A Quick Start—Yes!

and smooth acceleration, full power, and big mileage from this New Gasoline

The first quality which you demand in gasoline is of course unusually quick starting ability. But good gasoline must also possess other qualities if you are to get out of it all that your money should buy.

It must pick up quickly and accelerate smoothly.

It must deliver the maximum power and speed which your engine is designed to develop.

It must run your car or motor boat the greatest distance for the least money.

It must be of uniform quality with supplies available everywhere, so that your carburetor, once adjusted to burn it efficiently, will not need to be changed as would be the case if you were constantly switching from one fuel to another.

For years we have been working to develop such a gasoline. At last we have succeeded—and the *new* Imperial Premier Gasoline which is now being supplied from our Imperoyal Refinery meets every requirement of modern types of carburetors and engines.

The *new* Imperial Premier Gasoline *will start your motor even more quickly than Queen Gasoline* which some motorists have been using. As it excells Queen Gasoline—a special fuel for lighting plants (not motors)—in many other ways and can be sold for less, we have concentrated on the production of this one superior quality motor fuel—the *new* Imperial Premier Gasoline. We do not manufacture any other gasoline for engine use.

We urge you to test out the *new* Imperial Premier Gasoline and convince yourself that it is everything we claim. Compare it, if you will, with the results which you get from any other gasoline no matter what its price.

The *new* Imperial Premier Gasoline is produced in our Imperoyal refinery. The men who make it and the men who sell it live and make their money—and spend it—in the Maritime Provinces.

Make this test:—Have your tank filled with the *new* Imperial Premier Gasoline. Then have your carburetor set to use this new fuel so you really can enjoy to the full, the satisfactory trouble-free service which a lean, economical mixture will give you.

OTTAWA LETTER

Ottawa, Sept. 16—Kitchener, Waterloo county and the county of North York have vied with one another during the week in doing honor to the Prime Minister, Rt. Hon. W. L. Mackenzie King, who has visited his birth place and the county which he represents in Parliament, renewing old acquaintances and carrying a message of good-will. Men, women and children turned out en masse at all points visited by the Prime Minister to hear his speeches and to voice their confidence in his leadership.

At Kitchener, Rt. Hon. Mr. King was honored alike by men of all political parties, and to them he stressed the need of good-will among all the elements of this Dominion if Canada was to take her proper place among the nations of the earth. People of different classes, races and creeds must work together, bearing no ill-will, but co-operating for the benefit of the whole Dominion.Rt. Hon. Mr. King urged, and maintaining the best raditions and beliefs if they would continue to progress. The war had given rise to a spirit of ill-will and had brought to light many prejudices between the people of one great Dominion. These prejudices and evidences of ill-will must be wiped out and the government, as far as possible, stood prepared to take the lead, is seeking to get back to the channels of good-will and respect for the rights of minorities.

The announcement of the government's immigration policy, which is one of settlement on the farms of Canada of the right class of people to make farming a success, has brought commendation from many outside points. Great Britain has welcomed it and it is expected that during the course of the next month or so, there will be further developments following the visit to Ottawa of Col. Amery from London. Prospects for the next few years are that Canada will build up her population immensely by admitting the class of people from the older countries who will be of value to this Dominion as agriculturists.

The Federal and Provincial governments will co-operate closely in bringing from Europe and the United States the proper class of immigrants and in seeing that these new citizens are given a fair start on their way to prosperous Canadian citizenship. Canadians who have gone to New England States within recent years will be repatriated as far as possible and the surroundings of both these and the newcomers will be made as congenial as possible, as far as schools etc, are concerned. Household workers are also to be encouraged to come to Canada and efforts will further be made to bring from the Old Country 'teen-age boys and girls who will grow up into good citizens.

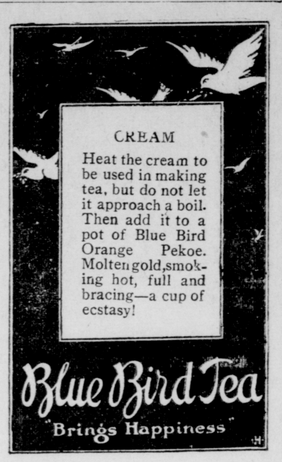

The matter of an immigration policy has been under careful consideration for some time, and the announcement by Hon. Chas. Stewart of what was proposed for the settlement of the vacant lands of the Dominion has given an impetus to the Canada-ward movement which has been evident in the older countries since the termination of the war.

Introducing business administration in the Post Office Department, Hon. Charles Murphy, Postmaster General, has made some radical changes in the conditions there and as a result the whole country is feeling the benefits. Some time ago Mr. Murphy inaugurated a system of fortnightly conferences between the heads of all branches of the Post Office Department with a view to promoting co-operation and bringing the department on to a real business basis. Hon. Mr. Murphy has now called a conference of postal district officials to open in Ottawa on October 2nd, to bring about an interchange of ideas and promote further efficiency which will be greatly to the interests of the public of the Dominion. All provinces of the Dominion are to be represented by experienced postal officials and it is likely that this conference will be followed by others in due course. One of the questions to be discussed will be the agenda for the conference between Canadian and United States postal officials which is to be held later.
