainy River, a distance of over 1,500 miles. For the purpose of mining, Kootenay is divided into two distinct parts; the coal mining field and the metal mining field. The coal measures are limited to the extreme eastern part of the district, and there are no metals there. The rest of the district is rich in metals, but has no coal.

(1) Trail Smelter, B.C.
(2) One of the Mine Buildings at Fernie, B.C.

At Trail the Consolidated Mining and Smelting Company possesses the necessary facilities for reducing lead, zinc, copper, and gold, and its Sullivan mine at Kimberley is the greatest zinc producer in the Dominion. Practically all the lead and zinc produced in Canada come from the Kootenay. The district also possesses rich deposits of fluorite and manganese.

Agriculture takes a secondary position in the Kootenay. Only along the river and the shores of the lakes are cultivatable; not 2,000 square miles out of the 30,000 can ever be brought beneath the plow.

At the present nearly all of the cultivated land is devoted to fruit raising, and trainloads of fruit—apples, pears, plums, cherries, and strawberries—are shipped from the neighborhood of Nelson, Creston and Grand Forks to the prairie provinces. The Kootenay is a sportsman's paradise. All the streams of that region teem with mountain trout and the mountains are alive with four-footed game. The district is famed for its big game; the mountains are full of deer, mountain goats, black bear, and smaller game of many sorts. Big game and grizzly bear frequent the mountain tops, and elk are extremely plentiful in the upper reaches of the Elk Valley.

The mines of the Crow's Nest were opened in 1893, since which time they have produced millions of tons of coal. The annual production is now in excess of 3,000,000 tons. The following figures, giving the exports to the United States alone, will give some idea of the present production and potential resources of this coal field: In 1916 the coal exports to the United States amounted to 535,187 tons, valued at \$1,277,417; in 1917, 541,518 tons, worth \$1,200,440; in 1918, 507,229 tons, valued at \$1,930,963; and in 1919, 534,675, worth \$2,116,652.

This great coal field has been tapped only at a few points where railway facilities are available.

WEDDINGS

Bruce-White

A wedding of interest took place at St. James church, Centreville, on Wednesday, September 8th, when Miss Mildred L. White, elder daughter of Mrs. G. L. White and the late G. L. White was united in marriage to Willard M. Bruce, manager of the Bank of Nova Scotia, formerly of Bank of Nova Scotia, formerly of Montague, P. E. I. The bride, who was given away by her brother Harold, wore a becoming travelling suit of navy blue tricotine and carried a large bouquet of pink roses. Miss Mollie Cody, cousin of the bride, presided at the organ. The church was beautifully decorated by friends for the occasion. Following the ceremony a reception was held at the home of the bride and an elaborate luncheon was served to about 25 guests. The bride and bridegroom were the recipients of many beautiful presents, among which were silver scallop dish, silver bread tray, 1 doz. silver tea spoons, two table spoons, cut glass water set, carving set, purse, luncheon set, centre piece, mahogany serving tray, cut glass celery dish, pie plate in stand, percolator, and cheques. The groom's present to the bride was a cape stole and muff of Alaskan sable, and to the organist a gold pin set with amethysts. Mr. and Mrs. Bruce left on the afternoon train for a short honeymoon to St. John and P. E. I. after which they will reside in Centreville.

KILPATRICK-FULTON.

A very pretty house wedding was performed at the home of the bride, Bath, on Sept. 15th, at one o'clock by the Rev. F. Arnold Wightman, when Miss Hazel Adelaide, daughter of John D. Fulton, Esq. and Mrs. Fulton was united in marriage to Mr. Hazen Kilpatrick of Upper Wicklow. The bride was attired in full bridal costume and was unattended being escorted to her place beneath an arch of flowers while the wedding march was very sweetly played by Miss Idella Melsaac of East Florenceville. Rev. Mr. Howlett assisted in the ceremony. After a dainty luncheon the young couple took the train for a brief honeymoon accompanied by the best wishes of their many friends. The bride has been the efficient organist of the Methodist church for some years and will be greatly missed.

KELLY-McKAY

At the home of the bride, Florenceville, N. B., on Wednesday, Sept. 8, Miss Ella May, daughter of Andrew McKay and the late Mrs. McKay, was united in marriage to Coburn F. Kelly, of Kingsclear. The ceremony was performed by Rev. F. Arnold Wightman.

CULTIVATE HABIT OF SENDING IN NEWS.

One of the things that ought to become a fixed habit in every household in Carleton County is that of sending the Sentinel the news items that you may know of; tell us of your news and any neighborhood or other items that will be of interest to yourself, your neighbors or your friends.

Every lodge, church, body or social organization should have some representative who will look promptly and carefully after its news reporting, if you think some organization has better news service than your own, it is probably because that organization looks after such matters better.

Write your items and send them in where possible. Or telephone them, but please don't ask that long lists of names be taken over the telephone, as it not only requires much time, but usually errors occur in lists thus given.

Above all, be early. Never wait till the last minute to send an item that can be sent in early.

The Sentinel's telephone number is 55-41. Fix it in your mind.

The Price

"You'll like the flavor"

man in the presence of a gathering of invited guests. Miss Pearl M. Anderson, of Centreville, the little niece of the bride, acted in the capacity of flower girl. After the ceremony and registration the company sat down to a dainty luncheon, after which the newly wedded pair were accompanied to the railway station amid showers of rice.

The bride was attired in a gown of mauve georgette and taffeta and her travelling suit was of navy blue serge with hat to match. After a wedding tour to St. John and other provincial cities they will reside in Kingsclear. Mr. Kelly is a prosperous young farmer in Kingsclear.

ARNOLD-SHEEHAN.

Miss Josephine Mary Sheehan, daughter of John Sheehan of this city became the bride of Eugene Carl Arnold, son of Mr. and Mrs. Edward Arnold of Boston, Wednesday morning in the Cathedral of the Immaculate Conception. The ceremony was performed by Rev. Raymond McCarthy following nuptial mass. The bride who was given away by her brother Humphrey J. Sheehan, was attired in a charming costume of white crepe de chine and white georgette, with bridal veil and wreath with orange blossoms and carried a shower bouquet of white asters. Her little niece, Miss Kathleen Sheehan, was flower girl, and presented a pretty picture in her dress of white organdie over pink chiffon and carried a basket of sweet peas. A wedding breakfast was served at the home of the bride's brother, H. J. Sheehan, Richmond street, after which Mr. and Mrs. Arnold left on a trip to Boston and New York. On their return they will reside in Woodstock. The bride's going away costume was of Oxford grey with black tailored hat. The groom is a well known musician who was in the city for some time before going to Woodstock, where he is now employed. Their many friends will extend hearty wishes for much happiness. —St. John Standard.

A CLOSE RACE

An Englishman, a Scotchman, and an Irishman were indulging in reminiscences of sporting occasions.

"The closest race I ever saw was a yacht race," said the Englishman, "in which one of the boats that had been recently painted won by the coat of paint."

"The closest race I ever saw," declared the Scotchman, "was one in which a horse stung by a bee, won by the height of the swell on his nose."

"The closest race I ever saw," said the Irishman, "is the Scotch."
