I AM

STROHEIM

They call me "The Satan of the Screen." That's because, in "BLIND HUSBANDS," I play a polished villain in the only way a villain should be played—to make you hate him! But if you're a woman, I don't think you'll hate me—you'll only be fascinated—because I know so much about you! You'll know that I know how to show wives when they're neglected—how to win their affections—how to place them where they'd finally be at my mercy. And though you'll stoutly deny that the wife in "BLIND HUSBANDS" is to blame, you'll sympathize with her longing for love and you'll lay it all at her husband's door—and mine. If you don't, you're a very unusual woman—just as "BLIND HUSBANDS" is a very unusual photodrama. Come and see. You'll have the most tremendous hour you've ever had at any moving picture. HON. W. E. FOSTER
Premier of New Brunswick

To The Women of New Brunswick

For the first time in Provincial affairs the full and free right to the franchise is extended to women, and all those registered have the privilege of voting October 9. Many women will thus cast their ballots for the first time, and it is fortunate that the issues in this election are so clear-cut and clearly defined. Women electors must choose between the two parties, one lead by Hon. W. E. Foster, the Government party, and that led by J. B. M. Baxter, the Opposition party.

Governments are judged on their records. Oppositions must be judged on the records of the men composing that opposition, coupled with their pledges for future performance.

Consider the record of the Foster Government:

1. They gave the provincial franchise to women.
2. They have greatly extended and enlarged the beneficial work of the Women's Institutes in New Brunswick.
3. They enforced the Prohibition Act of 1916 and granted a plebiscite which will result in the Act being strengthened and made permanent.
4. They have protected the family of the workingman through the creation of a Workmen's Compensation Board which does away with the necessity for legal action before the injured workman is recompensed for time lost and for doctors' bills, hospital fees, etc.
5. They have cleared the province of smallpox, rendered practically the whole school population immune from the disease and introduced a system of medical inspection of schools unrivalled by any other province of Canada.
6. They have taken steps to prevent the spread of social disease and through progressive legislation put in force the proper keeping of vital statistics, thus assuring every child born in the province its own legal rights.
7. They have increased materially the government grant to teachers and made adequate provision for technical training in Vocational Schools.
8. They have raised the whole standard of rural life through proper attention to road building, both back and front roads, making possible as well the more ready sale of and better prices for farm produce.
9. They have guarded the finances, preserved the Crown Lands and have taken the first and most important steps for the development of our Water Powers, which means eventually more work and better wages in industrial centres.
10. They have conducted the affairs of the Province throughout three and one-half years in an honest, business-like manner without breath of scandal or suspicion of wrong doing.

NOW WHAT OF THE OPPOSITION?

Their record while in power was strikingly bare of Progressive Legislation, while they must face responsibility for the timber limits scandal, the Valley Railway scandal, the Southampton Railway steal, the Patriotic Potato mess, and the unsavory transactions which altogether took \$500,000 from the people of the Province. And yet the Opposition party, so far, has produced no platform but this slogan:

"WE STAND FOR THE SAME PRINCIPLES"

Women surely stand for Purity in politics and all that is best in public life. Need they hesitate?

The leader of the Government, HON. W. E. FOSTER, is a family man with private life above reproach, who, at an early age, assumed the full duties of citizenship, and who is known everywhere as a man of high ideals and rare qualities. He and members of his government are worthy of every woman's confidence.

Vote For The Foster Government Candidates

SIMMS, COMMINS

THE GOVERNMENT'S POLICY

(Extract from Premier Foster's Manifesto to the Electors)

- To sum up very briefly the Government, when returned to power proposes:
- To give the greatest possible assistance to agriculture in every shape and form.
 - To lend most vigorous support to hydro-electric development and to further the same by using the credit and resources of the Province in order that the people may have the cheapest power and light for their use.
 - To continue our policy for the improvement of all the roads of the Province, back roads as well as front, farmers' roads as well as those for the use of automobiles, giving an equal policy for fair play to everybody, no matter where they live.
 - To give further encouragement to education, not only in the common schools of the Province, but to vocational education and to agricultural education, so that the young people of New Brunswick will have equal opportunities with the youth of any other Province.
 - To provide such labor legislation within provincial jurisdiction as may be called for by the findings of the national industrial conference and the international labor conference.
 - To conserve energetically and carefully our timber resources and to give every encouragement to the development of mining areas.
 - To continue our policy of protection of public health and give such assistance as we can to hospitals and institutions necessary to provide for those unable to care for themselves.
 - To guard the interests of the people at all times.
 - To maintain provincial rights.
 - To inquire into the best methods of including immigration to the Province and to make such arrangements with the other Maritime Provinces as will be conducive to this.

TO THE ELECTORS OF THE COUNTY OF CARLETON:

Ladies and Gentlemen,—We the undersigned candidates in support of the Provincial Government courteously solicit your support in the General Election for our Province on the 9th. of October, instant.

The Foster Administration deserves the support of the people of this county and province. It is not necessary or convenient to give details why, but the following are ample reasons:

1. That in spite of the hard conditions imposed by the Great European War, the credit and financial standing of our Province has been maintained, and better showing made in these matters than many of the Provinces of the Dominion.
2. The Foster Government has spent nearly four times as much on the roads and bridges of the country than the former government. The total of the last three years of the old government was slightly over one million dollars, whereas the present administration in a like period has spent over three and one-half million dollars. The permanent work in Carleton County speaks for itself.
3. Agriculture has received special attention, the Government has co-operated with the farmers in the purchase and marketing of live stock, the ordinary work of the Department has been improved and extended. The policy of getting ample supply of crushed lime rock for the farmers at a low cost should appeal to all. What say you of the assistance given the Woodstock Exhibition? Every elector is familiar with those fine buildings and equipment.
4. The Crown Lands are our chief natural asset. In place of the old haphazard methods, these lands are being classified and every dollar of the stumpage collected. Under the increased stumpage the revenue for the present fiscal year is placed at fifteen hundred thousand dollars.
5. The scope of education has been extended by establishing Vocational Schools. Carleton County boasts of the first one established in the Province. The salaries of the teachers have been increased insuring a supply of efficient teachers for the country schools.
6. Ladies of Carleton County, the Foster Government gave you the right to vote in this election, will you not give that Government your support?
7. Among other good and progressive legislation may be mentioned the Public Health Act—remember its services in time of the "Flu" epidemic—the Jury Act, the Workmen's Compensation Commission, and legislation enabling the water powers of the Province to be developed.

Ladies and Gentlemen—The time is too short to enable us to visit you personally. If you favor us with your votes on election day, we assure you to give the affairs of this county our best attention. Remember that the Foster Government will be returned and it is of vital interest to this county to elect supporters of that Government.

Yours faithfully,

E. M. COMMINS,
R. L. SIMMS
