BUY SILVER TO USE.
The features that make silver so desirable for wedding and other gifts—beauty, inherent value, style—are the very points which make it desirable for one's own use.
Good silver is economical equipment for the dining room. It need never be replaced, for only gross carelessness can break it, and with a little attention its handsome appearance is maintained for a life-time.
At Gibson's are silver pieces you will be proud of in your home. Add them to your service.

Driving Men Awry.
The constant appeals for various funds from the pulpits of the Methodist churches are driving men away from the church, according to Rev. Dr. Irwin, of Grimby, at the Hamilton Methodist conference. "Preachers are getting irritated with the constant appeals of secretaries asking for financial support of their special department," said Dr. Irwin. "In our churches today there are appeals for something outside the church altogether on an average of once every two weeks. This thing is not to the interest of the church. We must preserve the principles of democracy in the denomination, if we are to succeed."
