A BIG SPECIAL IN SEVEN REELS

ANITA STEWART IN "MARY REGAN"

Her father that one-time famous cynic and master criminal, 'Gentleman Jim' Regan; her mother the headstrong daughter of aristocratic parents—Mary Regan came into her inheritance as she emerged from a girlhood haunted by fear of the law into a young womanhood with the nerve and wit to defy it. Then Bob Clifford met her and offered her honest love—but she had so long lived and reasoned as a crook, the old gang and associations clung so firmly to her

that the love story of

HOSPITAL OPENED FLU SITUATION NOT SERIOUS

The Health Board have completed arrangements for a hospital to care for flu patients. Two rooms in the armory have been fitted up and made comfortable. Twelve beds and other equipment were sent from the military department, St. John. The flu situation here has been exaggerated. There have been very few cases and one death. If the malady becomes prevalent the situation can now be handled and those needing medical aid and nursing will be attended to properly.

HEATED SESSION OF GRAIN GROWERS

Saskatoon, Feb. 26.—At noon today, eighteen hours after 2,000 members of the Grain Growers' Association in convention here had decided to place the whole question of the provincial political activities of the organized grain growers in the hands of a committee of five, the association unanimously rescinded their previous action, accepted the absolute resignation of the committee from its duties and passed the work over to the central board in conference with the board of the women's section.

Amidst a scene of excitement, the like of which has never been seen in any previous convention of the association in history, J. B. Musselman, secretary, charged the association with being the cat's paw of a clique who were out to use the organization to further their own political ends and warned them that their attitude was placing the association in a state of absolute chaos, the situation became so warm that President Maharg had to warn the delegates that they were permitting themselves to do things against which they had fought years and were in danger of splitting the association into a thousand pieces.

Despite an obvious attempt on the part of some to have the whole question re-opened with a view to having another vote taken on the question of immediately entering the political field provincially, some of the delegates held the convention together and put through a motion that the formation of the provincial platform be left to the central board in consultation with the board of the women's section.

This means that the next general convention, a year from now, will have to accept or refuse the provincial platform prepared by the two boards named. In other words the association is in the same position at this time as they were last night except that the work is to be done by the central board instead of five delegates.

STABBING AFFRAY COMMITTED FOR TRIAL

Charles A. Clark, an aged man from Debec, was before Police magistrate Charles Comben on Monday and committed for trial at the April sitting of the Circuit Court on charge of assault and causing actual bodily harm to Oliver Blackmore.

It seems that the Blackmores live with Clark having taken over his property for maintenance and the usual quarrels in such cases arising with the result of landing in the courts.

C. J. Jones is representing Blackmore and R. L. Simms the defendant. The defendant's counsel offered no evidence, reserving his case for the trial.

The snow storm which is still raging, is said to be the heaviest since 1897. All trains are delayed and many cancelled.

The new thawing machine put into operation by the town manager is a device of ingenuity and is accomplishing much work in clearing service pipes about town.

Mr. S. Grant, manager of the Central Garage, Hartland, was in town, Thursday.

Mrs. Agnes Coes, of Presque Isle, Maine, sister of Mrs. Walter Treacartin, of Upper Woodstock, has been very ill of influenza.

Mrs. Helen Horsman, of Presque Isle, Maine, has been very ill of influenza.

A. B. COPP RENOMINATED IN WESTMORLAND

Westmorland County Liberals, in a largely attended convention at Moncton, unanimously selected A. B. Copp, M.P., as the Liberal candidate for this constituency at the next Dominion election. Mr. Copp accepted. James McQueen, president of the Liberal Association, presided.

Resolutions were passed expressing regret at the passing of the late Sir Wilfrid Laurier, expressing confidence in the leadership of Hon. W. L. Mackenzie King, also in the work of

A. B. COPP, M.P.

the Provincial Government; welcoming the advent of women into politics, expressing disapproval of the present Federal Government's "lack of policy toward the alleviation of labor unrest. The convention also passed a resolution regretting the illness of John T. Hawke.

Senator McSweeney sent a letter regretting his inability to be present at the convention, the first he had missed in forty years. "So far as I can see," said Senator McSweeney, "it will be a walk-over for the candidate chosen by this convention as the coalition government is tottering to a fall."

Hon. E. A. Smith sent a letter regretting his inability to attend, and adding: "The conditions of unrest brought about by the continuation of a government long since passed its usefulness and certainly not representative of the people can, in my opinion, only be restored to one of peace and contentment by the great Liberal party under the leadership of Mackenzie King so eminently fitted to carry out our platform for the benefit and justice of all classes and groups of people constituting our Dominion."

Edgar Neil, who has been the efficient operator at the Hayden-Gibson picture house has been promoted to manager of the Vogue Theatre. Chas. Johnson will be the operator. Manager Callan has been transferred to Campbellton. Very extensive improvements are to be made at the Vogue and the best pictures available will be shown. Patrons of the house will wish Mr. Neil every success in his new position.

Campbellton Graphic: A distressing accident occurred at Ervin Floyd's store, Saturday night. A. LeBlanc, tailor, broke his leg. Mr. LeBlanc was in the act of leaning over on his cork leg, and in some unaccountable manner slipped, breaking his leg between the point at which the cork leg is fastened and the hip. He was at once removed to his home and a physician called in, who rendered the necessary surgical treatment.

IMPROVING THE ROADS OF THE PROVINCE

(Moncton Transcript)

The Provincial Government's vigorous efforts to improve the roads of the province is in line with what is being done in the other provinces and in the United States. The only drawback is that the roads have been so neglected under previous administrations that very large sums are required to show good results. Had a few million dollars been spent on our roads years ago it would have been a good investment, for then wages were low and money went a long way.

The present government has spent about \$2,000,000 on permanent roads and there is general testimony to the marked improvement which has been effected all over the province. To secure this money the Government funded the motor vehicle tax, which is increasing every year. Motor vehicles are hard on roads, and it is only proper that their owners should contribute to the making of permanent roads. The present motor vehicle tax will provide interest and sinking fund on all the money spent so far on permanent roads and charged to capital account. As the number of vehicles increases further amounts will be available for funding.

Most of the American States are arranging to spend enormous sums on road work this year. It is said an immense impetus has been given to the Good Road Movement by soldiers returning from France where they saw how much good roads contributed to the comfort and convenience of a people.

PERISHED IN THE STORM

During the terrific storm February 19th, Edward McIntosh left Scott Siding for his home in Maxwell about 3 o'clock in the afternoon. Not arriving, his family became alarmed and had started a search when his body was found a few rods from his house. He had apparently fallen from exhaustion and perished. During the winter he had been engaged in hauling pulpwood. A man of about 70 years of age and well known and highly respected, his tragic death is greatly regretted.

Fraser Companies have completed the purchase of the property of the Upham Lumber Company, consisting considerable tract of the New Brunswick well equipped mills and a wick Railway Company's lands in Victoria county, held under lease, George W. Upham, ex-M.P.P., of Woodstock, manager and president of the company, was in Fredericton last week in connection with the sale. The price is said to be in the vicinity of \$100,000. The mills are located near to Summit on the line of the N. T. R.

Despite the blizzard which raged here Sunday night the Opera House contained a fair number of citizens who braved the storm to hear His Honor Judge Carleton deliver his lecture entitled "Irish Wit and Humor." Those present were favored with an intellectual treat and the thanks of all is due the Knights of Columbus who brought the speaker to Campbellton.—Campbellton Graphic.

Mr. C. H. Shaw, the genial representative of the Canadian Linotype Company, was one of the Sentinel's visitors this week.

Mr. Carleton Fisher, of Presque Isle, spent Sunday here.

Important Request

To all fathers, mothers, and wives or other near relatives or friends, of the soldiers that died from the effects of the war belonging to or at the time residing in Carleton County, are hereby requested to supply the Councilors of their respective parishes with the name and rank of the fallen heroes of their parish, on or before the first day of March, A. D. 1920 for the purpose of having said names engraved on the Soldiers' Monument to be erected between the walks at the County Court House, Woodstock. It is important that no name be missed.

FARMERS' MEETING AT DEBEC

Addresses on Timely Subjects—
Farmers Must Make Choice
Between Two Political Parties
—Telegram Sent Hon. McKenzie King.

The second annual convention of the farmers of Debec was held Thursday afternoon and evening. Some two hundred men and women were represented. The weather was stormy which affected the attendance although every section was represented.

The meeting was called to order by Gordon Griffin and Wm. Crabbe was chosen as chairman. Mr. E. P. Bradt, Deputy Minister of Agriculture, gave a most instructive address on live stock improvement. Rev. Charles McLaughlin spoke on the importance of good roads for farmers, financially, socially, educationally and religiously. Both speakers were followed with deep attention.

The meeting went into session for a discussion of the subjects treated and to determine their attitude toward the United Farmers' political party.

A general discussion followed in which many took part and it was finally decided that the farmers' party, in the east, would eventually defeat the very ends for which the farmers were working. The two party system was sufficient for Canada and for the farmers, and the farmers must make their choice between the two. If the country allied with the great reciprocity party could not win in 1911 it was all nonsense for demagogues and political adventurers to tell the farmers they could win single handed and without alignment with a low tariff party. It was unanimously agreed that all the forces of the country should be united to drive the Union Government from power at the next election, and that the farmers of the east should take no chances by attempting to fight it alone.

The following resolution was passed and wired McKenzie King: "Farmers, men and women, representing two hundred citizens in annual convention here assembled pledge you unflinching support in your efforts to restore parliamentary government for the people and by the people."

THE MAINE AND N. B. SYSTEM

(Port Fairfield Review.)

The Review office is easily losing over \$10 a week through the weakness of the power of our electric system. Besides finding the office so dark that fast work and correct work can hardly be done, the linotype, upon which much of the work of the office depends, runs only about three quarters as fast as it should run. And the same losses to a certain extent hold good with other people who are using electric power. It is no wonder that our people are interested in this matter and that they are wondering if power can't be secured within a few years from Grand Falls, or somewhere where they have enough water and fall to produce the energy necessary.

Mr. F. T. Pridham, of the Harvey Studio, was in town this week and completed arrangements whereby he will remove his studio over Vanwart's furniture store to more commodious apartments in Atherton & McAfee's building on Main Street, as soon as extensive alterations are made. This step Mr. Pridham has taken in order to take care of the rapidly increasing business of his well known concern. He returned to Fredericton Tuesday.

Extreme weather conditions, which have been prevailing for several days, tied up traffic, delayed mails and caused a general disruption of ordinary life. Milk men and delivery teams were also away of their schedule. This has been a real winter and the "oldest inhabitant" has little to say.

A returned soldier, suffering from wounds and endeavoring to take a vocational course was arrested and lodged in jail Monday for an alleged amount due on a delapidated automobile. The parties concerned are from Avondale.
