ADAM AND EVE ARE ARRESTED AS POACHERS

Couple Living Simple Life in Maine Woods in Trouble With Authorities

Houlton, June 9.—Excitement prevailed on all sides late yesterday when it became known that Mr. and Mrs. Carl Sutter, the modern "Adam and Eve" of Boston, were under arrest and had been brought to Houlton.

The couple were accompanied by C. Obery and L. McLellan both Boston newspapermen, by P. E. Jorgenson, chief warden of southern Aroostook, and Howard Wood, chief warden for Penobscot and southern Aroostook counties. Mr. and Mrs. Sutter were taken to Exchange Hotel where they are both now under the supervision of the law. They were allowed to travel

and is tonight uncertain as to whether she will be allowed to return to the woods to complete her six weeks or not. She is of tiny stature, dark-eyed and striking her muscle is as strong as a board, her flesh is tanned and torn by sun and briars showing that she must have suffered terribly at times and her flesh shows the marks of insect bites.

When arrested she was six miles from the clearing and in an interview with the game warden high praise was awarded Mrs. Sutter for her endurance for she walked six miles in her bare feet over briars and stones without hanging back or complaining.

WILL INSPECT ALL AROOSTOOK POTATOES

Growers Association Decides on Uniform 10 Peck Package

(Aroostook News)

The Aroostook Potato Growers Association have decided to support federal and state inspection of potatoes and inspectors will be located at every shipping point. This decision was reached at a meeting of the association which was held in Caribou this week. It was also decided to use a standard ten peck sack for shipping. At this meeting it was announced that the present membership of the association control 85 per cent of the potatoes shipped from the county. The meeting was attended by about 250 growers and shippers and many questions of interest to the trade were discussed.

The motion concerning the sacking of potatoes read as follows: Starting in the fall of 1922, the Association will adopt a standard ten peck package, thus eliminating all other sizes of sacks and also bulk shipments and making such shipments compulsory on the part of the Association members.

This issue as well as the inspection issue are for mutual protection both to the receivers and the shippers and are not in any way antagonistic.

The inspector at shipping points will insure the receiver of getting what they ordered. It will mean better grading. The standard package will bear the name of the shipper which will add a personal touch to the shipment and make a shipper take pride in sending out good potatoes. It will also enable the shipper to reduce his overhead.

NEW BRUNSWICK CROP REPORT

Fredericton, June 15.—The semi-monthly crop report to June 15 by the provincial department of agriculture estimates the area in acres sown to oats, hay and potatoes as follows: Wheat—26,900 Hay and clover—701,000 Potatoes—74,000 The report says: A slight falling

HEALTH MESSAGE TO THE WORLD

Take "Fruit-a-lives" And Make Yourself Well

"Fruit-a-lives", the marvellous medicine made from fruit juices and tonics, is the most beneficial medicinal agent that has ever been given to mankind.

Just as oranges, apples, figs and prunes are nature's own medicine, so "Fruit-a-lives"—made from these fruit juices—but concentrated and intensified—is the greatest Stomach and Liver Medicine, the greatest Kidney and Bladder Medicine—the greatest Blood Purifier—the greatest remedy for Headaches, Constipation, Indigestion, Nervousness and Bad Complexion—in the world. To be well, take "Fruit-a-lives"

50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

off in the acreage sown to wheat, compared with last year is observed. The area of other crops is about the same with a slight increase in the acreage of hay and clover.

Hay meadows are well advanced. Red clover has commenced to bloom. Oats ten inches high. Potato planting is completed and in most sections these are well advanced out of the ground. Turnips and buckwheat sowing will be completed by June 20. Pastures have gained remarkably on account of favorable showers though the milk supply is scant owing to the thin condition of stock when turned out.

Labor is plentiful. Wages range from \$25 to \$35 per month and board.

TICKLISH

(Teacher)—Now, Eric, how many ribs have you?

Eric—I don't know, Miss. I'm so ticklish I can never count em.

Doctors Give Up His Case of Eczema

Wonderful recovery of a very sick man

This is one of the many striking stories we are publishing of what the D. D. D. prescription is accomplishing among Canadian sufferers. Cases from your own neighborhood will be sent on application.

"I was laid up all winter with weeping eczema. I tried every doctor in reach. Both hands, arms and legs to my knees were a sight. I have used several bottles of D. D. D. and am well of the terrible disease. D. D. D. is certainly cheap after the doctors."—Peter Mercer, Ft. Burwell, Ont.

The first drop of D. D. D. and the itch is gone. Your money back if the first bottle does not relieve you. \$1.00 a bottle. Try D. D. D. Soap, too.

The Master of the Highway Has Earned the Respect of its Owners

The test of any manufactured product is its ability to make and keep friends.

No motor car can be truly great until its owners stand solidly behind it with one undivided opinion—one expression of Confidence, Respect and Loyalty.

On this basis the Paige 6-66 has indeed achieved true greatness. Its owners are a unit in endorsement.

Talk to one of them—or one hundred of them—and you will encounter an active pride of ownership that is finally convincing.

They are proud of this car because it is the most distinctively beautiful creation in the entire field of motor vehicles.

They respect it because it possesses the spirit of the thoroughbred—a spirit that has won track honors and hill climbing records at 100 points in the nation.

They believe in the 6-66 because it has fulfilled every expectation of its giant power plant and superbly designed chassis.

And they drive it with the serene confidence and perfect control of a Master of the Highway.

THE MOST BEAUTIFUL **PAIGE** CAR IN AMERICA

THE AUTOCAR, February 11th, 1922.

A STUDEBAKER "LIGHT SIX" ON THE ROAD.

Studebaker
"Built-in-Canada"

HIGH PRAISE from a Standard Authority

Recently a week's trial trip through England was made by a member of the staff of "Autocar," one of the highest British authorities on motor matters. The results of this trip emphasize the practical points of the Light-Six for the owner-driver. A few extracts are printed below:

"It is unusual to encounter a five-seater car selling in the neighbourhood of £500 with a performance equal to it. Its six-cylinder engine is remarkably silky in its operation, silent, flexible to a wonderful degree. Our first trip was through London traffic, but we soon felt thoroughly at home, since the control gear is free and easy of operation, and the engine is content to tick over on top gear at speeds even below normal walking pace without signs of distress. Hill-climbing is a joy on such a vehicle. We do not recall ever having encountered a lighter clutch operation. A twelve-gallon tank at the rear is ordinarily sufficient for a run of 300 miles. This low consumption is, of course, largely due to the light weight of the complete car, which scales little more than a ton. To sum up, we are bound to say that the new Studebaker is a car of remarkable all-round achievement."

Lack of space prevents us from quoting the full comments in this article. However, we will be glad to send a reprint of the article in full to anyone who is interested.
